

NOTES AND PERSONALS

H. C. Catlin is on a trip to Los Angeles.

C. P. Ball is one of Lincoln county's sturdiest citizens.

Sam Michaels bemoans a pet dog. The poisoner was abroad.

Judge Hopkins is favorably mentioned for justice of the peace.

DEMOCRATS REGISTER. JUDGE RALPH IS REGISTRY AGENT.

Terence Johnson, who has been away on vacation, has returned to duty.

Col. Towne is in Potosi mountains directing work on some of his mining property.

Mr. and Mrs. Fred H. Collins took their departure for Los Angeles during the week.

Engineer Clark, who has been on vacation, has returned and resumed his old run.

Fireman Lindsay is on a pleasure jaunt. He will be back at his post in the near future.

GET IN LINE AND REGISTER. DEMOCRATS, JUDGE RALPH WILL REGISTER YOU.

William Burkhardt holds that his Jeff Davis will prove the great claim of the Railroad Pass section.

T. L. Smith, one of Vegas' well-known citizens, is busy these days at his trade—that of carpentering.

Doctor Martin is sealing the eminence of professional success. The doctor is a competent physician.

Conductor W. J. Cahill is again off duty, this time having gone to Los Angeles to have some dental work done.

Even Ed T. Maxwell, the rustler, feels the inspiration of all is well. Ed has fine mining property in the Potosi range.

Mrs. M. C. Thomas, one of the most esteemed ladies of Las Vegas, is on a sojourn to the sea side resorts of California.

Conductor Tooley is taking a vacation. His destination, the mountains. Form of recuperation, hunting and fishing.

B. F. Baggs, notwithstanding the great heat, is out in the hills near Railroad Pass, sinking a shaft on his mining claim.

Geo. Garwood of the Rainbow restaurant, had a good Republican feast along the Muddy valley during the past week.

I. Johnson, the ice man, in these warm days, is recognized every morning as a most welcome visitor by all the Vegasans.

P. J. Sullivan has the ensign of being a wheelhorse in the vineyard of Democracy. He is a lofty example of the untortured.

Mrs. Renshaw, one of the estimable ladies of Las Vegas, was on the sick list. Her many friends rejoice at her convalescence.

Ties for L. V. & T. are coming forward slowly on account of sailor's strike on Pacific coast, but work is steadily progressing.

A coal divider is being erected by the railroad company. It will be a labor saver. Mr. Woods of Los Angeles has charge of the work.

Superintendent Grace made an inspection trip over the line of L. V. & T. branch Saturday, and reports everything in excellent shape.

Tom Brown says he will be off for the hills again. He vows if he ever finds out who poisoned his burro that he will make it hot for him.

Jim Pierce, the owner of good gold property in the Vincent district, is in town. Jim reports things looking mighty good in that section.

The Lincoln County Lumber company are shipping men frequently to their camp near Owens, and expect to start shipping lumber soon.

Col. Towne, a veteran of the Nevada mining events, is becoming largely identified with mining interests in Potosi and Charleston range.

F. Allinger, the new round-house foreman, has added to his force a clerk, Charles Grimes, formerly of the Las Vegas & Tonopah service.

Ed Von Tobel, the well-known lumber merchant, is on a trip to the old folks at home at Fairburg, Indiana. Ed. will also do Chicago for pleasure.

Joe Evans, the lordly young master of good claims in the Vincent district, near Quo Vadis group, is making the Vegas his headquarters for the present.

Dick Busted seems to be getting the principal legal practice at this end of the county. Dick is well versed in the law, and as bright as they make him.

Fred Fulton, is one of those cordial fellow that everyone likes. The railroad is fortunate in having so clever and competent a representation at this place.

Hank Farrell bears with dignity the title of assistant Republican boss in the Vegas. But what a straggling of feathers Hank will have the day after

election—particularly when he commences his march along the Salt River route.

I. Thompson of the railroad store department, has a new assistant. Thompson, as a consequence, enjoys more of the gaities of life as says there is nothing like it.

With Charley Squires, Chris Brown, and Walter Bracken leading the Republican forces in this neck of the woods, the Democrats will have a fight on their hands.

Grant Brown has all the evidence of being a good, earnest Democrat. To be a Democrat is to be a proud citizen of a Democratic republic. Grant is with the good citizens.

It is the supposition that the Hon. Richard Busted will make the race for county attorney this fall. Dick possesses the requisites to do the work required efficiently.

George Farris, a popular brakeman of the West End, is taking a fifteen days' vacation, expecting his wife's return from Idaho. Recuperation for such an event is laudable.

Proctor Smith, the big, tall hickory of Las Vegas, has all the qualities that makes him a worthy exponent of the famous Hickory Jackson, one of the patron saints of Democracy.

George Frait, who has such promising zinc, lead and gold properties north of the Potosi range, has been in Vegas equipping for larger and more extensive work on his property.

Mr. and Mrs. Lloyd Smith are summing at Salt Lake. They are enjoying the pleasures of the city of Saints and the briny lake. They are expected to return in three or four weeks.

C. C. Chamberlain, the well-known architect and builder, is back from a vacation trip through the Sound country. He reports having had a delightful time and all as prosperity North's way.

A. L. Measels, formerly of Otis, has relieved Tom Morrissy as foreman of the car department at Vegas, being longer in service. Measels is well known and well liked by the west end boys.

Burros are so scarce a commodity that people are off from Vegas to Mexico and Arizona, in an effort to ship them in here by the carload. For once the long-eared jack leads the list of prize animals.

James Hill, formerly of the coal hoist, has accepted the position of roundhouse hostler. Jim being an old and experienced hand, will be able to provide and care for the iron horses without any trouble.

Geo. Garwood, the popular restaurateur, is on the sick list. George is both a good citizen and a good fellow. It is hoped by his many friends that nothing serious will result from his present ailment.

J. H. Andross, the popular foreman of the freight depot, is kept busy these days with a score of assistants handling commodities for the Bullfrogway. Andross is the fellow who can do it too, for he knows his business.

Jack Sumner, the Mountain Springs Copper King, was in town Saturday. Jack says that Democracy and copper goes hand in hand, and that the Mountain Springs district will produce both products in good quantities in the near future.

Tom Drew, a mine operator from Goldfield and at one time owner of the Liberty mines of Tonopah, has been with the Vegas people for the past ten days. Mr. Drew has property holdings in the Greenwater belt and, from a mining view, has a cinch.

Thomas Morrissy, the genial and clever friend of the railroad boys, has been indisposed with a slight cold. Tom is going to be well, for he says: "I will be strictly in the struggle to make the Democrats win this fall." There are no files on Tom.

Frank M. Grace is in the harness, not only as a railroad factor in Nevada but is one of those splendid examples of Democracy that conveys victory for the historic party—a party whose life is interwoven with what is best in our country's welfare.

A slogan—Democrats, get together. Judge Ralph is the registry agent for this district. You Democrats go and see him, and see to it that your name is entered so you can vote and help put a quietus on Republican misrepresentation and false pretense.

Hon. Frank Mannix, a leader of Nevada's progress and publisher of the live Bullfrog Miner, was a guest with Mrs. Mannix and children at the Palace Hotel Saturday. The Mannixes were on their return from a summer's outing at the sea shore, en route to Bullfrog.

Col. James Brown, newspaper force, prospector and miner, is on to Furnace Creek. From time to time the Times will present his impressions and sage deductions as to the wealth producing features of this new found mining district. And next on the tapis will be the Furnace Creek Times.

Passenger business on the Bullfrog branch is steadily increasing. A large number going into the Funeral Range

and many more toward the Bullfrog country. What is true of passenger motion applies equally to the increased freight traffic for these sections. Mining machinery and supplies are the order of the day.

T. L. Bright, the young man who discovered Lyons camp and disposed of a property for \$50,000 to the Gregg Investment company of Denver was a visitor at Vegas Saturday, where he outfitted for another campaign in the mountains. He has a new find and prophesies that it will be the greatest of them.

Don Catlin bewails the misfortune of his pet dog Skiddoo. Some miscreant, between the hour of 4 and 6 in the morning, penetrated the Catlin yard and gave Skiddoo a dose of poison.

Don worked with the poor animal, injecting antidotes until Skiddoo was relieved some. But what a fiend the Vegas dog poisoner must be. No punishment would be too severe for him.

W. A. Wash, who was formerly in charge of the telegraph department, is back with us again, after an absence of some time at Los Angeles. This time he returned with a better half and now resides on Second street. His return connection is with the Las Vegas and Tonopah railroad. His efficiency and ability as a railroad man is so strong that his very merit places him in charge of one branch of the Nevada railway system. There are none better or more genial than our friend Wash, and all of us are delighted that he is with us again.

**A Good Buy. Get in Early.
Mines in Vincent Mining District.**

**GREAT CHANCE FOR GAIN Capital Stock 2,000,000 Shares
SMALL CHANCE FOR LOSS Treasury Stock 1,300,000 Shares**

**All Stock Outside of Treasury Reserve Pooled with First State Bank of Las Vegas,
Messrs. Phillips and McKinnie, the Purchasers of the Quo Vadis Group, the hand-maid of the Golden Triangle, are
Sacking Rich Ore Right from the Surface.**

Secure stock now at 10 cents a share. Make application through Secretary or President John S. Park, Cashier First National Bank, is custodian of stock books. He will issue certificates.

You will make a mistake if you wait until the ground floor gates are closed for the purchase of Golden Triangle Mining and Development Company's stock. Register your orders at once with any of the officers mentioned.

Mark the prediction, stock will double in price in the next sixty days.

The Golden Triangle presents all the features that indicates a great mine.

The official roster of the company assures sound, honest management. Successful and profitable mining exists this.

The company owns, free of debt, eight quartz claims, located in the heart of the richest and best mineralized district in the world. It owns the Kuhn Flacer, the best adapted situation for a townsite in the Vincent Mining District.

The quartz claims are traversed by numerous well defined large mineralized leads. One of these leads is traceable from the famous Quo Vadis upon which such enormous values are found—values from \$500 to \$35,000 per ton.

The location and surface values in themselves are an asset of great value.

The predominant values are gold—gold mining has become a strictly business proposition, there are less failures and better returns for capital invested in gold mines than in any other business.

What the Gold Bar at Bullfrog or the Mohawk at Goldfield is doing for original investors—making them a life competence out of a small investment. The Golden Triangle may do for you if you are wise enough to grapple the ground floor opportunity to secure a block of its stock at a cheap price. Remember it will not be long when the last call on first allotment of Treasury stock will be made. Now is the accepted time. Secure a block of this original allotment.

20 PER CENT CASH AND 20 PER CENT PER MONTH for five months will secure you your stock free from all liabilities and non-assessable. Any stock ordered or purchased upon this basis will remain in the custody of the First State Bank of Las Vegas until fully paid, when it will without any strings to it, become the possession of the purchaser.

Sixty-five per cent of the stock is in the treasury; the net proceeds from the sale of this stock will be applied in an economical manner for equipment and development purposes.

Many fortunes have been acquired from investments in gold mining stocks. Nevada is full of such examples. Cut the melon and embrace what may be the chance of a life time. The Golden Triangle is a gold proposition.

Don't wait. If you do it will cost you a higher price.

A few hundred or a thousand invested in Golden Triangle may make you an independent competence for life.

Granite Mountain Mining Company's stock sold originally for 10 cents a share, later it brought \$55 per share.

Mollie Gibson sold originally for 10 cents a share; it went to \$13 a share. There are many others just like it.

Quincy and Tauramuk pays a dividend annually of \$6,000 on 1,000 shares.

Calumet & Hecla returns \$33,000 annually on 1,000 shares. Follow these with the Comstock, Le Roi, United Verde, Anaconda, Republic, the mines of Arizona, Montana, Idaho, Washington, Colorado, Dakota, California and what an array of fortune makers will be uncovered for small investments. Be with the forelock. Grasp the opportunity to invest in Golden Triangle stock while the great value of the property is undetermined.

More money is made in mining and less lost than in real estate or commercial lines. If you are not situated to make a payment in full for the amount of stock you would like to have in the Golden Triangle M. & D. Co., of Las Vegas, take advantage of the 20 per cent offer and secure it and make full payment in five monthly installments.

Golden Triangle is bound to be a good thing. Get in line and enjoy the good thing in store for its patrons and investors.

Main office at Las Vegas, Nevada. Write to the secretary for information.
