

SEN PERCY RAISES SOVIET JEWRY ISSUE

Senator Charles Percy (R-Ill.), Chairman of the Foreign Relations Committee, has told the World Jewish Congress that the issue of Soviet Jewry will be raised by President Reagan and be placed on the agenda of issues to be discussed at the forthcoming Soviet-American summit meeting.

This information was conveyed during the course of an extraordinary session of the WJC American Section on Capitol Hill where wide-ranging discussions were held with leadership of the Foreign Relations Committees of both the Senate and the House of Representatives. Following their meetings in the Congress the leaders from two dozen national Jewish organizations were received by the Egyptian Ambassador His Excellency Ashraf Gorbhal at his private residence where an in-depth exchange of views on salient political issues was

held. Meeting in the Foreign Relations Committee Chamber of the Senate Alan Cranston (D-Cal) joined Senator Percy in advancing the view that based on previous experience and their current dealings with high Soviet officials a strategic approach based on a firm and effective policy of "quiet diplomacy" on the Soviet Jewry issue would probably do more to accomplish desired ends. In this regard Percy referred to conversations he had had with Soviet Ambassador Anatoliy Dobrynin in which the latter indicated that Arab pressure was being applied on this issue. He quoted Dobrynin as saying that with each publicized case the "Arabs would come to shout at me." Dobrynin, according to Percy, had further indicated that progress in the general climate of East-West relations would bear favorably on the Soviet Jewry issue.

JUBILEE IS A SMASH

JERUSALEM (WNS) -- The police department has launched a new campaign to encourage victims of rape and other sex offenses to report these crimes to the authorities. Deputy Police Commissioner Meir Kaplan of the Criminal Identification Department told a press conference that the police are cooperating with hospitals treating victims of sex offenses.

TEL AVIV (WNS) -- The Ministry of Defense has agreed to a proposal by the Military Government of the West Bank that moderate leaders of the League of Arab villagers should be allowed to carry arms or arm their bodyguards, for personal defense. Members of the Village League, a moderate informal grouping supported by a Military Government as a counterweight and viable option to the Palestine Liberation Organization leadership, asked to be allowed to carry weapons following the assassination of one of their members by extremists. Other Arab leaders have opposed the idea indicating that it may lead to further bloodshed between armed groups.

JERUSALEM (WNS) -- Prof. Menachem Milson of the civilian administration in Judaea and Samaria has resumed meeting with influential Arab leaders in the territories in a renewed effort to build an alternative leadership to that of the Palestine Liberation Organization, it was reported.
