

**Statement By Theodore Ellenoff, President Of The American Jewish Committee, In Response To Waldheim Commission Study**

"The American Jewish Committee regrets that members of the Austrian Government have decided to repress the findings of the International Historians Commission report on the

wartime activities of Kurt Waldheim, president of Austria. Rather than resolve any of the issues that have bedeviled Austria's standing in the international community, this decision to withhold the report will only serve to intensify suspicions and to sharpen controversy about the moral dimensions of Waldheim's presidency.

"Waldheim may not be legally implicated as a Nazi war criminal who personally murdered innocent civilians, but his 'moral guilt' for denying his involvement and his lying for some 40 years about his knowledge of war crimes in Greece and Yugoslavia is unarguable.

"It is now for the conscience of the Austrian

people to determine whether Kurt Waldheim remains fits to represent as President the traditions and democratic values of the Austrian Second Republic. For American Jews, Waldheim must remain a moral anathema. At the same time, we wish to underscore that to us Waldheim is not Austria, and Austria is not Waldheim. Both as Americans and as Jews, we believe that the Western democratic world has a stake in continuing to strengthen the ties that exist between Austria and the United States, Austria and Israel, Austria and its remnant Jewish community, and Austria and American Jewry."

The American Jewish Committee is this country's pioneer human relations organization. Founded in 1906, it combats bigotry, protects the civil and religious rights of Jews here and abroad, and advances the cause of improved human relations for all people everywhere.
