DOCTORS TELL OF ARGOV'S CONDITION

JERUSALEM (WNS) -- Doctors treating Ambassador Shlomo Argov said that he is suffering a total paralysis of his hands and legs, an impairment of one of his lungs, slight difficulties in sight, and

his powers of concentration and memory are impaired. Argov, Israel's Ambassador to Britain, was shot in London on June 4. The terrorist attempt on his life precipitated the "Peace for Galilee" operation.

Doctors Aharon Beler and Alexander Magore said all the afflictions were the result of brain damage suffered during the attempt on the Ambassador's life. However, the doc-

tors said Argov's intellectual capacities have improved remarkably. Argov was able to hold conversations for about 15 - 20 minutes at a time, they said.
