

### TWO ISRAELI SOLDIERS KILLED

TEL AVIV (WNS) -- While negotiations on the final details of the plan leading to the evacuation of the Palestine Liberation Organization from Beirut were being concluded, there were throughout the week several reports of crossfire between Israeli soldiers and Palestinian terrorists and in one instance, two Israelis were killed.

The army spokesman announced that two Israeli soldiers

were killed and four wounded in a terrorist ambush in a village east of Beirut. The unit to which the men belonged returned the fire and searched the area. At the same time, the spokesman said that there were two clashes with terrorists, with no casualties to the Israelis. He said that a band of terrorists tried to penetrate the Israeli lines on the eastern sector. Two terrorists were killed and two captured, the

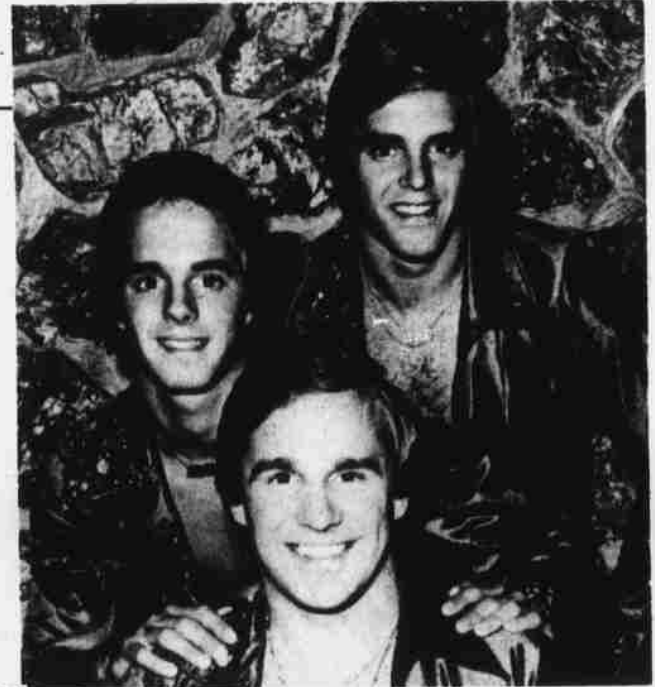

spokesman said. In another encounter, with a PLO Group, one man was killed and three others were captured east of Sidon.

Meanwhile, the Israel Defense Force spokesman said several minor violations of the cease-fire by the PLO took place late last month. He said the PLO directed some small arms fire at Israeli positions in the Beirut area and small arms and bazooka fire in the eastern sector near the area held by Syrian troops. The Israelis responded with small arms fire.

In another development from Beirut, Israeli forces and the Lebanese Christian

militia eased their ban on fresh fruits and vegetables entering Beirut, according to reports from the wholesalers of that city.
