What can one do about the silent killer hypertension or individuals who abuse their children, spouses or parents? How does one cope with aging, depression and stress? How can one handle chronic disease like diabetes, arthritis and lung problems on a daily basis?

Each day, Valley Hospital offers health tips dealing with these and other topics of interest to our community. The daily Health Tip airs over KENO Radio at approximately 9:45 a.m. Monday through Friday. The oldest radio station in Las Vegas, KENO is found at 1460 on the AM band of your radio.

Health Tips grew out of the community educational programs Valley Hospital has been offering free over the past several years. Each week, one main topic is covered in a 60 second radio message geared to the community Valley Hospital serves.

Because Valley Hospital is concerned about preventive health care, each topic was selected to focus on needed health care information which can be used in your daily lives.

Programs offered throughout this 13 week Health Tips series include "Hypertension, the Silent Killer," "Handling Summertime Accidents," "Cheering Up the Lonely and Depressed," "Coping with Aging," "People Abuse," and "Home Emergency Care."

Many of these mini - programs will be enlarged upon during free community seminars offered at Valley Hospital. For a complete list of programs or copies of individual programs in this 13 - week Health Tips series, contact the Community Relations Department at the hospital.

Valley Hospital is concerned about your health, so tune into Health Tips and get involved in your own health care.

Renewable awards for varying amounts of money were granted to the following students: Chaparral High, Gregory DeSart and Carolyn Jean Wassell; Clark High, Veronica Ann Simone; Eldorado, Cheryl Ann Mueller; Rancho, Julia Black, Lori McLeod and Carol Savage; Valley, Tracey Church and Tammy Daileido.
