

An Open Letter To The President Of ABC News

(Continued from page 3)

are very different.

What is the real story here? It is one of two very different countries. Israel is a valiant democracy granting equality to all its citizens, including its minority Arab population, and finding itself in the uncomfortable situation of governing many Palestinians in the territories who are not citizens of Israel and with whom Israel has long sought to negotiate differences.

On the other hand, South Africa is a state founded on racism, and based on rigid rule by the white minority over the Black majority.

The real story is if ABC wanted to make comparisons, it would have been far more sensible to compare South Africa to the Soviet Union or to Malaysia -- non-democratic states with oppressed peoples within their borders. Or, if one wanted to compare Israel, do it to the U.S. or to Great Britain, great democracies all facing problems but never relenting in their commitment to democracy.

ABC has done untold harm. Still, we have faith that the American people will see through this mockery of journalistic responsibility.

Sincerely,

Abraham H. Foxman
National Director, ADL

ARCO Foundation Donates To New Handicapped Training Center

the dedication of NAH's new Employment Training and Independent Living Skills Center at 3111 S. Valley View.

The new center, which is located in a popular business and commercial complex, is designed to provide "normalized" pre-employment training for a wide range of disabled persons not eligible for other training programs.

"The presentation from the ARCO Foundation will greatly assist the Nevada Association for the Handicapped in our efforts to provide meaningful employment for handicapped Nevadans," said Vince Triggs, executive director of NAH. "I believe the ARCO Foundation understands the enormous need to support programs which will help reduce the chronic problems of unemployment and underemployment among our disabled citizens. Their help and support is greatly appreciated."

Approximately 50 severely disabled persons will be served in the program. In addition to basic work skills, money management skills, mobility training, communication skills and social skills also will be available to program participants. The goal for each participant is competitive community employment.

Ed Reilly, senior vice president with ARCO, presented the check to NAH President Mark Stewart. Reilly called the opportunity to contribute to NAH "a real blessing."

"We at ARCO believe in programs such as this, and are extremely pleased to be able to contribute to the training of these men and women to be self-supportive individuals," he said. "ARCO is particularly happy to be identified as a major contributor to the association's new training program for the traumatically brain injured. We look forward to a long friendship with the Nevada Association for the Handicapped."

Triggs told the more than 100 people in attendance -- which included clients of the training program -- that the new center is a logical extension of the work being done at the Mike O'Callaghan Regional Handicapped Center on West Oakey.

"The demand for quality programs for disabled Nevadans is so great that we desperately needed the additional space," he added, "and a high profile business and commercial complex is an ideal location."
