

Shultz Said To Have Raised Soviet Jewry Issue During Geneva Talks

TEL AVIV (WNS) — State Department official Shultz sent here as a special envoy to brief Israeli officials on the Geneva talks. Palmer is Deputy Assistant Secretary of State for European and Canadian Affairs. He reported to Deputy Premier and Foreign

Minister Yitzhak Shamir that Shultz dwelt especially on the plight of Jewish refusniks such as imprisoned Anatoly Shcharansky and Yosef Begun, in the course of his two days of talks with Gromyko and that he urged the Soviet Union to halt its persecution of those activists and of other Jews in the USSR who study Hebrew.

Palmer later went to Egypt to brief officials in Cairo on the Geneva talks. Other U.S. officials have similar assignments in the capitals of most countries with which the U.S. maintains friendly relations.

Israeli Consul General Visits Las Vegas

Assessment Of Ethiopian Newcomers

JERUSALEM (WNS) — A senior psychologist on the staff of the Jewish Agency has rebutted reports in the local media which have deeply hurt newly arrived Ethiopian Jews by describing them as "primitive" and stressing their unfamiliarity with such Western amenities as toilets and toothbrushes.

Dr. Zvi Yadin, who is the psychologist in charge of the absorption of Ethiopian Jews, told reporters that the newcomers were culturally developed in many ways "but their ways simply are different from ours."

He said, for example, the Ethiopians are fastidious about dental care, but in Ethiopia they used special twigs to clean their teeth instead of toothbrushes

which were unknown to them. "I wish that Israeli children's teeth were so healthy as those of Ethiopian old men," Yadin said.

He said the newcomers are equally fastidious about their personal hygiene. But they look askance at the idea of a toilet inside their home because in Ethiopia they were used to outside facilities.

Yadin described the Ethiopian women as extremely modest and much care and discretion has to be exercised when submitting them to a medical examination. The fact that they publicly breast-feed their infants reflects common Ethiopian mores, not a lack of modesty, he said.
