Ghastly Sights in Guanajus Guanajuato, the ruined city in Mex-o, which was destroyed by a cloud-rst, furnishes one of the ghastliest curiosities of the world. In one of served many mummles which were dug from the soil. They afford a curi ous evidence of the natural embalming properties of the earth.

TEA

We consume a great deal of tea, but do we enjoy it? More coffee: but do we enjoy it?

Write for our Knowledge Book. A. Schilling &

Before the introduction of coins and ints gold and silver passed by reight in the forms of lumps, buttons wedges, or spikes.

TEA

The cost of tea is all in the tea: the cost of coffee is by no means all in the coffee. Your grocer returns your money if you don't like

A Good Mixer.

Johnny-Pa, what is a good mixer? Pa-A man who can mingle the mint of the moneyed classes, the ice of the indifferent and the whisky of the majority into one grand julep.

BIG PUBLISHER SUED.

Chicago, Oct. 16 .- The Peruna Drug Manufacturing Company, manufacturers of a widely known proprietary medicine, has brought suit in the Superior Court of the City of Chicago against the Curtis Publishing Company of Philadelphia, alleging that it has been damaged to the extent of \$250,000 by a recent article in the Ladies' Home Journal.

The suit is based on a statement recently made in that journal that a testimonial as to the merit of the remedy manufactured by the plaintiff, alles to have been given by Congressman George H. White of South Caro-Hna was fraudulent, denial from Mr. White that he ever gave such a testi monial also being printed.

The Peruna company declares that Congressman White did give the testimonial in good faith, and that it has two original letters from Mr. White. It declares that Mr. White was led to repudiate the testimonial through a misunderstanding.

This is the second large damage suit that has been filed against the Curtis Publishing company since it inaugurated its attacks on "Patent Medicines."

also in England, was fixed in the time | them. of Queen Elizabeth and has not since been changed.

TEA

It is easy to brew a good pot of tea. There are two ways: one is to do it; the other is not to.

In every package of Schilling's Best Tea is a booklet: How to Make Good Tea.

Rare Old English Coins Found. Rare specimens of a silver groat and a silver penny, both of Richard II, have been dug up at High Wy. comb. Bucks.

To Launder Colored Embroidered Linens. To launder colored, embroidered lineas with good results, the work should be done with good results, the work should be done quickly and carefully. Wash through warm, Ivory Soap suds, rubbing with the hands; rinse through a clear water, then through another which is slightly blue. Dry in-doors; to iron, have the piece very damp and place it, right side down, on a soft blanket. Press with a hot iron. ELEANOR R. PARKER.

To Improve the Grip.

A long-handed broom makes an excellent exerciser for the wrists, and will improve the grip. Grasp the tor end of the handle and raise the broom level with the shoulder, keeping the arm perfectly rigid.-Exchange.

DON'T FORGET
A large 3-02 package Red Cross Ball Blue, only
5 cents. The Russ Company, South Bend, Ind.

Henry III of England is reputed as having chosen a grain of wheat from the middle of the ear as a standard of weight.

TEA

Think of the cheer in a cargo of tea.

Caligula, most cruel of Roman emperors, built a bridge of boats three miles long at Baiae and celebrated its opening by throwing many of his guests into the sea.

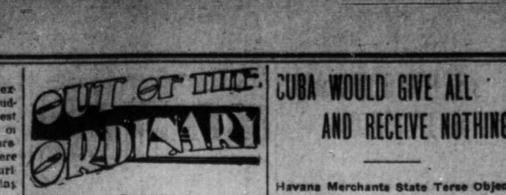

TEA

Is it tea that unlooses the wings of thought and the bands of the tongue?

Retimates of the total amount saving deposits of the world show the amasing figures of \$7,000,000,000.

Red Cross Ball Blue. Large 3-oz. package 1 cents. The Russ Company, South Bend, Ind.

Didn't Believe in Daily Bath. rlin landlord has not only sued a tenant for loss sustained through her excessive use of water for bath-ing purposes, but has promulgated the extraordinary theory that "no respect-able woman takes a bath every day."

Evolution. A game of checkers on the earth Torough ages has been played. And in the slimy ocean bed The first slow move was made.

There man began, a thing of cells, Without a form or name, And on the worldwide checkerboard He opened up his game.

An eon passed; he moved again,
A proper game and slow,
And monsters of the earth and main
Went stalking to and fro.

With mighty plot and counterplot
The game was played with care,
And here he sacrificed a type
And lost another there.

From ape to cave man, every link
Had victory to wring
Until he pierced the furthest line
And crowned himself a king.

McLandburgh Wilson in New York Sun

Passport to the Pele. Certainly the oddest passport ever issued was one signed by the Governor of the Russian province of Povolsk, on the shores of the Arctic ocean, who granted safe conduct to

the North Pole. He was approached by two members of an expedition fitting out for a polar exploration who gave as their destination the North Pole. The governor was nonplussed at this unique request, but his visitors insisted on being supplied with the desired papers and their request was granted after the governor had thoughtfully written in a clause stipulating that the responsibility of the Russian government ceased when they passed from Russian territory. The explorers assented to this qualification, and since their travels carried them but a short distance toward the pole they are still possessed of their unique documents.-New York

Whole Town Changed Location.

We have been accustomed to hear ing of the bodily removal of houses. but it has been left for Russia to pro vide the spectacle of a whole town of some 5,000 inhabitants changing its location. This, however, is the case of Lepsinsk, a town in the district of Semiretsche, in Russian Turan Twenty-two years ago Lepsinsk was founded on land provided for the purpose by the governor general of the province. This land had, however formerly belonged to the Semiretsche horde of Cossacks, who strongly objected to the transfer. For twenty-two years the dispute has continued, and now at last the inhabitants of Lepsinsk, hearing of a suitable site thirty-five kilometres to the northwest of their present quarters, have decided to remove thither in a body, taking their possessions and as much of their Our statute mile, 1,000 paces, used habitations as possible along with

Skull of Phenomenal Thickness.

A man whose skull seems to be made of iron has just been treated at Westminster hospital, London, Eng. The police took a man there who had been run over in the street. One wheel of a van, weighing about 25 cwt., had passed over his head, and it was feared that his was a serious case. But to the amazement of the house surgeons who examined him. he was found to be practically uninjured. The flesh, of course, was bruised, but there was no sign of a fracture of the skull. The man's head could scarcely have suffered less damage had it been made of iron. The phenomenal patient, who is a burly laboring man named Wm. Ainge, stolidly refused to remain at the hospital, and without more ado proceeded to walk home. Seen there, he said he intended to return to work immediate-

Paralysis Mistaken for Death.

Dr. Sault, of Fairview, Pa., went to bed apparently in good health the other night, but did not awake the next morning. His wife and family became alarmed and thought he was dead. Dr. Hughes, who was summoned and made an examination gave it as his opinion that there was. some life in the body, but Mrs. Sault was firmly convinced that her husband was dead. A couple of mornings afterwards Dr. Sault startled his wife and set all doubts at rest by jumping up in the bed and inquiring why there were so many people in the room. He said, "Nonsense, I am not dead, and do not propose to die for a while yet." The doctor improved later on, al though very weak. His attending phy sician believes he sustained a slight stroke of paralysis, which rendered him unconscious.

Boar Creates Legal Tangle.

A collision between a motor-car and a wild boar has led to extraordinary legal proceedings in a German court Mme. Senyer-Bettaque, the well-known singer of Munich, was cassing through a forest in the course of a motor car tour, when the boar charged the car, seriously damaging it as well as breaking a telegraph pole. The forest authorities immediately sent -Mme Bettaque a bill for £2 10s. for the loss of the boar, and the telegraph authorities asked her to pay 15s. dam age to the pole. She in turn has brought an action against the forest authorities for compensation for in juries to herself and her car.--Mon treal Herald.

Relic Interests Australians, An interesting relic, the anchor of the Sirius, which was the first British ship of war to enter Australian we ters, has been recovered from the sea near Sydney. It is proposed to moun it on a granite pedestal in some public

AND RECEIVE NOTHING

Havana Merchants State Terse Objections to Anglo-Cuban Treaty.

Havana.-Following the publication Friday evening of the text of the ten years' treaty of commerce and navigation between Cuba and Great Britain, the ratification of which is now pending in the senate, the Havana chamber of commerce gave out for publication the text of the report made by it to the foreign returns commission in request for advice as to whether the treaty ought to be ratified and which declared emphatically against ratification.

The report of the chamber of commerce says that as, Cuba has few merchant ships and no warships the reciprocal privileges granted by Great Britain would be wholly in favor of British vessels in Cuban waters, and would probably have the effect of seriously shortening the revenues of Cuba, since Cuba had not enough revenue service ships to watch her coasts.

At the same time Cuba was not in a position to enlarge her marine service, while the treaty would be effective in extending encouragement to the other contracting party to enlarge its marine service. Under such an arrangement the Cuban marine service probably would entirely disap-

PEACE FOR ASIA.

England and Russia Are to Come to an Understanding.

London.-Following closely upon the publication of the text of the Anglo-Japanese treaty has come considerable talk of the possibility of an understanding between Great Britain and Russia. All the newspapers are devoting columns to the disession of the question, pointing out that if Russia is sincere in her expression of a desire for peace in central Asia there is no reason why the two ancient enemies should not come to an agreement that will not only assure peace, but clear away the supicions leading to friction which have existed for years. That negotiations with this objective are pending seems to be true, though definite official confirmation is lack-

Chicago Doctor Accused of Horrible Crime.

Chicago.-Dr. Oliver Hart, aged 39 years, a physician residing in the suburb of Rogers Park, is in the custody of the police pending further investigation of the death of Irene Klokow, 10 years of age, which occurred Friday in the residence of the physician. It is the opinion of the police that a charge of murder will be lodged against Dr. Hart, and that he will have much trouble to escape conviction.

The girl died in a bedroom of the Hart residence in which she and the physician had been locked for several hours. It is the opinion of the authorities, based on the facts disclosed at the inquiry, that the girl was maltreated and then poisoned in an attempt to conceal the crime.

Loeb Will Give Out the News.

Washington.-Several important questions were discused at Friday's cabinet meeting, although at the conclusion of the session it was announced officially that no details of the discussion could be made public. In fact, it was announced that hereafter no information would be given out by cabinet officers of their semiweekly meetings with the president, but that such information as it was deemed proper for the public to have would be given to the newspaper men by Secretary Loeb.

Mother and Child Murdered.

Middletown, N. Y .- Alice Ingerick, 9 years old, was found murdered in the cellar of a farm house near here Friday night. Her mother, Mrs. Georgia Ingerick, was later discovered in a barn on the same farm suffering from severe wounds about the head and probably fatally hurt. The woman kept house for Willis and Fred Olney, two aged brothers. No trace of the brothers can be found, and some are of the opinion that they also have been murdered and that their bodies will soon be discovered.

Young Rancher of Dillon Probably Met Foul Play.

Dillon, Mont.-Wasson Oliver, aged 24, son of the chairman of the Beaverhead board of county commissioners, is thought to have been murdered, and a Frenchman whose name is un-known is suspected of the crime. Young Offiver had been to Canada and started to drive back with a French herder. His wagon was found twenty-five miles north of Helena, September 23, but no trace of the men can be found. Oliver had considerable money with him.

Two Hundred Indictments.

Peorla, Ill .- A total of thirteen indictments have thus far been returned against Newton C. Dougherty, city superintendent of schools and president of the Peorla National bank. Ten of them are for embezzle ment and three for forgery. Fort ore are being drawn by the state attorney's office. It was announced from that office Friday that the total would reach more than two hundred. The bill required for those thus far

LITERARY NOTES

Two strong and especially note worthy features of the American Monthly Review of Reviews for Octoer are: the number of original artieles and editorials on the consummalion of peace between Russia and Japan, and the strong original and edi-jorial presentation of the much-discussed question of life insurance, Mr. Louis E. Van Norman tells how the treaty of peace was made at Portsmouth; Mr. W. T. Stead, writing from St. Petersburg, recounts how the Ruscian capital received the news of eace; and Mr. Adachi Kinnosuke preents reasons for the opposition to the terms of the treaty on the part of a large element of the Japanese population.

Did you know that President Roose velt is of royal descent-a sort of farremoved cousin of King Albert Edward of Great Britain? That both men have in their veins the blood of Bruce and Wallace and other Scottish kings? That the president's maternal uncles were Confederate soldiers and sailors, and that one of them was sailing master of the Confederate privater Alabama when she was sunk by the Kearsarge? These facts and others scarcely less interesting are developed by Junia McKinley in an article published in the National Magnzine for October. The October number of the National is also a very strong fiction number.

The frontispiece of The World's Work for October is a full-page portrait of William Travers Jerome, the district attorney of New York. In "The It d Story of Industrial Trusts" there is a revelation of some of the ruin brought on by financial debauch of the "merger" period of a few years ago, Sereno S. Pratt, in "Our Financial Oligarchy," draws a startling comparison between the United States senate and the similar body of high financiers who control, by similar methods, the financial destinies of the nation. The article is illustrated with the portraits of sixty-one of these "Senators of Business." Many other interesting articles round out an excellent number of the World's Work.

The Garden Magazine for October is a special double number (112 illustrations and colored cover), making a full presentation of the important subject of fall planting. The broad aspect of the case is discussed by wellknown experts from different parts of the country. Not the least interesting of the many interesting articles in the Garden is the explicit "Gardner's Reminder," which tells succinctly just what to do in and about the garden during October.

It is peculiarly apropriate that, at a time when the universal cry is "back to the people" and the universal desire is to get "back to the country," a pretty volume of verse has made its appearance which breathes from start to finish the spirit of the return to rural and youthful simplicity. "Down Country Lanes" is a collection of verse from the pen of Western Publisher, Chicago, a contributor to the newspapers and magazines, a man of versatility and most genial in nature. These verses by Byron Williams deal with the common things of life-of the green fields and rippling brooks, of the prattle of childhood and the gossip of the small town idlers, of love and good cheer and of the happiness of real life. They are of the kind that make men and women happier and better. They do not inspire to anything that, is artificial or unnatural; they lead away from all that is false and weak in so-

ciety. What is the true twentieth-century adventure story-the adventure of brain, not of bloodshed, of great issues, not of visible perils? Perhaps there is no better example of such a narrative than Mr. Lawson's account. in the October number of Everybody's Magazine, of that supremely daring brigand of "frenzied finance," F. Augustus Heinze, the Montana opponent of "Standard Oil." There is a wide range of fiction in this number of Everybody's, extending from Maximilian Foster's powerful story of the mines, "The Terror of the Pit," to such a delicately humorous love-story as "The Alarm of Angelone," by William Hamilton Osborne.

The ceaseless energy of the Japanese in Manchuria is forcibly depicted by Leslie's Weekly by excellent photographs taken by artists in the employ of that publication, some of the recent scenes showing the little brown men at work transporting merchandise to the front and preparing for the rigors of the coming winter. In order to keep touch with current events, one should be constantly visited by Leslie's Weekly.

Children Burned to Death.

New York.-Three children were burned to death, their parents rescued and taken in a dying condition to St. Mary's hospital, five other tenants sent to hospitals suffering from burns, and two firemen hurt, in a fire in a four-story flat house in Brooklyn, late Thursday night.

Other incidents of the fire were the birth of a child while the mother was eing removed from the burning building, and an accident which caused Fire Chief Croker's automobile to upset, The chief was thrown out and badly shaken up. The fire is believed to have been incendiary.

Mutual Company to be Investigated by Grand Jury.

New York .- That the astounding total of more than \$2,600,000 has been paid as commissions by the Mutual Life Insurance company to two members of the family of Richard A. Mc Curdy, president of the company, and the promise of District Attorney Jerome that the insurance scandals certainly will be submitted later to an extraordinary grand jury, were the sensational developments in the insur-

EXITS WERE BARRED BY BIG POLICEMEN

Novel Plan of Omaha's Mayor to Secure a Quorum of the Council to Pass an Ordinance,

Omaha, Neb .- Mayor Moores stationed a cordon of policemen at the doors of the city council chamber Wednesday and prevented three members of the council from leaving the room, thus keeping intact a quorum, which the majority used to pass an ordinance entering into a contract with the Omaha Gas company to furnish illuminating gas to the city.

The council met in adjourned session, a quorum not being present at Tuesday night's regular meeting. After a roll of the council was called President Zimman and Councilmen Nicholson and O'Brien started to leave, thus breaking the quorum. They found every door blocked by policemen and were forced to remain in the room. A member of the majority made a motion placing the ordinance on its passage, but President Zimman refused to put the question. Councilman Huntington, a member of the majority, put the question, five members voting for it. The minority members declined to vote.

Mayor Moores was present and immediately made an impassioned speech, and several Larsh words were passed between the majority and other members of the council.

DASTARDLY CRIME COMMITTED.

Man Lured from Australia for the Purpose of Robbery and Murder.

Berkeley, Cal.-A daring plot to lure an Australian sporting man, William E. Ellis, to a quiet place in Berkeley and there murder and rob him of £1,000 in English currency, which he had on his person, was partially carried out Wednesday afternoon by a man and woman whom the police believe to be desperate crooks. They had persuaded Ellis to come with them to America and race horses here.

They brought Ellis from a hotel in Oakland to a cottage on 2214 Ellsworth street, a stone's throw from the University of California, bade him sit down to lunch, then crushed his skull in with a hammer. The woman fired two shots at him as he lay prostrate. The crooks rifled his pockets of an

amount equal nearly to \$5,000 in Byron Williams, the editor of the American money, then, leaving their victim for dead, hurriedly left the house and made their escape. Ellis regained consciousness and staggered to the California stables, two blocks away on Allston way, and from there was carried to Roosevelt hospital, where the doctors found he had a fractured skull. He is in a precarious condition.

Congressman Touring Arizona.

Naco, Ariz .- A party of nine congressmen touring Arizona for the purpose of studying the statehood question on the ground, on Wednesday visited Douglas, Bisbee and Tombstone, and also took a side trip to Cananea, Mexico, to see the copper mines there. A Douglas and Bisbee committee met the visitors and es corted them around. They were shown the smelters and went down into a copper mine. The trip will be continued and the Grand Canyon will be visited by the party before returning home.

NUCLEUS OF NAVY.

Ten Torpedo Boats Built by Lewis Nixon for Russia.

St. Petersburg,-Ten torpedo boats constructed by Lewis Nixon of New York at Sebastopol, have been sent by railroad to St. Petersburg and will be incorporated with others building here and abroad in a mosquito fleet for the defense of the Baltic coast pending the reconstruction of an offensive navy. There are no developments in the naval programme

Indictments Against Packers.

Chicago.-The hearing of arguments on the demurrers to the indictment returned by the Federal grand jury agains five of the big packing concerns and seventeen of their employes was closed late, Wednesday afternoon and if Judge Humphreys, before whom the arguments have been made, retains his present impression of the case one-half of the counts of the indictments charging the packers with conspiracy in resraint of trade will be sustained and the remaining counts overruled.

A Black Hand Murder.

New York.-Gaetano Costa, a butch er 40 years old, was murdered Wednesday night in his shop on Fourth avenue, Brooklyn. Costa was alone in his shop when the murderers entered, and no witnesses to the killing have been found. Two men standing near the entrance to the shop heard shots and saw four men escape into the street. An examination of the body showed four builet wounds. The murder is believed by the officers to be the work of the

VALUE OF SALT IN FOOD

Has Distinct Benefit Apart from Its Flavoring Powers.

Sait is perhaps the commonest co iment of all and yet man pro stands alone among animals as a regular consumer of it in the more or less pure state and as a definite adjunct to his food. Salt is present in most foods, but the amount in the majority of cases would not appear to satisfy man's needs or he wo not instinctively add-more, Moreover, salt may not necessarily exist in the free state of foods of natural origin, but may be loosely combined with organic constituents. There can be litle doubt that salt plays a greater part than that of a mere condiment in the body, for it possesses solvent powers which, besides "drawing out" the flavor of food, facilitate the absorption more particularly of proteids and thus increase to ue metalbolism. The pleasures of feeding would be very decidedly diminished if salt and condiments were banished from our tables. It is noteworthy, moreover, that among condiments, most of them. while flavoring the digestive process es, are antiseptic, so that their action tends to counteract any disposition to undesirable fermentation.

Best in the World.

Cream, Ark., Oct. 9th .- (Special.)-After eighteen months suffering from Epilepsy. Backache and Kidney Complaint, Mr. W. H. Smith of this place is a well man again and those who have watched his return to health unhesitatingly give all the credit to Dodd's Kidney Pills. In an interview regarding his cure, Mr. Smith says:

"I had been low for eighteen months with my back and kidneys and also Epilepsy. I had taken everything I knew of and nothing seemed to do me any good till a friend of mine got me to send for Dodd's Kidney Pills. I find that they are the greatest medicine in the world, for now I am able to work and am in fact as stout and strong as before I took sick."

Dodd's Kidney Pills cure the Kidneys. Cured Kidneys cleanse the blood of all impurities. Pure blood means good health.

Writes Good Verse.

The queen of Roumania, known in the literary world as "Carmen Sylva," is not the only poet-queen, for the king of Italy's beautiful consort writes really charming verse. Queen Elena speaks English, French, German and Italian, but her poems, which are shortly to be published by a German firm, were written in Serb, her native language, from which they have been translated into German.

TOO FAR FROM THE BOWERY.

New Yorker Would Not Build House in Canadian Woods.

He was such a typical New Yorker that he seemed strangely out of place n the queer little lumber village way up in the Canadian woods where his duties as a lumber inspector called him. And his talk, which was ever of 'the ponies" and the race track, seamed even more incongruous in a place where the white men talked of "shorts" and "outs," "two by twelves" and "silos" and all the rest of the jargon of a lumber mill. One day the superintendent of the plant, who had taken a great fancy to the young New Yorker, and who apparently loved to listen to the inspector's stories of how he "won three hundred on Roseben' and other profitable operations against the ring, told him he ought to invest some of his winnings in a piece of land near the mill, build a cottage and bring his family up there for the summer. The New Yorker looked at him in silence for a minute. Then he ejected a long stream of tobacco juice and ejaculated slowly, "What, build a house here! Say, when I build a cottage it'll be at Coney, and it won't be far from the track. That's as straight a tip as you'll over met '

Learn science of smiling.

To the woman who wishes to make her path through life an easy and agreeable one, the science of smiling is a most necessary study. Like acting, or art, or engineering, it is a thing in which only practice can make one perfect. A little theory may go a long way, but it is enough to remember these two rules: First, the honey of a smile catches more hearts than the vinegar of a frown or the peppet of a sneer; second, it is not the me chanical beauty but the significance of the smile that is attractive .- Exchange.

"GOLD GOLD."

"Good," He Says, "But Comfort Bet ter."

"Food that fits is better than a gold

m/ne," says a grateful man. "Before I commenced to use Grape Nuts food no man on earth ever had worse infliction from catarrh of the

stomach than I had for years. "I could eat nothing but the very lightest food and even that gave me

great distress. "I went through the catalogue of prepared foods but found them all (except Grape-Nuts) more or less inigestible, generating gas in the st ch (which in turn produced headache and various other pains and aches) and otherwise unavailable for

"Grape-Nuts food I have to easily digested and assimilated, it has renewed my health and and made me a well man again, catarrh of the stomach has beared entirely with all its att flis, thanks to Grape-Nuts, which me is my almost sole food. I want

rial tells the
