

STOP! WOMEN, AND CONSIDER THE ALL-IMPORTANT FACT

That in addressing Mrs. Pinkham you are confiding your private ills to a woman—a woman whose experience with woman's diseases covers a great many years. You can talk freely to a woman when it is revolting to relate your private troubles to a man—besides a man does not understand—simply because he is a man.

Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probably examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman whose knowledge from actual experience is great.

Mrs. Pinkham's Standing Invitation:

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken. Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.—Lydia E. Pinkham Medicine Co., Lynn, Mass.

Following we publish two letters from a woman who accepted this invitation. Note the result.

First letter.

"Dear Mrs. Pinkham—I suffered something terrible every month with my periods. The pains are excruciating and I can hardly stand them. My doctor says I have ovarian and womb trouble, and I must go through an operation if I want to get well. I do not want to submit to it if I can possibly help it. Please tell me what to do. I hope you can relieve me."—Mrs. Mary Dimmick, 50th and E. Capitol Sts., Benning P. O., Washington, D. C. Second letter.

"Dear Mrs. Pinkham:—After following carefully your advice, and taking Lydia E. Pinkham's Vegetable Compound, I am very anxious to send you my testimonial, that others may know their value and what you have done for me."

"As you know, I wrote you that my doctor said I must have an operation or I could not live. I then wrote you, telling you my ailments. I followed your advice and am entirely well. I can walk miles without an ache or a pain, and I owe my life to you and to Lydia E. Pinkham's Vegetable Compound. I wish every suffering woman would read this testimonial and realize the value of writing to you and your remedy."—Mrs. Mary Dimmick, 50th and E. Capitol Streets, Benning P. O., Washington, D. C.

When a medicine has been successful in restoring to health so many women whose testimony is so unquestionable, you cannot well say, without trying it, "I do not believe it will help me." If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn, Mass., for special advice—it is free and always helpful.

CLASH BETWEEN TROOPS AND EXCITED POPULACE

Reds Continue to Preach Revolution, and Newspapers Are Inciting the People of Russia to Armed Rebellion.

St. Petersburg.—The single telephone wire working to Moscow Thursday afternoon brought grave reports of serious disorders and collisions between the troops and the populace.

The Narshadny, formerly the Synolchestsya, and other secretly published papers, which are being distributed by the thousands to the workmen, are filled with the most inflammatory appeals, inciting the people to an armed rebellion. Many of the articles are especially directed to the army, which is implored not to shed the blood of the nation. One writer, addressing the soldiers, said:

"Join us. Rise with us. No power can stand against the people and army united."

It is significant that the workmen in the mills and factories have for more than a week been presenting demands that the priests discontinue the usual prayers for the emperor, with the alternative of being boycotted if they do not cease so doing.

Moscow is already cut off from St. Petersburg, and with the provinces generally there is no communication. According to the latest information the Lithuanian insurrection has extended into the province of Vitebsk, across the border of Livonia. At Kokunhusen the chief of police and his assistants were tried by a revolutionary tribunal and executed.

It turns out that Tukum, in Courland, only surrendered after a severe fight, which lasted for twelve hours. The insurrectionists had fortified the town by throwing up intrenchments, before which they dug pits. They also had in position the machine guns recently captured by them. The trenches were taken by storm, both sides losing heavily.

The latest information from Kharhoff says that 10,000 revolutionaries are under arms, and troops are being concentrated for the purpose of recapturing the city.

CHINESE CRUELTY TO SLAVES.

Property of Housewives, Girls Are Harshly Dealt With.

Says an editorial in the Pekin Times: "The position of the slave girl in Chinese homes is a very hard one as a rule. These slaves are generally the property of the wife and no one interferes with the mistress in her treatment of the poor little things, who will as often as not be subjected to the most savage cruelty for most venial offenses. A few weeks ago we recall a case of great hardship being brought into the mixed court, Shanghai, in which a small slave girl had been gagged with a piece of iron and severely beaten because, when half-starved, she helped herself to some scraps of food.

"Our attention has now been called to piercing cries which emanate from a house near Canton road and are said to proceed from a little slave girl who for some reason is beaten almost daily with a thick knotted rope, but for what reason is unknown.

"Our informant thinks a word in public showing that the incident has been noticed may suffice to check the cruelty without lodging a formal complaint with the municipal police, which might make matters worse for the poor little sufferer in the long run."

Verbal Specialization.

"Opera" is a case of verbal specialization. Yet the Latin word meant originally nothing more definite than "work." The specialization, however, was thorough even in the time of Dryden, who defined an opera as "a poetical tale or fiction, represented by verbal and instrumental music, adorned with scenes, machines and dancing." But the specialization is scarcely more remarkable than that of "drama," which means just "deed," "action," or of "poet," which is simply "maker."

Convention of Pipe Smokers.

At a convention of pipe smokers, held in Brussels the other day, the president, M. Kos, informed his hearers that it took him three hours and seven minutes to get through one pipe. A pipe, he said, would outlast three hours if filled in a particular way—loose at the bottom, firmly in the middle, and again loosely at the top. "Further," said he, "you must give up your whole mind to the process. Patience and determination make the true smoker."

She charges in classes twenty dollars for a course of twenty-five lectures, and for private instructions one dollar an hour.—Myerson's American Family Magazine.

Ever Hear of "Scotty" and His Record-Breaking Ride?

The story, briefly told, is this: Walter Scott, the Death Valley gold miner, made the trip from Los Angeles to Chicago last summer on a special train over the "Santa Fe" in less than 45 hours. That whirlwind train cost him more than \$6,000. It was the fastest long distance run over mountains and plains ever made on any American railway. It demonstrated beyond dispute that the Santa Fe track, equipment and employees are of the dependable kind. Probably you wouldn't care to ride so fast. You prefer the luxury of our three trains from Utah and Colorado to Everywhere East and Southwest. Ask me for ticket rates and literature.

"Hello!"

The telephone girl and the bill clerk to whom she had promised her heart and hand were sitting in front of the fireplace talking about the happy days to come when they should be one, says the Great Bend Register. From one little detail to another the talk finally drifted to the subject of lighting fires in the morning. He stated that it was his emphatic opinion that it was a wife's place to get up and start the fires and let her hard-working husband rest. After this declaration there was silence for about the space of three-quarters of a second. Then the telephone girl thrust out the finger encircled by her engagement ring and murmured sweetly, but firmly: "Ring off, please; you've got connected with the wrong number."

THE PURSUIT OF PERFECTION.

Men of Culture True Apostles of Equality, Says Matthew Arnold.

The pursuit of perfection, then, is the pursuit of sweetness and light. He who works for sweetness and light, works to make reason and the will of God prevail. He who works for machinery, he who works for hatred, works only for confusion. Culture looks beyond machinery; culture hates hatred; culture has one great passion, for sweetness and light, and one even yet greater, the passion for making them prevail. It seeks to do away with classes; to make the best that has been known and taught in the world current everywhere; to make all men live in an atmosphere of sweetness and light where they may use ideas, as it uses them itself freely—nourished, and not bound by them. This is the social idea, and the men of culture are the true apostles of equality.—Matthew Arnold.
