

# W. L. DOUGLAS

'3.00 & '3.50 SHOES

W. L. Douglas \$4.00 Gilt Edge Line cannot be equaled at any price.

Established July 4, 1898.  
W. L. DOUGLAS MAKES AND SELLS SHOES AT LESS THAN ANY OTHER MANUFACTURER.  
**\$10,000** REWARD to anyone who can improve this statement.  
W. L. Douglas \$3.50 shoes have by their excellent style, easy fitting, and superior wearing qualities, achieved the largest sale of any \$3.50 shoe in the world. They are just as good as those that cost you \$5.00 to \$7.00—the only difference is the price. If I could take you into my factory at Brockton, Mass., the largest in the world under one roof making men's fine shoes, and show you the care with which every pair of Douglas shoes is made, you would realize why W. L. Douglas \$3.50 shoes are the best made in the world.  
If I could show you the difference between the shoes made in my factory and those of other makes, you would understand why Douglas \$3.50 shoes cost more to make, why they hold their shape, fit better, wear longer, and are of greater intrinsic value than any other \$3.50 shoe on the market to-day.

W. L. Douglas Street Made Shoes for Men, \$2.50, \$3.00, Boys' School & Dress Shoes, \$2.50, \$3, \$1.75, \$1.50  
**CAUTION**—Insist upon having W. L. Douglas shoes. Take no substitute. Name genuine without his name and price stamped on bottom.  
**WANTED.** A shoe dealer in every town where W. L. Douglas Shoes are not sold. Full line of samples sent free for inspection upon request. Fast Color Epslets used; they will not wear brassy. Write for Illustrated Catalog of Fall Styles. W. L. DOUGLAS, Brockton, Mass.

The Judson Drug Co., General Agents, Salt Lake City, Utah.

### IN THE BEST OF HEALTH SINCE TAKING PE-RU-NA

MRS. LENA SMITH

IN POOR HEALTH. PAINS IN BACK. SICK HEADACHES. PE-RU-NA CURED.  
Mrs. Lena Smith, N. Cherry street, cor. Line, Nashville, Tenn., writes: "I have had poor health for the past four years, pains in the back and groins, and dull, sick headache, with bearing down pains.  
"A friend, who was very enthusiastic about Peruna insisted that I try it.  
"I took it for ten days and was surprised to find that I had so little pain.  
"I therefore continued to use it and at the end of two months my pains had totally disappeared.  
"I have been in the best of health since and feel ten years younger. I am very grateful to you."  
Catarrh of the internal organs gradually saps away the strength, undermines the vitality and causes nervousness. Peruna is the remedy.

### THE MAN BEHIND THE SAW

Has easy work if it's an Atkins. The keen, clean cutting edge and perfect taper of the blade make it run easily without buckling.  
No "champing" to do with the Perfection Handle.  
But there are other men behind the Atkins Saw. The originator of SILVER STEEL, the finest crucible steel made, was a good deal of a man. The discoverer of the Atkins secret tempering process was likewise a man of brains and genius.  
And there are high-class workmen behind this saw, masters of their craft, whose skill and pride of workmanship have helped to make the Atkins Trade Mark an assurance of quality as reliable as the Government assay stamp.  
We make all types and sizes of saws, but only one grade—the best.  
Atkins Saws, Core Knives, Perfection Floor Scrapers, etc., are sold by all good hardware dealers. Catalogue on request.  
**E. C. ATKINS & CO., Inc.**  
Largest Saw Manufacturers in the World.  
Factory and Executive Office, Indianapolis, Indiana.  
BRANCHES: New York, Chicago, Minneapolis, Portland, Oregon, Seattle, San Francisco, Memphis, Atlanta and Toronto, Canada.  
Accept no Substitute—Insist on the Atkins Brand  
SOLD BY GOOD DEALERS EVERYWHERE.  
W. N. U., Salt Lake—No. 39, 1905.

### REMARKABLE DOG.

Answers in Dog Language Responses Coming in Barks.  
Berlin seems to be the center of present of animal prodigies. "First Cousin," the man-imitating ape, was a late reigning sensation. Hans, the educated horse, performed marvelous feats of intelligence. But Nora, the beautiful canine whose picture is shown, surpasses either of these.  
Nora's owner is the noted painter, Emilio Rendich, who first called attention to Hans.  
Nora's strong point is mathematical. Arithmetical sums stated in words of

written on a blackboard are worked out with unwavering precision. The problem is stated as follows:  
"Now, Nora, pay attention to me. Multiply four by three, add one, and deduct seven. Now give me the answer."  
Nora promptly responds with six quick barks and stops after the sixth round without any visible sign from Herr Rendich. Nora solves all sorts of arithmetical problems in the same prompt and correct way.  
The curious part of the performance is that Nora has been known to work with the same precision and accuracy with strangers, in the absence of Herr Rendich. Many observers of the dog have declared these achievements are inexplicable unless it be conceded that the dog possesses intelligence identical with that of human beings

### BEEES IN THE HOME.

Fad Has Struck Country House Owners—The Honeycomb.  
Agriculture is the latest fad of the London smart set. Of course, bee hives form a part of the outfit of all country homes, but now it is considered quite smart to have bee hives in the drawing room, and samples of the skill of the exhibitor as a bee-keeper are kept under glass cases. The mother of General Baden-Powell, for instance, keeps two hives in the music room. These are of more than usual size and are richly ornamented upon the outside. A large glass window permits the visitor to sit and watch the various processes in comfort and there is always in progress the formation of some curious model of wax for which a frame has been especially constructed. Boats, bicycles, automobiles and similar objects are roughly modeled in honeycomb, and when completed they are removed from the hive and carefully drained of the honey, the empty cells being mounted for the collection. As the presence of the bees flying about the place would cause apprehension, the bees are not permitted to enter the room, but are allowed access to the garden through a pipe piercing the wall of the chamber. The fad is of general adoption and the wax models have served as centerpiece at some of the most important dinners of the present season.

### Cheap Summer Clothes.

This is the season when the clever woman visits the shops and replenishes her wardrobe. In a few weeks the fall suits and hats will fill the stores, and meantime summer things are marked down to almost nothing compared with their original price. Linen suits that brought \$25 early in the season may now be had for \$9 or \$10. Embroidered shirt waists are reduced about half; good linen skirts are sold for \$2 and \$3; 50-cent belts are now going for 10; straw hats may be had for the proverbial song, and linen shirt waists suits that have sold for \$8, \$10 and \$12 may now be picked up at \$4 and \$5. These things will not look old-fashioned next summer. A few necessary alterations may be performed at home and considerable wear achieved before linen frocks are called in for 1905.

### Size of Indian Territory.

The Indian Territory is nearly as big as Indiana. It has 20,000,000 acres of arable land, 3,000,000 acres of good timber, 2,000,000 acres under which there is oil and gas, and 900,000 acres of coal. It has not much less than 1,000,000 people by this time, large and growing towns, well-tilled farms and a good railroad system for hauling their produce.—St. Louis Republic.

### Days of Training Ship Ended.

Special interest attached to the recent distribution of prizes on board H. M. S. Britannia, at Dartmouth, England, as it was the last function of the deck of the old-cadet ship will witness. The cadets, during the holidays, will be housed in the new Naval college, erected at Dartmouth at a cost of nearly £500,000.

### The Lying Camera.

It has been said that the camera never lies. It is the peculiar quality of that mechanism that it never tells the truth. Nothing comes between the object and the image except the sun, and the distorting power of the sun, which cannot select, makes the image monstrous and inhuman. Everything is twisted out of proportion.

### LIGHTING LORE.

### ACETYLENE EXCELS AS AN ILLUMINANT.

Gas for Lighting Formerly Confined to Cities and Large Towns, now in General Use in the Country.

The satisfactory lighting of suburban and country homes requires that the means used shall be convenient, safe, economical and furnish a brilliant, penetrating, effulgent light.  
Everybody admits that these are not the characteristics of the candle or kerosene lamp, which, formerly, were the only feasible means of producing light for domestic use in the rural districts.  
For generations there was a crying need, a yearning for something better, which was not satisfied. A few years ago deliverance came in the shape of the chemical compound, Calcium Carbide, from which, by the simple application of water, the gas Acetylene is derived. Acetylene meets all the requirements fully and admirably and is being generally used.  
Common lime and carbon in the form of coke or coal are the raw materials which, fused in an intensely heated furnace, make Calcium Carbide, and there is no difficulty in obtaining it in any part of the country.  
The machine into which the Calcium Carbide is fed and from which the Acetylene is distributed through the building to be lighted, is but little larger than a thirty-gallon milk can, and of the same general form. It is easily and cheaply installed, either in the cellar or in an out-building.  
The light from burning Acetylene is exquisite, and lighting experts agree that it surpasses all other known illuminants. It does not trint the air nor strain the eyes and is not objectionable in any respect. Every up-to-date rural residence should be equipped with Acetylene light.

### Giving Money a Weigh.

"I saw a new way of counting wealth," said a man who passes up and down Broadway occasionally, "and incidentally I got some idea of the amount of money these music halls gather in daily. I was in one the other day about noontime, when the proprietor was making up his accounts. Do you know how he counted his receipts? Why, he weighed the pennies, and he filled up the basket on the scales a good many times, too. Funny way of doing it, but I suppose it's fairly accurate."

### Important to Mothers.

Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the Signature of *Wm. A. Stearns* in Use For Over 30 Years.  
The Kind You Have Always Bought.

### Tea

Linger longer over it; let it be steaming hot from the earthen pot; and the loveliest woman pour it.

### Tea

Good tea and tea are quite different; both grow on the same bush.  
To Remove Nicotine. Poisonous nicotine in tobacco is removed by steeping the leaves in a solution of tannic acid. This is the method adopted by a German chemist.

### Tea

Result of Introspection. When you think yourself over in the middle of the night you give mighty poor satisfaction.—Philadelphia Inquirer.

### Tea

Which do you spend most money on, tea or coffee?  
Your grocer returns your money if you don't like his tea.

### Tea

Australian Immigration Rule. Any person who fails to write at dictation a short passage in a European language is liable to be prohibited from landing in Australia.

### Tea

Alaska Coast Line. Nome, Alaska, is 200 miles west of Honolulu. Alaska has almost two and a half times as much coast line as the rest of the United States.

### Tea

There is such a thing in the world as tea-toper, slave of the cup; one can hardly imagine it.

### Tea

To Preserve Autumn Leaves. For preserving the autumn leaves which will soon be so plentiful, press them for several days in a book, then dip them in hot paraffin and blow until cool. By this method the colors may be preserved almost indefinitely.

### LONG REACH FOR DIAMONDS.

### Crown of a Drill Lost in the Earth in South Africa.

"The Recovery of a Diamond Crown From a Deep Bore Hole," is the title of a paper read by Cuthbert Baring Horwood before the Institution of Civil Engineers and reproduced by permission in the American Machinist. The diamonds were in the crown of a drill lost 3,233 feet below the surface of the ground. The risk involved in the accident was that the hole might have to be abandoned entirely. According to Mr. Horwood this would have meant (1) A year's work wasted; (2) probably nine months' delay before the same depth could again be reached in another hole; (3) loss of the total amount spent up to that time (about \$40,000); (4) loss of \$1,150 worth of diamonds; (5) loss owing to depreciation of plant and machinery for one year; and other incidental losses.  
The diamond drill was lost while boring the Van Ryn Reef. Operations were begun in 1902 on a farm on the far East Rand, about thirty-three miles from Johannesburg. When the work had proceeded for more than a year and the bore hole had reached a depth of 3,233 feet the bit became jammed, and the rods were consequently withdrawn. When the core barrel was drawn up it was found that it contained no core and the diamond crown was missing.  
In order to recover this precious tool and clear the way for further operations a special tap was made in Johannesburg. This tool was six inches in length, of which 1 1/2 inches were threaded to screw into the bottom rod and the other end held four small diamonds, as shown in the diagram of the lower part. They were designed to cut through and beyond the rock, working inside the crown, which the engineers figured must have become imbedded in rock. It did its work perfectly and speedily.  
By use of this tool a loss of over \$40,000 was saved. All the diamonds were found to be intact; there were eight diamonds on the face of the

crow, four inside and four outside, and also four inferior diamonds around the outside of the bit to keep the hole sufficiently large to insure easy working. The diamonds were not only worth more than \$1,150, but their quality had been tested and reliance could, therefore, be placed on them.

### Cow Chews on \$70 Cud.

Ike Austin of Traverse City, Mich., is out \$70 and a cow, and the reason therefore is most peculiar. Austin was driving the cows to a slaughter house and roped his pocketbook containing \$70 in bills. "Bossy" made a grab for it and devoured both wallet and currency before Austin could get off from the wagon. Intent on recovering his cash, Ike killed the creature instantaneously. He secured the greenbacks again, but they were chewed to tatters, and he will send the precious cud to Washington in the hope of recovering its value in new bills.

### Tokay Wine Destroyed.

A calamity has overtaken the famous Tokay wines. The great wine-making establishments on the royal vineyards of Tarezel, in Hungary, were destroyed by fire. The loss is serious, because, in addition to the building, a fine manufacturing plant is destroyed, together with large stores of Tokay wines of choice vintage. This establishment is the private property of the Emperor Francis Joseph.

### Only Living Model.

Harry K. Devereux of Cleveland is the only living model of the three who posed for the famous painting, "Tax and Doodle," portrayed by Willard

### Mothers Are Helped

### THEIR HEALTH RESTORED

Happiness of Thousands of Mothers Due to Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's Advice.  
A devoted mother seems to listen to every call of duty excepting the supreme one that tells her to guard her health, and before she realizes it some derangement of the female organs has manifested itself, and nervousness and irritability take the place of happiness and amiability.

Tired, nervous and irritable, the mother is unfit to care for her children, and her condition ruins the child's disposition and reacts upon herself. The mother should not be blamed, as she no doubt is suffering with backache, headache, bearing-down pains or displacement, making life a burden.  
Lydia E. Pinkham's Vegetable Compound is the unfailing cure for this condition. It strengthens the female organs and permanently cures all displacements and irregularities.  
Such testimony as the following should convince women of its value:  
Dear Mrs. Pinkham:  
"I want to tell you how much good Lydia E. Pinkham's Vegetable Compound has done me. I suffered for eight years with ovarian troubles. I was nervous, tired and irritable, and it did not seem as though I could stay any longer, as I had five children to care for. Lydia E. Pinkham's Vegetable Compound was recommended and it has entirely cured me. I cannot thank you enough for your letter of advice and for what Lydia E. Pinkham's Vegetable Compound has done for me.—Mrs. Ph. Hoffman, 100 Hiram Street, Brooklyn, N. Y."  
Mrs. Pinkham advises sick women free. Address, Lynn, Mass.
