The discussion of the Dominican NEW YORK'S LATEST TENEMENT treaty in executive session of the senate Tuesday resulted in the drawing of party lines. The Democrats, who have been reported as likely to support the treaty, will return to the fold. it is said, and on both sides of the chamber it is admitted there is little prospect that the convention will be ratified

Because of the doubt of the ratification, which was talked of seriously Tuesday for the first time, the sugges tion was made that action should pe postponed until after an investigation has been made of all the conditions in Santo Domingo, including the character of the claims and the stability of the Dominican government and the force that would be required to keep it intact. This proposition came from the Democrats and credit for originating it has been given to Senator Morgan. It has not met with favor because of the indifference to the fate of

the treaty which was expressed by a number of Republican senators. So far as the propriety of the senate making an investigation is concerned it was said the step would be unprecedented, and that an inquiry, if one is to be had, should be made through the president. It is understood that the subject of appointing a commission to make the inquiry has not yet, been presented to the president, and it seems assured that there will be no postponement of the vote unless such action meets the approval of the president, which is not deemed likely.
