

OLD MINER AT CRESCENT

Has Confidence That it Will Be a Greater Than Bullfrog

William Murray, an old time prospector whose trail is known in every section and mineral bearing zone of the coast was a caller on the Times on Monday. Murray was at Tonopah, Goldfield and Bullfrog in the early stages. In each he holds locations and disposed of some to advantage. He has been in the Crescent district for the past three weeks. His examination and prospecting in that district convinces him that it has a better showing for a permanent mineral producer than either Bullfrog or Goldfield. He considers it one of the best mineralized zones in the state and with such confidence in its future has made locations and returns to do development work on the same. As an experienced miner and prospector he speaks with confidence of Crescent's future.

The view expressed by Murray is the views of every prospector and practical mining man that has been in the district. The showings and mineralization is so great as to attract same. By development and practical mining the observations of these practical men will be verified.

**NEW BANKING QUARTERS
Lincoln County Bank Will Erect a Handsome Building.**

M. I. Powers, the strong and active manager of the Lincoln County Bank is of the make that builds cities and pushes to the front those interests that give prosperity. In his progressive way he is preparing to have erected a handsome fire proof building to be utilized as a banking quarters and home for himself and his estimable wife.

The design as prepared by Architect J. A. Rhoads, is of the sort to make it an adornment to Vegas. It will be a pretty up-to-date structure and a worthy expression of so enterprising a people as represented by Mr Powers.

THEY ARE DESERVING.

Business Compels Improvements—Enlarged Capacity.

Belgen & Williamson, the proprietors of the Vegas Home Bakery, are making extensive improvements on their bread supply plant. Their business is steadily on the increase. This large demand compels them to prepare oven capacity and working room to meet the demand. When improvements are completed they will have the best and largest bakery in the state. They are the pioneers in this business. They are succeeding and deserve success and the pleasing feature is that they are of the worthiest citizens. May their fortunate situation never be dimmed.

In Trim for Business.

Leo R. Myers, the acolyte magnate of Vegas is back from a trip to the coast. The arduous responsibility of this prosperous Vegas factor were such that he required a vacation and he took it in grand style. Since his return he has notified all comers that he is here for business and that the throttle is wide open and that he will do it.

Myers knows how to hustle and accomplish results and in this he is a fort. His business is successful and prosperous. With his partner, Billy Tibbets there is no such thing as fail.

For the Vacation.

Two delightful young ladies from Dillon, Montana, are visiting their mother, Mrs. L. C. Mason, and friends located at Las Vegas. The Squire girls are accomplished, splendidly educated and representatives of Montana's best. They will spend their vacation here. After their enjoyment with relatives and friends they will return to Dillon, one of the garden spots in the western state.

Recognized Opportunities.

George F. Polans, former resident and now a prominent real estate and mining broker of Salt Lake was at Vegas Monday. George, during his residence at Vegas made many friends whose esteem and respect he retains. Mr. Polans is a live and energetic individual and has become largely interested in the development of the Crescent mining district. He also contemplates making Las Vegas his headquarters for he recognizes Vegas as the natural center of this great undeveloped portion of Nevada. He realizes our future and proposes to be in on the winning.

and respect he retains. Mr. Polans is a live and energetic individual and has become largely interested in the development of the Crescent mining district. He also contemplates making Las Vegas his headquarters for he recognizes Vegas as the natural center of this great undeveloped portion of Nevada. He realizes our future and proposes to be in on the winning.

Thackery's Friend.

Charles Lee, county recorder for Kern county, and one of the best known and most popular Californians, stopped at Vegas on his return trip from Bullfrog. He has been in Nevada some time getting rich on its fabulous resources like the balance of us. His friends say he is succeeding beyond the dream of average. Al Thackery says there are none superior and Al usually knows for being up-to-date, he knows all up-to-date fellows and classes, Charley Lee way on top. Lee left for home Wednesday.

For Polluting Stream.

Constable A. L. Murphy arrested a Jap on Sunday for polluting the limpid waters of Las-Vegas Creek. The Jap was caught dead to rights. One of the things he did was taking a bath therein, and other things.

He was brought before Judge Ralph, the just judge of Vegas, who meted out \$100 worth of the article to the inconsiderate Jap, who would take the Vegas valley pride for a bathing resort. There are others who will be in the same boat if they do not guard themselves against the meshes of the vigilant officials.

Vegas and Nippeno.

N. A. Kuhn, the alert merchant is not only doing a thriving and profitable trade at Las Vegas, but also conducting an up-to-date supply store at Nippeno. Appreciating the growth and development of that rich mining belt he recognized the application of the "early bird catching the worm". He is first on the ground and in all respects is in the lead of the growing trade of that district. His Vegas store is fully equipped to supply all of Lincoln county.

Truck Farming Pays.

The Las Vegas market is being supplied with the most tasty and luscious watermelons, cantelopes, cabbages and onions from the Muddy River Valley. Gardening, truck farming is a profitable occupation for the farmers of that valley. One of them informed a Times representative that up to the present time he had sold from a single acre products of this class, realizing for him \$403. Much of his product has gone to Salt Lake, but Vegas is affording a more profitable market.

Are With Us for Good.

Block & Botkin, young men who realize the future of Las Vegas have opened and established themselves on Fremont street, near postoffice. They are clothiers and furnicers. It is their determination to be leaders in this respect and in order to set the pace they propose to serve popular requirements in good prices and high grade goods. Quick sales and small profits is their motto.

is Interested in Crescent.

Col. J. C. Ellis, the representative of prominent Eastern capitalists, is at Hotel Las Vegas. The Colonel is securing interests at Crescent for the firms he represents. He has confidence in the future of Crescent and will return to that field to secure more holdings and prepare for development work. It looks good to him, so good as to cause him to advise the investments that will make it a producer.

Has Gone to Fresno.

Carroll E. Harrison, who has the distinction of being the first man to get married in Las Vegas valley left for Fresno, California, on Tuesday. Mr. Harrison has accepted a responsible position with the Fresno Electric Light and Water company. Mrs. Harrison is awaiting the arrival of her mother at Vegas before departing for her new home.
