CANNON CALLS FOR HALT TO CUTS

WASHINGTON--Citing particular threats to the University of Nevada Medical School, Sen. Howard Cannon has endorsed efforts to head off further cuts in student financial aid.

Cannon has sent a letter urging President Reagan to rescind proposed reductions in several federal aid programs. Scheduled for elimination in 1983 are Supplemental Educational Opportunity Grants, National Direct Student Loans and State Student Incentive Grants, while Pell Grants -- the largest needs-based student aid program -- would be drastically reduced.

TEXT OF REAGAN'S LETTER TO BEGIN

WASH. (WNS) -- The following is the text of President Reagan's letter of February 15 to Prime Minister Menachem Begin:

"Recent press reports have presented incorrect and exaggerated commentary regarding U.S. military assistance policies for the Middle East.

"I want you to know that American policy toward Israel has not changed. Our commitments will be kept. I am determined to see that Israel's qualitative technological edge is maintained and am mindful as well of your concerns with respect to quantitative factors and their impact on Israel's security.

"The policy of this government remains as stated publicly by me. Secretary Haig's and Secretary Weinberger's statements on the public record are also clear. There has been no change regarding our military supply relationship for Jordan and Secretary Weinberger brought me no new requests.

"Any decision on future sales to Jordan or any other country in the region will be made in the context of my Administration's firm commitment to Israel's security and the need to bring peace to the region.

"Israel remains America's friend and ally. However, I believe it is in the interests of both our countries for the U.S. to enhance its influence with other

states in the region. I recognize the unique bond between

the U.S. and Israel and the serious responsibilities which this bond imposes on us both."
