Entered as second-class matter May 1,  
 1905, at the Postoffice at Las Vegas,  
 Nevada, under the Act of Congress of  
 March 3, 1879.

SATURDAY, AUGUST 16, 1906.

**HELP IT ALONG.**

The agitation for the change of the county seat from Pioche to Vegas, is a laudable one. The Times is in favor of this change, but not for county division. It will assist in bringing about the former within every line of reason. This movement is a practical taxpayers question. It is one that vitally concerns the live and progressive interests of Lincoln county. The citizens of Las Vegas have a fair part to play in order to accomplish this desired result.

The board of trade, a central organization, can well play an important part in this.

An objection will be the cost of a new county building. This feature must be met. The best way to meet it is by the Vegas citizens to recognize the practical and set about to devise ways and means to raise a fund of \$25000 to provide county buildings such as are essential to the requirements of efficient county business. By doing this the question of additional taxation will be overcome and will make Vegas the county seat and acceleration to bring the state capital to our confines. Work of the right sort will accomplish wonders and let all unite to do the work with enthusiasm.

The Times always improves with the times; behold our eight pages this week. It is a case of prosperity in a prosperous community.

Labor day is approaching. Will the sons of toil make appropriate arrangements for a proper celebration with sports oratory and games? Time to move.

The moon had an eclipse Monday evening. It was a great observation feature but some were the expression, that just now there were some other eclipses. Too true.

WONT THE AGE HAVE A CONNEXION WITH "HE WHO LAUGHS LAST LAUGES BEST". A STINKING BREATH IS ALWAYS FOUND OUT AND THAT IS WHAT THE AGE HAS BEEN TO THIS COMMUNITY.

Las Vegas has a solid grandeur and only the blind cannot see this; the pessimist refuses to see it; and they fatigue their minds with the alarm that the shortighted propound. The time is not far off when such will be undone.

IT WILL NOT BE LONG BEFORE THE TIMES WILL GREET THE CITIZENS OF LINCOLN COUNTY, WITH AN ENTIRE NEW DRESS AND FITTED OUT TO MEET ANY REQUIREMENT; FROM THENCE IT WILL BE A CASE OF HAMMER AND TONGUES.

**There are Some and Others.**

The prophet of evil is abroad in Vegas. These see haught but ruin because their petty warped minds gloze on the evil they can do; besides these there are honest alarmists because they cannot imagine or reason clearly. They are impractical and volunteer blind men and as a consequence in a puffy condition. They are a harm but infinitely preferable to the first class. This community is the victim of such buffers, but fortunately the mass have good faith and honest purpose and with these Las Vegas will sail to the forefront and take its place as the most prosperous and best city in Nevada. They are the silver lining to the clouds and their persistence will win the victory. They are the branches to our upbuilding and in this consummation they will have the horn of plenty. Las Vegas with such will overcome present depression.

**Unite to Develop Water.**

The Townsite company will assist in the development of artesian water. The development of so important a contributory source of wealth to the Vegas valley is a subject worthy the consideration of the board of trade. Why not have one committee take up this important

subject with the Land and Water company? Much good will result from it. It will be the means of bringing about a sensible effort to determine the substantial flow of water that from all evidence underlies this great productive valley. Let common sense, cool and clear headed judgment prevail and much that is in doubt and uncertainty now will be removed and a militant spirit of progress and development take its place. The opportunity is here; embrace it. Let the croakers and evil spirits pass on.

**Attention F. O. E.**

A social meeting of all Eagles in Las Vegas, will be held next Monday evening, August 21, at the Palace hotel, at 8:30 o'clock, p. m., for the purpose of organizing an order.

W. E. MCNEARY,  
 Ex-Worthy Conductor,  
 Long Beach Aerie 791.

**For Organization.**

The United Spanish War Veterans will have a meeting at the Hotel Las Vegas, on Tuesday evening, to organize a camp. It is supposed that the organization at this point will be merged into the commandery of California on account of the scarcity of organization in Nevada.

**PICK AND PAN.**

J. F. Collins, has opened an undertaking parlor in Vegas.

Everything neat and clean at Johnson & Ward fruit and produce store. tf

J. Russell Crowell, is on a hunting trip into the wilds of California.

Mrs. L. D. Smith, the better half of mine host Smith, of the Palace, is on the sick list.

Johnson & Ward, the pioneer fruit dealers are receiving cantaloupes every day.

Hon. Frank Clark, has gone to Los Angeles, not upon a wire pulling, but a strictly business mission.

Jack Andrews and A. M. Porter, well known mining men and promoters of Olliften, Arizona, are in Vegas.

Lake & Son, is handling Pierre & Ramsey's pictures. Come and see them at the postoffice.

Residents who are highly respected and recognize in a sound way the merits of Las Vegas, are Mr. and Mrs. J. C. McIntosh.

For Sale—Three five acre lots, two blocks west of Bond townsite. J. W. McBurney. tf

The Wednesday Night club, held another of those delightful entertaining social dances that is such a source of pleasure.

Have your tailoring, cleaning and repairing done at the shoe shop, one hundred yards in rear of the postoffice on First street. tf

W. B. Alexander, representing Bishop & Company, of Fresno, is stopping at the Palace hotel, while looking up Vegas trade for his firm.

Lope & Shepherd, disposed of their extensive lumber business in Las Vegas. E. M. Marshall, is in charge of same and is prepared with a stock of lumber at good prices that will build a city.

Jack Becksle, the clever assistant of Ed Von Tobel, in the lumber business, is establishing a high grade reputation as an authority on mining. The future looks up with prospects of an ample fortune for him.

Charley Davis, the affable and genial mixologist of the Hotel Nevada, has accepted a position at Summerland, California. He will leave Vegas on the 25, and assume his new position at his old home on arrival.

John F. Miller, the Nevada hotel man recently demonstrated his ability as a practitioner at the Pioche bar, as to entice him to beat to the wind the sign "John F. Miller, Attorney at Law". As his own counsel in the injunction suit they say he was a success.

Ray Taylor, is recuperating from the over exertion occasioned by the Butler fire. Ray with an intense earnestness, to conquer the meddling attempt of the flames to devour near by buildings and as a result became a victim of nervous prostration.

Norman A. Kuhn, is back from the Portland fair. His pronounced it a success with features of attraction that have not been excelled by any previous exhibits. The Centennial, in 1876, at Philadelphia, the Chicago and the St. Louis, all of which he saw were neither better and in some respects did not equal the grandeur of the Lewis and Clark show.

To Whom It May Concern—I never invested one cent with J. W. Telford in the Red Union Club, and never expect any returns from the proceeds from that business. I never ordered any license or product of any kind; therefore I notify the public that I never gave any authority to any person to use my name in any business whatever in this county or State of Nevada.  
 JAS. M. KERRILLY.

S. G. Berrio, is manager of the Red Union Club. He will be pleased to see his many friends and give them a good time.

Las Vegas will have an impulsion of enterprises in the near future that will amply compensate those who have faith.

A smelter, in the event that sufficient water is provided, will be an assured fact for Vegas.

Showings on Judge Wallace's great bonanza galena property in the Charlestown mountains are improving with development work. There is exposed more than two feet of steel galena at present that goes more than 80 per cent. lead and the usual by-products, gold and silver.
