JEWES URGED TO VOTE

"When the fate of Israeli - American relations hangs in the balance, it is doubly important that each and every eligible American Jew express his or her support for Israel at the ballot box this November," declared Harold M. Jacobs, president of the National Council of Young Israel, in urging all American Jews to register for the upcoming elections.

Noting that every Congressman, and one - third of the Senators who voted on the AWACs sale proposal last year, is now standing for re-election, the Young Israel leader said that, "political professionals will be watching this November to see if the Jewish community will put its votes where its friends are. It is

ISRAELI CABINET WANTS ALL FACTS IN ATROCITY

JERUSALEM (WNS) -- The three officials who will comprise the judicial commission of inquiry set up to investigate Israel's role in the massacre of hundreds of Palestinian civilians at the Shatila and Sabra refugee camps, allegedly by elements of the Christian Phalangist Militia, was announced here by the President of the Supreme Court, Chief Justice Yitzhak Kahan. Acting under the provisions of the 1968 Commissions of Inquiry Law, Kahan, 69, and due to retire in a year, designated himself as chairman. He named as his colleagues Justice Aharon Barak, a former Attorney General, and Gen. (res.) Yonah Efrat who once commanded Israel's crack Golani Brigade and later served as commanding general of the central command.

The composition of the commission is bound to satisfy even the most skeptical that the inquiry will be conducted fairly and thoroughly. Kahan and Barak, are distinguished jurists, whose entire outlook is judicial and divorced from any other considerations. As for Efrat, 56, a life-long soldier with an outstanding record, he has

TELL TALES

"One Man Plus The Truth
Constitutes A Majority"

Blessing in Disguise

BY DON TELL

No one needs to be reminded that because of our economic crisis, the average American today is extremely cautious in his consumer spending. Not only are homes, autos, furniture and appliances affected, but so are the more subtle items. One of these is the vacation dollar.

The traveling American studies carefully where his family will spend their allotted vacation dollar. Naturally, we here in Las Vegas hope that many of these dollars will be earmarked for our town.

So what do we have to do? The answer seems simple enough. We, here in Las Vegas, have to offer the vacationer the best buy in the country. Our room rates, food and entertainment prices must be more reasonable than other tourist cities. Our gaming drop will more than overcome the more obvious bargains.

Each and every hotel and tourist related business must work to successfully promote the City of Las Vegas. When we have the tourists here, we must work equally hard to be courteous enough to show them we appreciate their business and we want them to return. A friendly smile, a polite answer to a question and a simple thank you will do wonders. The repeat business can be staggering.

We must work hard to make Las Vegas prosper once again. We have all the ingredients for continued success, but we must re-blend them. Let's think of the early and mid-sixties when you could see two lounge shows for \$5 each, have dinner and see a major show for \$20, etc. The vacation bargain of the country. That was and should be the essence of Las Vegas.

Maybe we should have an ongoing committee working around the clock to bring the bullet train from Los Angeles to Las Vegas.

If we could have access to thousands of tourists a day, coming from the 10-million plus L.A. area in 75 minutes at a reasonable fare -- What a bonanza for our town! Let's work towards these goals and turn the negatives of our present economic situation into only positives -- A blessing in disguise.
