Major AIDS Breakthrough

The Nevada Institute For Contemporary Art At UNLV

Tom Holder

UNLV President Robert C. Maxson has announced the establishment of The Nevada Institute for Contemporary Art on the UNLV cam-

TEL AVIV (WNS) — Researchers at the Weizmann Institute of Science at Rehovot claim a breakthrough in the battle against AIDS, the killer disease. The new development involves the isolation and synthesization of a hormone linked with the immunological process.

Prof. Natan Trainin, a cancer researcher in the Institute's cellular biology department, has been working on cancer and immunology research for the past 20 years, dealing with a hormone known as THF (thymus humoral factor) found naturally in minute quantities in the thymus gland.

The hormone was synthesized some six months ago by Prof. Yigal Bornstein, who has been working with Trainin for the past seven years. Bornstein says that organic THF has been administered to some 100 cases of immunity deficiency in Israel since 1975, including two cases of AIDS (acquired immune deficiency syndrome), with generally positive results.

But he stressed that no controlled study has yet been made, owing to the insufficient number of potential patients available in Israel.

Bornstein says that in regard to the two AIDS cases studied in Israel, one a 20-year-old male,

Governor And Mrs. Bryan To Receive National Jewish Humanitarian Award

LAS VEGAS - Richard H. and Bonnie Bryan, governor and first lady of Nevada, will be honored for their outstanding humanitarian service on October 20 at a dinner benefitting the National Jewish Center for Immunology and Respiratory Medicine (formerly National Jewish Hospital/National Asthma Center).

The event, which will be held at the Las Vegas Hilton, will begin with a reception at 7 p.m., followed by the dinner and program at 8 p.m. Tickets are \$400 per couple and black tie is optional.

At the dinner, Gov. and Mrs. Bryan will receive the prestigious National Humanitarian Award from National Jewish. The award is presented in Las Vegas and other cities to recognize persons for distinguished service to their communities.

Proceeds from the dinner will benefit the Denver-based medical center, recognized as one of the world's leading centers for the study and

An Unusual Bar Mitzvah Request

Steven Kustin's unusual Bar Mitzvah request has resulted in close to 1,000 trees planted in memory of his mother. The trees were planted in Israel through the Jewish National Fund, the organization responsible for afforestation and land reclamation in the Jewish state.

As his Bar Mitzvah approached last spring, Steven, an eighth-grade student at Park East Day School in New York, thought about what it means to become a man. He remembered his
