

Purim At Temple Beth Sholom

LETTERS

The Honorable Mario Biaggi
House of Representatives
Washington, D.C. 20515

Dear Mario:

Thank you for your January 31 letter to the President, cosigned by 58 of your colleagues, urging that the United States Government initiate a formal and thorough investigation into the allegation that U.S. intelligence officers may have questioned and released Dr. Josef Mengele in 1947.

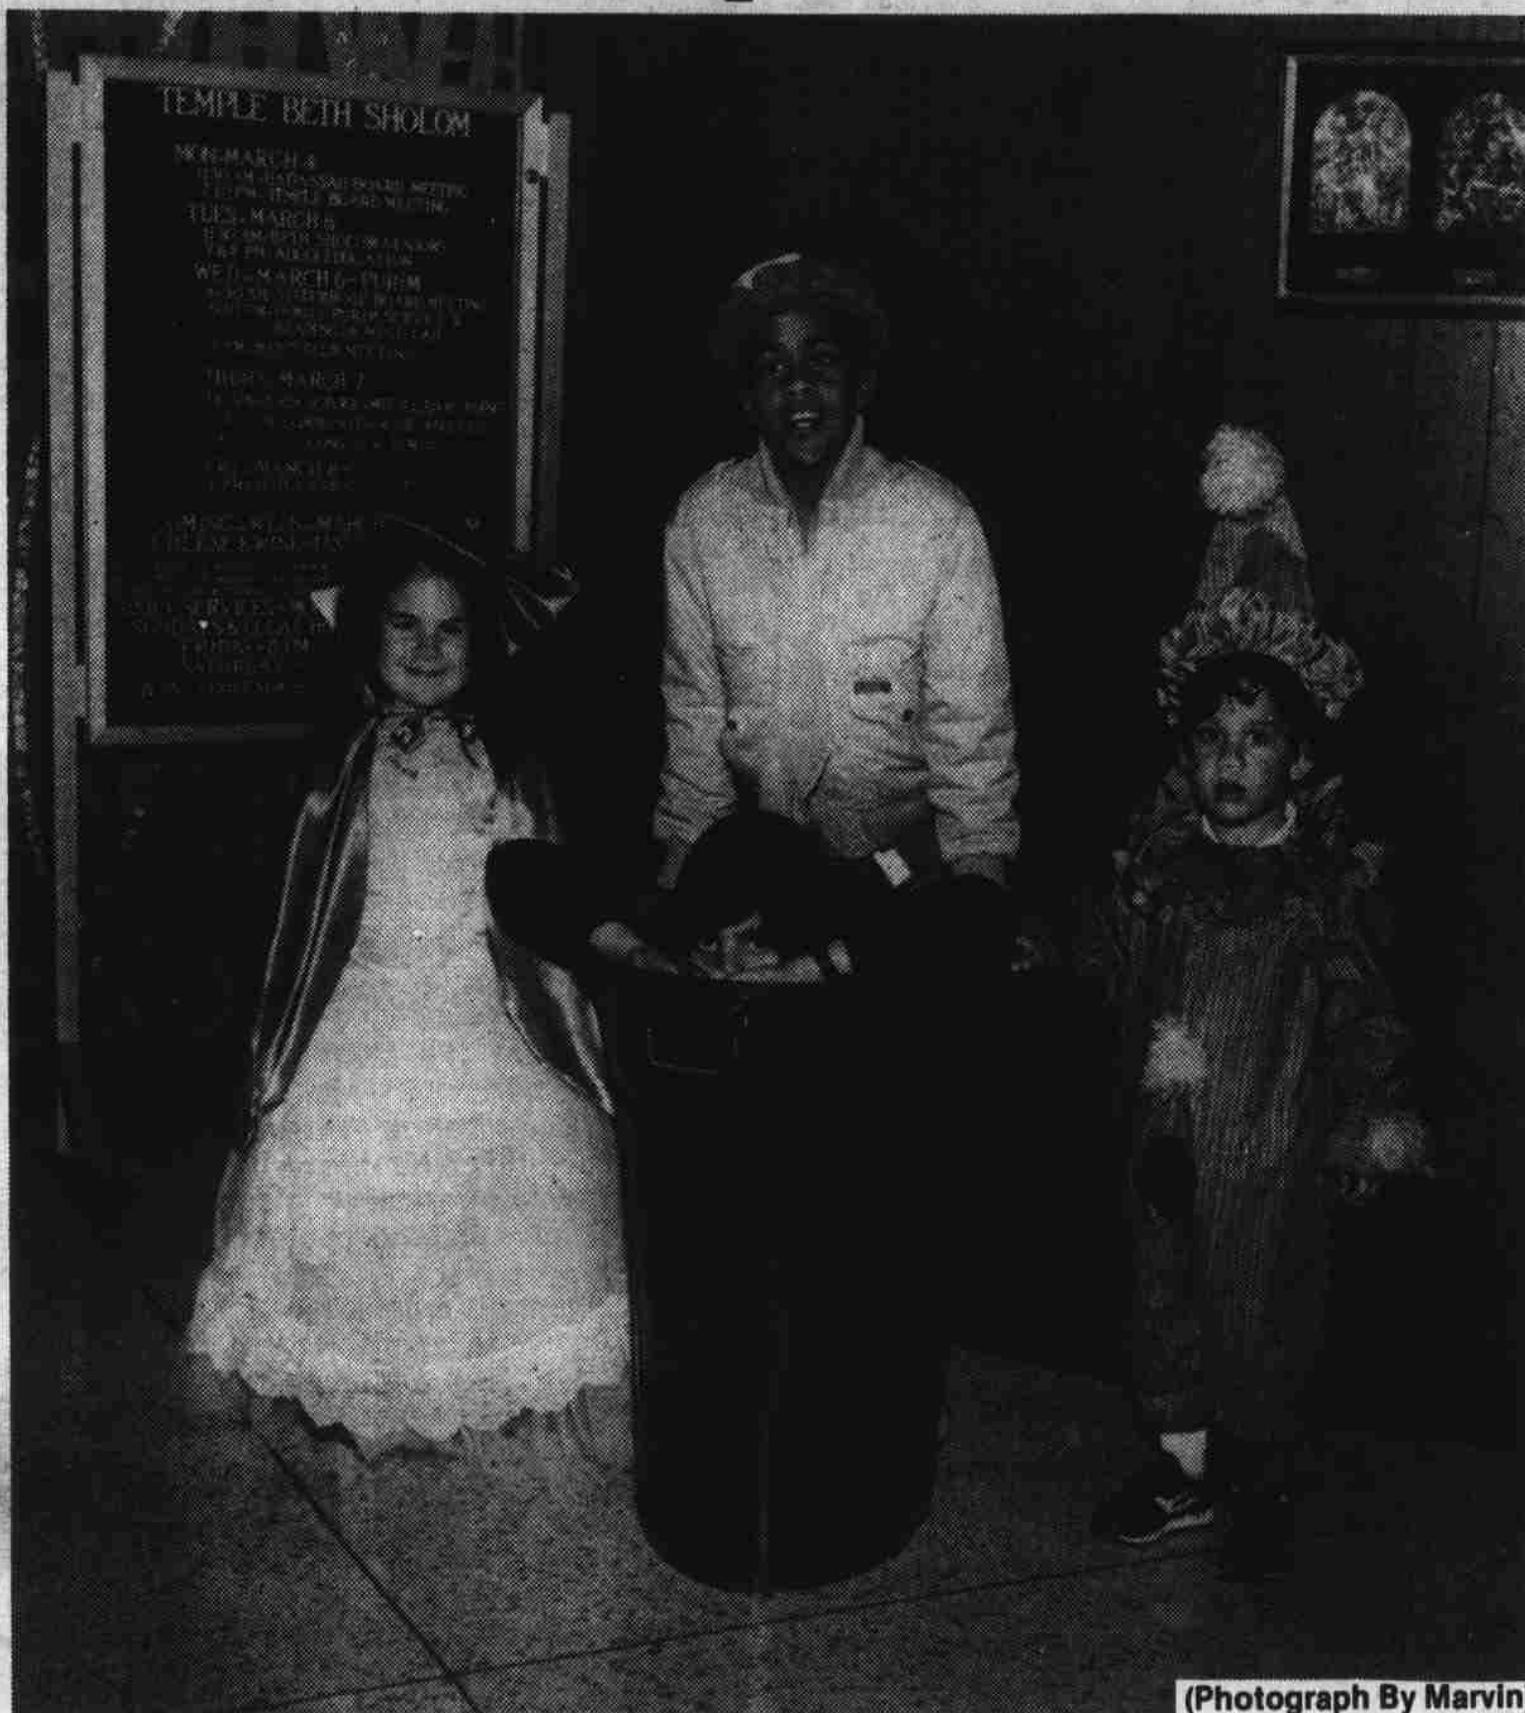

On February 6, Attorney General William French Smith announced that he directed the Department of Justice's Office of Special Investigations (OSI) to undertake an investigation into the whereabouts of Dr. Josef Mengele, the "Angel of Death" at the Auschwitz concentration camp. As the Attorney General announced, the investigation will seek to compile all credible evidence on the current whereabouts of Dr. Mengele as well as information concerning his movements in occupied Germany and suspected flight to South America. The investigation will also seek to determine the credibility of reports that Dr. Mengele has visited the United States in the past.

Attorney General Smith stated that this investigation will use the effective techniques which OSI has used in the past to trace and locate Nazi war criminals. Mr. Smith also assured that the investigation will be thorough and as speedy as possible.

We appreciate your interest in writing, and I hope this information is helpful to you.

With best wishes,

Sincerely,
M.B. Oglesby, Jr.
Assistant to the President
The White House - Washington

The 300D: the most powerful turbodiesel in America—if not the world.

The 300D's turbodiesel engine is a direct descendant of the engine Mercedes-Benz used to power the 195-mph C-111/3 world record-breaker.

That it offers remarkable performance with frugal efficiency is extraordinary. But what makes this five-passenger automobile unique is that it is also one of the world's most civilized sedans. Superbly equipped, elegantly appointed. In short, a magnificent synergy of performance and livability.

Test-drive the 300D today.
