## Ethiopian Distribution Of JDC Donated Supplies Begins

NEW YORK — Ethiopian government authorities have advised the American Jewish Joint Distribution Committee that the "greater portion" of a 70 ton, \$500,000 shipment of new clothing, cloth and hospital supplies has been distributed. According to the officials of the Ethiopian Relief and Rescue Commission, 78 bales of cloth and 42 bags of clothing were distributed to the needy in the Wello and Bale regions of Ethiopia, both severely affected by drought.

The report adds that the remaining 2,298 cartons of hospital supplies and 54 bales of cloth "will be distributed in the shortest possible time." According to the RRC report, the medical supplies are to be made available in Gondar.

In recent weeks the JDC received permission to operate feeding stations in the Gondar region and is negotiating with AID for the provision of food in coming months. An estimated half a million people face starvation in the Gondar region - one of the areas in Ethiopia hard hit by drought.

JDC opened its mailbox to donations for Ethiopian famine relief on October 31, and has received more than \$300,000 in cash and pledges to date, a third of the above was committed by the Central British Fund - World Jewish Relief in London.

## German Courts Asked To End Practice Of Suspending Neo-Nazi Prison Terms

BONN (WNS) — The Federal Court in Karlsruhe, from which there is no appeal, has served notice on lower courts throughout West Germany to end the fairly common practice of suspending prison sentences imposed on neo-Nazis. The court deplored probation for neo-Nazis which can be viewed by the public as unjustified softness toward rightwing extremism.

The ruling, which set an important precedent in meting out justice to neo-Nazi offenders, was handed down in the case of a man found guilty of disseminating anti-Semitic propaganda over a long period. A

court in Stuttgart sentenced him to two years' imprisonment but then suspended the sentence. The suspension was appealed by the State Prosecutor.

The immediate effect of the Karlsruhe Court order is that this defendant will have to serve his two-year sentence. The anticipated long-term effect is that courts in the Federal Republic from now on will avoid suspended sentences. According to legal authorities, they need not impose a prison term, but if they do the defendants will go to jail. German law requires that prison terms exceeding six months should not be suspended if the maintenance of the democratic political system is at stake.
