

### DAYAN WARNS ON AWACS

MONTREAL (WNS) Former Minister Moshe Dayan warned that if Saudi Arabia uses the AWACS reconnaissance planes that the Reagan Administration proposes to sell to them to spy on Israel, and then transmit that information to other Arab nations, Israel would "shoot them down, and go to war with them."

Dayan spoke to reporters at a Combined Jewish Appeal luncheon at the Shaar Hashamayim synagogue and covered a wide range of topics in the Middle East.

On the autonomy talks, Dayan said that if they are to succeed, Israel and Egypt will both have to be more flexible. Dayan said he also detected a "sign of maturity"

in the Palestine Liberation Organization's observance of the cease fire on the Lebanese - - Israel border although they continue to stockpile more weapons and prepare for war. He warned that "if they don't respect the cease - fire we (Israel) will enter the

area they control and clear it of all tanks and heavy weapons." Dayan insisted that Israel could never hold a dialogue with the PLO because its one aim is the destruction of Israel by terrorism.
