Presidents Conference Calls On German Chancellor To Cancel An Impending Arms Sale To Saudi Arabia

In a cable to Chancellor Helmut Kohl, the Conference of Presidents of Major American Jewish Organizations has called on West Germany to cancel an impending "massive sale of military weapons and supplies to the Kingdom of Saudi Arabia."

Julius Berman, chairman of the Conference -- composed of 37 national Jewish secular and religious organizations -- voiced "a profound sense of anguish and foreboding" at reports that West Germany has agreed to sell large quantities of military hardware to the Saudi regime.

He sent his cable to Bonn on Monday, January 16.

"This sale," Mr. Berman said, "would place in jeopardy the security of the State of Israel, homeland of the Jewish people, so many of whose citizens were the victims of Nazi persecution." His message to Chancellor Kohl -- who is expected to visit Israel from January 24th to January 29th -- continued:

"Israel today is threatened by Saudi Arabia. This feudal despotism is notorious for its hatred of the Jewish people. No Jew may obtain a visa to enter Saudi Arabia. No

Jew may work in Saudi Arabia. No Jews is safe from the poison of international anti-Semitism which finds its major source of infection in Saudi Arabia. No Israeli is safe from the threat of PLO terrorism which is supported in the hundreds of millions of dollars annually by Saudi Arabia.

"To arm such a regime with a wide range of weaponry that can readily be turned to offensive use against Israel would be to endanger the very survival of the Jewish state. This threat is underscored by the fact that Saudi Arabia has made no secret of its commitment to jihad -- holy war -- against Israel. For Germany to aid and abet such a purpose is unthinkable."

Mr. Berman recalled the close association between Chancellor Kohl and West Germany's first postwar leader, Konrad Adenauer. "Mr. Chancellor," the Conference of Presidents letter wrote, "you have described yourself as political heir to the great Dr. Konrad Adenauer, who presided over the rehabilitation of postwar Germany and who bestowed to the German people a unique moral legacy when he undertook a

NEW YORK (WNS) — Jeane Kirkpatrick, U.S. representative to the UN, warned of continued efforts in the United Nations to expel Israel from that world organization. "This is an issue that we should continue to be alert of and take interest in," Kirkpatrick told a meeting with leaders of the Anti-Defamation League of B'nai B'rith. She said past efforts by anti-Israel members of the UN to have Israel expelled were turned back largely due to U.S. lobbying among member states.

Jackson Aide Rapped For Racist Remark

NEW YORK (WNS) — The national director of the Anti-Defamation League of B'nai B'rith labeled as "racism" the statement by a top aide to the Rev. Jesse Jackson that the U.S. government would have done more to free U.S. Navy pilot Lt. Robert Goodman had he been "white or Jewish."

Nathan Perlmutter rebuked the Rev. Wyatt Walker for the remark made just before Jackson's successful trip to free Goodman from Syria. Describing as "the first and to date the only intrusion of racism into this Goodman case," Perlmutter said: "Alas, there are mind frames among minority as well as in dominant groups which more readily don fabrications of prejudice than they wear comfortably the reality of our nation's race relations progress."

permanent obligation to stand by the Jewish people and the Jewish state.

"We ask you not to betray that trust."
