

NEWSPAPER PUBLISHER APPOINTED TO NEVADA ATHLETIC COMMISSION

CARSON CITY - Gov. Robert List announced the appointment of Las Vegas Newspaper Publisher Ed Brown to the Nevada Athletic Commission.

Ed Brown, 64, currently serves as co-owner and general manager of the Las Vegas Sentinel, the state's largest weekly Black newspaper. He will fill the unexpired term of Elbert J. "Duke" Durden, who recently submitted his resignation from the five-member commission, the Governor said.

"Ed is respected as an outstanding leader in the Las Vegas community," the governor said. "He has been deeply involved with civic

and charitable organizations throughout the state.

"He has been involved in athletics and boxing all of his life -- as a competitor, an official, an officer in the armed forces, and as a newsman. His firsthand knowledge of athletics, his leadership, and his commitment to the State and community will make Ed a tremendous member of the commission."

In announcing the appointment, the Governor praised Durden, who has served

on the commission since 1978.

"Duke has been a fine member of the Athletic Commission. He has served with distinction and integrity, and we're going to miss his professional insight."

Brown, who currently serves as a boxing judge for the Athletic Commission, has served a President of the Las Vegas Boxing Hall of Fame. He also has served as Executive Vice President of the Las Vegas Chapter of the Veterans Boxing Association.

Maybe it's minor to you. But it's major to us.

Unfortunately, a lot of people feel embarrassed about going to the emergency room of a full service, acute care hospital with a case of sniffles, a tummy ache, or slivers and scrapes.

They seem to think illnesses like that are "just minor," and put off receiving the care they should have.

The way the physicians, nurses and technicians of Sunrise Hospital Medical Center's 24-hour Emergency Room look at it — there are no minor illnesses.

Whatever ails you is very important to them. And with their 812 combined years of experience as health care professionals — plus the sophisticated facilities of Sunrise Hospital to back them up and scores of specialists to refer you to if necessary — whatever it is that ails you probably won't last very long.

Don't worry about the cost of your visit, either.

Because we've reduced the basic cost of a routine visit to our Emergency Room by **27%**

That's nothing to sneeze at.

P.S. There's no charge for T.L.C. of course!
