

### National Council Of Jewish Women News

The Las Vegas Section of National Council of Jewish Women will hold its next meeting on Wednesday evening, March 19th at 7:30 P.M. at the home of Debbie Shack. Guest speaker, Sandi Kaplan, R.N., will present "Are you allergic to your house?" All interested women are invited and carpools will be formed.

In keeping with the priority areas of National Council of Jewish Women, the Las Vegas Section has begun a new community project. We are now providing assistance to the Child Custody Division of the Eighth Judicial District Court. We recently purchased for them a movie, "You're still Mom and Dad" that assists parents in working out their custody and visitation differences. Soon the Child Custody Division will be moving into larger quarters and is in need of children's furniture and toys in good, used condition. If you wish to make a donation, please contact Cindy Milmeister at 361-5082.

Cindy can also answer questions about the March 19th meeting and our new program: Jewish Life Group for mothers (or fathers) and their children, ages 2-5. Activities center on Jewish holidays, customs and traditions.

Mark your calendars now for our annual BINGO DINNER scheduled for May 21st. More details will be available next month.

### The Las Vegas Israelite Welcomes Aerojet Nevada To The Las Vegas Valley

Aerojet Nevada recently broke ground for a North Las Vegas manufacturing facility to be located on Losee Road just south of Craig Road. The 37,000 square feet facility will be used to manufacture metal parts for aerospace program and is slated for completion by the end of 1986.

State Senator Ray Shaffer, North Las Vegas City and Clark County officials as well as representatives from Nevada Development Authority were among those participating in the event.

Festivities also included the dedication of Aerojet Way, a street to be located in front of the new facility.

Conrad Ryan, Chairman of Nevada Development Authority presented Aerojet officials with a plaque to commemorate the event. Nevada Development Authority was instrumental in Aerojet Nevada's decision to locate in Southern Nevada.

JERUSALEM (WNS) — An international exhibition of rare Judaica objects will open at the Hilton Hotel here May 4. The fair, the first of its kind, is expected to bring together more than 400 worldwide Judaica dealers.

### JNF Plants Cherry Blossom Tree Outside Israeli Embassy In Washington, D.C. In Tribute To Dr. Martin Luther King, Jr.

(Continued from page 1)

America president Rabbi Joseph P. Sternstein (far right); JNF Washington, D.C. executive director Robert A. Chertock (left); and JNF Baltimore board member Allen Quille (second from left) at cherry blossom tree-planting dedication held in January in memory of the 57th birthday of Dr. Martin Luther King, Jr.

The dedication, outside the Israeli Embassy in Washington, D.C., took place before a reception sponsored by the embassy and the Jewish National Fund of America, in cooperation with the Dr. Martin Luther King, Jr. Federal Holiday Commission, the International Association of Official Human Rights Agencies, and the America-Israel Friendship League. Over 400 civil rights and religious leaders and elected officials attended the reception. The event marked the second consecutive year JNF held an event with the Israeli Embassy in honor of the slain civil rights leader. A memorial forest was dedicated by JNF in 1976 to honor King. The forest, located in Israel's Galilee, has now grown to over 10,000 trees.

## Announcing the new Womens Breast Health Center

At Womens Hospital, we understand that breast cancer isn't something you really want to think about. Still, the best way to deal with the disease, and your fear, is through periodic examinations and early detection.

We provide free screenings for breast cancer; it's simple, painless, and fast. We also counsel women to minimize the risks of cancer and help identify early warning signs. The American Cancer Society recommends that as a preven-

tative measure, women ages 35 to 39 have a baseline mammogram. Women 40 to 49 should have one every other year, and women over 50 should have one every year. That's what our new Breast Health Center is all about—prevention, early detection, and quick, responsive treatment.

With a little help from our Womens Hospital Breast Health Center, you can quit worrying about breast cancer. After all, you've got better things to do with your life.
