Treatment with collagen is one of the many effective techniques that are now being used to revitalize the appearance of the skin.

Dr. Saul E. Schreiber, D.O. Medical Director of Advanced Dermatology at 1700 E. Desert Inn #103, states that this is an excellent method for improving the appearance of facial lines, wrinkles, age lines, frown lines and several types of scars.

Until recently doctors were not able to replace lost tissue which results in scars and wrinkles.

Collagen is a highly purified natural protein made from calf hide. When injected into the skin it can minimize skin imperfections.

Normal facial contours are restored and texture of the skin is improved. Dr. Schreiber will be happy to provide further information regarding collagen treatments.

He can be reached at 734-8511 or 735-SKIN. Potential collagen patients are invited to stop by his office at 1700 E. Desert Inn Road, Suite #103 Winchester Plaza.
