

# JOLLY GOOD TIME

(Continued from First Page)

and we hope to entertain you so well that you will be proud to grace our every gathering with your wit and beauty. We hope that this will be a night of joy unconfined for all of you. Be merry and happy. Welcome you are."

Elk Nofziger of Los Angeles, in pleasing terms related his first trip to Vegas and why he so loved the place.

With these preliminaries disposed the orchestra broke forth with strains of melody so sweet and enlivening as to make one believe that it was the old Stradivus gale that was bringing cheer and sweetness to the waltzing assemblage as it glided and swirled to and fro across the splendid pavilion floor of the ranch. Everybody partook of the spirit and in an instant a moving crowd, was going it full of delight and as the light played upon the twirling dancing throng beneath the mulberry trees, and along side of the babbling brook and with the moon's silvery rays prancing to and fro it presented a scene that was in all its import a fairy and sublime spectacle.

Dancing from time to time was interspersed with stories, recitations, songs and refreshments. The latter were in keeping with it all. The spirit dispensed was good cheer, wines of the best vintage and eatables of the most delicate and tasty were dispensed under the direction of that master of the cuisine, Howard Tuttle.

Eisenhart was recognized as the oldest young man present. He is only 79 years of age, yet he twirled the floor with the agility of a cat. N. A. Kuhn, the merchant, was the story teller of the evening—his is a bear story and somewhat blemshe the reputation for bravery and courage of Sheriff Al Murphy. Kuhn, did it in good style and the crowd roared at Murphy's plight. It follows:

"Some time since before leaving Omaha, our now genial sheriff, A. L. Murphy, expressed a desire to have a bear hunt; as he went through Colorado two celebrated shots, friends of his promised him one. They at once wrote to a hotel man up on the mountain back of Colorado Springs and Manitou, who they understood had a tame bear and asked him if he could not train him to make a run for the hotel, so as to give their friend Murphy a chance for a bear hunt. They furthermore promised that A. L. would not hurt the bear.

"So that very evening the keeper took the tame bear up the side of Pikes Peak, some distance above his hunting lodge hotel and chained the bear there without its supper, then he let it loose in the morning, and when it found its way back to the hotel fed it. This performance was repeated every night and morning until Mr. Murphy arrived with Will Krug and Frank Parmalee, who are well known to all shoots of the west. It may be needless to say that the bear had learned its part well and when loosened made a bee line for his breakfast. When they arrived at the hotel Mr. Murphy was informed that a big bear had been seen on the mountain top every morning for more than a week and to prepare for a hunt early next morning. Murphy looked his trusty Winchester repeater over and saw that it was properly loaded and went to sleep to fairly dream of bears.

"As soon as he was sound asleep, Will Krug, took his Winchester, abstracted the leaden cartridges and filled it with blanks which had been filled with cotton and covered with lead foil, so that they would look all right if Murphy examined the gun again. They got up early in the morning and Murphy was given the trail, down which the bear was in the habit of rushing for his breakfast, and told to follow that while Krug went on one side and Parmalee on the other. Then when all started the signal was given to free the bear, and it was not long until Murphy saw the bear coming straight for him. He thinking the bear had seen him first, began to fire (his blanks) at the bear, but of course without effect, and as soon as the last one was fired and the bear still rushing for him, he dropped his gun and gave a yell that could be heard to the top of Pikes Peak and made a run for the

hotel. He beat the bear in and then claimed the bear as his own because he had brought it in. He never learned that it was a tame bear until the story was told."

N. A. Kuhn says if you do not believe this, just ask Mr. Murphy who will not pretend to deny it.
