

Pool And Spa Owners No Longer Have To Suffer From Chlorine !!!

U.S. Government Patented "Challenger" Makes 'Dumping Chlorine In' Obsolete...

At last swimming pool and spa owners can forget about burning eyes, horrible odor, itchy skin, faded bathing suits and all the other negatives associated with using CHLORINE to treat their water. SWIMTECH, a division of Christiansen Pools, is now offering the public the first newly U.S. Patented ionization process in about 50 years that allows you to swim and spa in Chlorine free water. SWIMTECH is the Southern Nevada distributor for the Swimaid "CHALLENGER." Tested and proved in thousands of pools and spas over the last three years, the "Challenger" can save its users 80 percent or more in chemicals and maintenance costs. In addition, calcium and other harsh minerals found in this area's water are removed, thus making for longer lasting equipment and better looking tile.

Basically, as the pool or spa water is recirculated through the filtration system, it passes through a chamber with a copper electrode which is connected to a mini computer that monitors the temperature of the water in order to introduce the proper amount of copper into the water. Copper has long been used as a bacteria killing agent, but controlling its output in this manner is what is so unique. While there are a number of purifiers on the market only the "Challenger" has been granted a U.S. Government patent. In the past, other attempts have proved short lived in this area of water purification and the devices have either proved unsatisfactory over a period of time or were taken off the market by the EPA or other governmental agency because the bacteria killing agent, such as silver, couldn't be properly monitored and might become a health hazard just as great as the bacteria it was trying to kill. The "Challenger" is completely safe. It is so good that the manufacturer offers a 90 day money back guarantee in addition to industry standard warranties.

SWIMTECH is offering two programs for the "Challenger." Since the product operates by itself through the time clock, and will work on any pool or spa in good condition (good condition meaning: algae free and with satisfactory filtration) you can make an outright purchase of

the "Challenger." Since your pool or spa will require draining to rid the water of any stabilizer, SWIMTECH will also acid wash as necessary, free. The water will sparkle and the entire family will benefit from being in non-chlorine water. Just think about the hundreds of dollars you spend each year on chemicals and maintenance. Those costs will be reduced by at least 80 percent.

There is also a monthly service-rental program which will run between \$65 and \$85 per month depending on the pool. This is the regular going rate around town for the old fashioned type, "Dump the Chlorine In" pool service.

Complete information and demonstration, without any obligation, is available by calling SWIMTECH on their seven day-a-week number, 435-8981. SWIMTECH, a division of Christiansen Pools, is a member of the National Swimming Pool Institute.

Jewish Scientists In Moscow Mark Maimonides Anniversary

JERUSALEM (WNS)

— A large group of Jewish scientists recently gathered in a private home in Moscow to commemorate the 850th anniversary of the birth of Maimonides, Soviet immigrants in Israel were informed recently. The gathering, attended by 82 Jewish scientists, was the largest of the kind in the past six years. Among those present were well known refuseniks as well as guests from abroad.

The participants extended greetings to Anatoly Shcharansky who was freed last month in an East-West prisoner exchange and reunited with his wife Avital in Israel. Forty-two of the scientists signed a petition appealing to Soviet authorities to release all Prisoners of Zion and to allow all Jews who wish to emigrate to Israel to do so. A copy of the petition was sent to the Public Council for Soviet Jewry in Tel Aviv.

The Mercedes-Benz European Delivery Program lets you experience Europe as you never have before—from behind the wheel of your own 1986 Mercedes-Benz. As an authorized dealer, we can make all arrangements.

Thumbs Up To Kids

Detective Chuck Woodsworth of Metro; Arlene Eisenstadt of the Boulevard Mall and Chuck Colletta of the Retired Senior Volunteer Program (RSVP).

The Meadows Shopping Center, The Boulevard, Charleston Plaza Mall and The Fashion Show are participating in conjunction with nearly 5,000 shopping centers in the United States and Canada in the Kids Identification Sign-Up.

This event takes place April 7-13, Mon.-Fri. 3 p.m. to 7 p.m., and Sat. & Sun., Noon to 4 p.m. at the mentioned local centers.

The effort is part of a national campaign organized by the International Council of Shopping Centers (I.C.S.C.).

Children between the ages of 3 to 14 must be accompanied by an adult to have their fingerprinting done. The prints will be provided free of charge, will be given free of charge, will be given back to the parents for safe keeping and with instructions to release them to law enforcement agencies only if there is an emergency.

RSVP Volunteers and Metro Police will be conducting the actual fingerprinting process.

Governor Richard Bryant has proclaimed April 7-13 Child Safety Week in the State of Nevada.
