Advertising Rates made known at the  
Publication Office.

Entered as second class matter May 1,  
1905, at the Postoffice at Las Vegas,  
Nevada, under the Act of Congress of  
March 3, 1879.

SATURDAY, JUNE 24, 1905.

## LOOK TO THE FUTURE

Badly needed buildings have been dis-  
countenanced no matter in what climate or  
portion of the country they were being  
erected. Be it remembered that Bud-  
densick was a contractor who always  
miscalculated the requirements of build-  
ing in order to give them the substan-  
tiality that good buildings should pos-  
sess. He finally came in contact with  
the vengeance of the law for his flim-  
flam building, and as a result he  
acquired a residence at Sing Sing for  
five years.

This reference is occasioned by the  
fact that in the hurly burly and rush in  
the new city poor construction is  
practiced, and for the sake of the future  
which will surely be the lot of Vegas  
the citizens who have buildings erected  
should see to it that the same will not  
become a drawback to our onward stride.  
Let us have safe, substantial build-  
ings.

## IN THE NEW ELDORADO.

Col. James Brown has gone to Nipi-  
peno. His advent into what promises  
to be the most famous mining district  
of the southwest means the proper disse-  
mination of information and knowledge  
as to the great opportunities and possible  
wealth attainments of this great mining  
resource.

The Colonel will supply a string of  
outside newspapers with information  
concerning the development and prog-  
ress of the district.

There will also, under the same man-  
agement as the Las Vegas Times, be is-  
sued in the new camp the Nippeno  
Times. The first issue will make its  
appearance next week. The Nippeno  
Times will be up to date and, with a de-  
termination of being of service in the  
development of the country it will play  
its part.

## EVERYBODY BE THERE.

The citizens of Vegas in general and  
members of secret organizations in par-  
ticular should take notice of the call for  
a public mass meeting to-morrow (Sun-  
day) evening at 8 p. m., between the  
State Bank and Postoffice building.

The object of the meeting is to devise  
plans and means for the erection of a  
public hall and organiza-  
tion of trade.

Propositions are of merit. Those  
who have the welfare of themselves and  
Vegas at heart will be present to lend  
their counsel and assistance to the pro-  
ject.

A public hall is a necessity.  
A board of trade properly grounded  
will become the life of Southern Ne-  
vada. In this respect it will also be a  
reflex of the spirit and enterprise of our  
citizens. Be present all of you and play  
your part.

The Las Vegas (Nev.) Times comes  
to our table this week. It is a bright,  
newly six-column folio, and is typical  
of its editor and publisher, the irre-  
pressible James Brown, who for a num-  
ber of years published the Bull  
Times, and through its columns lambasted  
adversers and sundry citizens of the smoky  
city with his virilic pen. It needs but  
a casual perusal of its columns to con-  
vince the most skeptical that Las Vegas  
is certainly a "hammer" and destined  
to become one of the leading cities of  
Nevada. We wish Brother Brown all  
kinds of good luck in his new venture.—  
Madisonian, Virginia City, Mont.

## FOURTH OF JULY.

The 4th of July is near. The great-  
ness of the day is measured by the  
fundamental truth it conveys. The  
significance of it is not in the blif, boom,  
bang, but in the hallowed ideas contained  
in the Declaration of Independence.  
The thought associated with this day is  
an ardent plea for liberty: an enlarge-  
ment of and by and for the people; and  
a better and more enlightened regulation  
of the affairs of mankind, economically  
socially and every other way, such as the  
cardinal ideas that every 4th of July  
brings with it, and as the people gain  
inspiration from it to conserve their  
wellfare.

## FRANK P. MANNIX'S PAPER.

One of the greatest, liveliest and  
spiciest newspapers on our exchange  
list is Frank Mannix's Bullfrogs Miner.  
It is well edited, brimfull of local news  
and surfelcted with advertising patron-  
age. It is so healthy appearing a journal  
as to tell all the world we are a winner.  
The writer is particularly gratified at the  
evident prosperity of the Miner, for of  
all men who in the west deserve the  
success that comes from merit, there is  
none more deserving than Mannix. The  
writer remembers the fight that was  
fought for principle by this valiant factor  
in a struggle for right.

## THERE IS NO FRICTION.

There is no friction between Clark  
and Harriman. The statement that has  
been circling the continent of a big fight  
on between the two great railway mag-  
nates is branded, as per statement pub-  
lished in the Times today, by Senator  
Clark, as false and misleading. From  
the tenor of Clark's position there is no  
misunderstanding nor any danger of a  
railroad war between the Harriman and  
Clark interests.

The report of a struggle of the Titians  
created a sensation, but all at once it  
becomes flattened out. Clark struck it  
a sledge hammer blow.

## SO TASTY AND LUSCIOUS.

Vegas has the reputation abroad of  
raising or growing the best and most  
tasty fruit in all the markets. Ripe ap-  
ricots raised on the Vegas ranch and for  
sale by Johnson and Ward verify this  
reputation. They are the most luscious  
and tasty apricots it has ever been the  
writer's fortune to taste. They are a  
home product and the home market is  
good for them.

## A NEW DAY FOR NEVADA.

The Truckee-Carson system of stor-  
age and canal will reclaim 500,000 acres  
of waste land in Nevada. This reclama-  
tion and bringing under cultivation this  
empire will mean much for Nevada.

It will support a population of 25,000  
people and in other directions stimulate  
enterprises. It is a great work and  
worthy of our government.

The health authorities have adopted  
rules and regulations for the sanitary  
welfare of the community. These pre-  
cautionary requirements are such as to  
prompt every citizen of the Vegas to  
enforce them without any compulsion or  
the drastic application of authority.

And the Vegas school census were  
taken. They present a condition that  
exact's from good citizenship the civic  
virtue that associates with providing  
ample school facilities for the young.  
This is a subject worthy the best  
thought and action of our people.

C. E. Smith, better known as the  
eloquent Smith, says that a public and  
fraternal hall is a great public enter-  
prise. Right you are, Smith.

Be at the mass meeting Sunday  
evening.

## A Vegas Enterprise.

Frank Harrigan handles hollow con-  
crete blocks for buildings. He manu-  
factures them at Vegas. It makes an  
artistic structure. It is good ventilation;  
it makes a fire and fireproof structure;  
it can be moulded into any design; it is  
durable and becomes harder with age; it  
is sanitation itself, and for cheapness,  
neatness and satisfaction there is no  
comparison.

## Notice to Bidders

LAS VEGAS, NEV., JUNE 12, 1905  
At Las Vegas, Nevada, 12 noon, June  
21st, 1905, bids will be opened for the  
following Las Vegas municipal work:
