ORT Donor Luncheon

(L-R) Irma Thomas, Lillian Hilde & Helen Stern

A delightful afternoon was enjoyed by the ladies of Women's American ORT--a Donor luncheon at the Tivoli Gardens Restaurant. ORT, the vocational, technical and scientific education program of the Jewish people was originally founded in Czarist Russia to train Jews for professions from which they had traditionally been excluded. Today ORT is a global network comprising more than 800 schools with an annual enrollment of 130,000 students. Women's American ORT was founded in 1927. It is the largest of the ORT membership organizations. In this country, the Bramson ORT Technical Institute in New York City, the Los Angeles ORT Technical Institute and a program operated through the Jewish High School of South Florida represent ORT's operational contribution to quality education in America.

In Karmiel, Israel, the Braude Institute of Technology, an international school built by ORT and home to many foreign students who dorm there, they plant trees to improve and beautify the campus. You too can help by a gift of \$18.00 to ORT covering the cost of planting a tree in celebration of an occasion, in the name of a beloved one, sympathy, a birthday, a birth, an anniversary or any Mazel tov, etc. You will receive a certificate of acknowledgment and \$15 Honor Roll Credit. For more information phone Mickl at 645-6624 or Etta at 870-4367.
