

## Forest In Israel To Honor I. L. "Si" Kenen

I. L. Kenen, one of American Jewry's most prominent and respected personalities, is being honored by having a forest of the Jewish National Fund in Israel dedicated in his name.

The I.L. Kenen Forest will be located in American Independence Park, "flagship" of the major recreational nature reserves being developed throughout Israel by JNF. Just outside Jerusalem, the park is the site of other forests already dedicated to prominent American friends of Israel, including Presidents, Vice Presidents, Senators, Governors, Members of Congress, public officials and celebrities.

Kenen, 79, helped establish AIPAC, the only

pro-Israel organization registered to lobby Congress on behalf of close U.S. - Israeli relations. He served as AIPAC's founding Executive Director from 1952 to 1972, and is the organization's Honorary Chairman.

"Si Kenen is justly admired for his tremendously important and effective work," said Dr. Samuel I. Cohen, Executive Vice President of the Jewish National Fund of America. "His quiet and skillful advocacy of American support for Israel for over four decades have earned him the highest regard on Capitol Hill, as well as throughout Washington and the whole country. It is entirely fitting that the I.L. Kenen Forest stands among forests dedicated to outstanding

Americans who have been exemplary in their efforts on behalf of American-Israeli friendship."

Contributions to the I.L. Kenen Forest should be sent to the Jewish National Fund, 1430 K Street NW, Suite 701, Washington, D.C. 20005 and must specify the trees are to be planted in the Kenen forest.

WASHINGTON — B'nai B'rith International announced that it was urging its members to make contributions to help aid the victims of famine in Ethiopia.

Thursz said that "B'nai B'rith cannot ignore tragedy when it strikes at any people, and we are determined to do our share."

# AMAZING DIET SENSATION

**NEW!**  
DIET SUPPLEMENT  
Clinically proven!

- In clinical studies all participants lost weight with CCK—from 8 to 23 pounds—in just 4 weeks!
- CCK tells your body that you are full. In effect, it says "Stop! Stop eating! And you comfortably do so."
- Why is one person thin and another fat? The answer may lie in the naturally occurring substance found in your body called CCK.
- Laboratory tests reveal that thin people have more CCK in their bodies which help suppress their appetite.
- METABOLEAN™ CCK-COMPLEX contains no harsh drugs, caffeine or amphetamines. It's basically a metabolic appetite suppressant.

METABOLEAN  
CCK COMPLEX

**TEST RESULTS SHOW PROOF**  
An independent laboratory conducted the study using 39 volunteers, 11 male and 28 female. All were at least 30 pounds overweight. They were divided into two groups, balanced as closely as possible by weight, age and gender. Each group followed a controlled and monitored regimen with the kind of diet and tablet intake recommended in the METABOLEAN™ DIET PLAN. The only difference was that while Group A took METABOLEAN™ tablets, Group B (unknown to any of the participants) took only placebo. The results four weeks later were dramatically apparent. The control group taking only the placebo, had an average weight loss of only 2.15 pounds. And some even gained. In the last group which had taken METABOLEAN™ every single participant lost between 8 and 23 pounds! The easiest diet I've been on. R.C. lost 13 pounds. The amazing thing is, I did not exercise at all. R.L.E. lost 19 pounds.
