

Police Arrest 27 Israeli Arabs On Suspicion Of Firebombings

JERUSALEM (JTA) — The arrests of 27 young Israeli Arabs suspected of stone-throwing, fire-bomb attacks and other security-related offenses in Israel was announced by the police at a news conference in Nazareth recently.

The police said the suspects, ranging in age from teen-aged minors to youths in their early 20s, allegedly belonged to three separate gangs, all inspired by the Palestine Liberation Organization's fighting arm, Al Fatah, but otherwise not related.

The Arab youths were active in Galilee and in the so-called "triangle" made up of Israeli-Arab villages close to the Green Line, Israel's pre-1967 border.

Dani Tabib, the regional police com-

mander, said the gangs were local and unconnected with enemy groups abroad. He said they have been active for about two years, which

coincides with the duration of the intifada.

Two of the gangs in the Nazareth area had 10 members each. The third and largest was the Jatt Popular Front, based in the village of Jatt between Tel Aviv and Haifa. That group had 17

members, who the police believe were responsible for 30 incidents including arson, throwing firebombs or stones at buses, raising the PLO flag and pain-

ting anti-Israel slogans on walls.

Police said the Jatt gang was formed about two-and-a-half years ago, after the assassination of PLO chief Yasir

Arafat's deputy, Abu Jihad, at his home in Tunis, allegedly by an Israeli hit squad.

Its leader was Tewfiq Mahbel Aattad, 28, an X-ray technician.

State Of The Art Telephone System (Made In Israel) For Your Business Or Office
 From 2-20,000 Lines
 "Three times, my company's grown beyond our system capacity. Three times I've had to junk my phone system and buy a new one."
 Growth is something every company works to achieve. But growth can hurt, when phone systems have to be discarded — and new ones installed — in order to meet growing needs.
 "My phone consultant told me about Tadiran..."
 Tadiran systems bring to reality what others only promise. More capabilities, more user-friendly features and an easy, affordable pathway for growth. It's that simple — no more "new" system again.
 "Now I've got everything I want in a phone system...plus some major advantages the others didn't offer."
 Tadiran supports industry standard phones, integrated keysets, modular compatibility for upward growth, true voice and data integration, and even includes a built-in IBM® pc network. All backed by an excellent service and maintenance policy.
 "The way I see it, if you're going to buy a system, buy it only once."
 Call us today for a no-obligation demonstration and proposal. It's a call you'll only need to make once.
