

The Late Admiral Rickover Planting A Tree In Israel In 1982

The recent death of Admiral Hyman E. Rickover reminded Israelis of the picture they saw in their newspapers in November 1982, showing him planting a tree at the Jewish National Fund's American Independence Park, outside Jerusalem. JNF, responsible for afforestation and land reclamation in Israel, established the park during the U.S. Bicentennial. Shown with Admiral Rickover is his wife, Eleanor.

PLO Terrorists Among Refugees Seeking Asylum In West Germany

BONN (WNS) — Hundreds of members of the Palestine Liberation Organization and other Palestinian groups linked to terrorist activities are among the refugees who have come to West Berlin in the past few months, according to Interior Ministry officials and police officers here.

The source, who spoke privately, said that West Germany can do nothing to stop the influx of members of extremist organizations among refugees who ask for political asylum in this country.

"We have seen a dramatic increase in the number of Arabs coming here, both in numbers and in terms of their share of the overall influx of refugees, which had become unmanageable," an official said. "The Arabs have become the single largest group, and we know that many of them are extremists who intend to pursue their political activities here."

West Germany has

been complaining for some time that East Germany was "planting" the refugees in its territory by guiding them to seek asylum in West Berlin. From there, many of them are sent to other parts of West Germany under a plan to share the burden of integrating the newcomers.

One long-term effect of the latest develop-

ment, an official predicted, are loyal to the PLO and ed, would be the who will possibly parti- enlargement of a con- cipate in its political stituency of Arabs who and other activities.

August the 16th at Carollo's, corner of Sunset and Eastern, the annual benefit for the Muscular Dystrophy Association dance and party.
