

1982 BOND DRIVE STARTS

JERUSALEM (WNS) -- Two hundred Bonds leaders from the U.S. and Canada, representing 40 Jewish communities arrived in Israel for the Premier's 1982 Israel Bonds Conference. The delegation includes the group of the Med - Dead Sea Canal Project Founders. Each of the group's members purchases bonds for more than 100 thousand dollars. Other members of the delegation are members of the Premier's club, with 25 thousand dollar purchases and more.

The purpose of the

conference is to launch the Bonds sale drive of 1982 and to consult with Israel's leaders on the next stages of the development of the Israeli economy and the role of the Bonds in that process.

Some 432.9 million dollars worth of Bonds were sold last year, bringing the sum total of Israel Bonds sale since 1951 to 5.5 billion dollars.

One of their first trips was at one of the new air bases constructed in the southern region. The Bonds leaders planted trees at the air base.

SIG HOSTS

U.S. - ARAB DEAL PENDING

WASH. (WNS) -- The Reagan Administration has proposed to sell civilian communications equipment to an Arab consortium which includes the Palestine Liberation Organization and Libya, as well as Soviet clients states as Syria and South Yemen but also pro-American states as Egypt and Saudi Arabia. Congress will have 30 days to review the proposal from the date of which it was submitted.

A detailed letter has been sent by the Administration to members of Congress

assuring them that the \$79 million deal for the 22 - member ARABSAT consortium did not mean that the U.S. was recognizing the PLO and that the equipment would not be used in an Arab satellite system which might have military capabilities. The deal was pulled back last November in the face of Congressional criticism that the equipment might have military capabilities.

Maybe it's minor to you. But it's major to us.

Unfortunately, a lot of people feel embarrassed about going to the emergency room of a full service, acute care hospital with a case of *sniffles, a tummy ache, or slivers and scrapes.*

They seem to think illnesses like that are "just minor," and put off receiving the care they should have.

The way the physicians, nurses and technicians of Sunrise Hospital Medical Center's 24-hour Emergency Room look at it — there are *no minor illnesses.*

Whatever ails *you* is very important to *them.* And with their 812 combined years of experience as health care professionals — plus the sophisticated facilities of Sunrise Hospital to back them up and scores of specialists to refer you to if necessary — whatever it is that ails you probably won't last very long.

Don't worry about the cost of your visit, either.

Because we've reduced the basic cost of a routine visit to our Emergency Room by **27%**

That's nothing to sneeze at.

P.S. There's no charge for L.C. of course!
