#### • FILCHING

The newspapers of Nevada have a habit of publishing items from their Process exchanges without giving credit. These items pass from one sheet to another, until some editor, more conscientious than the rest, gives credit to the paper in which he happens to find the item.

As a result of this process one of the process editors of The Age recently clipped and published an item credited to an up-State paper, that had been written by his assistant editor and originally published in this paper. Play fair, boys, and give your hard-working brethren credit for the grist that is worth grinding.

#### DON'T FIGHT BOYS

The De Lamar Lode says: The Pioche Record of last week is seeking consolation in losing the county printing in the fact that Commissioner Nesbitt was absent. Bittle satisfaction that affords the Record, for had Mr. Nesbitt been present the Lode would have been awarded the contract.

Don't fight boys. The Age got it and that should end it.

#### STATE NEWS

The last payment of \$6500 on the Big Indian mines near Hawthorne has been made and development work will be commenced on an extensive scale.

The Reno Journal's volcano story has been knocked into a cocked hat by the investigations of Prof. Edward Larkin, who has decided that it is nothing more than a crack in the earth which, by reason of the hot weather, is emitting sulphuric fumes .- Review.

For the past quarter Nye county has turned in to the state treasury \$20,331 bullion tax.

Lincoln county now has a population of 4775 people, against 400 two or three years ago. Old Lincoln will be all right yet, says the Goldfield Review.

Broad guage trains are now running into Tonopah over the new S. P. cutoff ON SALE from Hawthorne. The first through train from San Francisco leaves the latter city on the evening of August 31st and arrives in Tonopah about six o'clock the following afternoon

Ore shipments from Tonopah via the Tonopah railroad for the week ending August 26, amounted to 2085 tons, from ten different companies.

Three hiles west of Good Springs is each year signated the Columbia, Copper Mine, awned by S. C. Yount, H. White and Mr. Aale. About 1500 feet of development work have been done, and on the dump are 1000 tons of ore which will yield 15 per cent copper. With better NEVADA transportation facilities and modera show good returns.

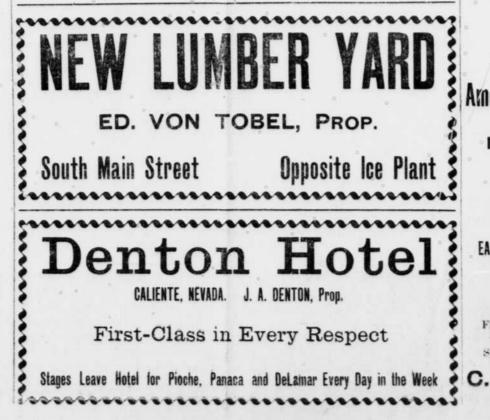

#### RED CLOUD MINE

Three miles northwest of Good Springs is located the Red Cloud mine, owned by Chas. F. Bryam. J. D. Loop and J. C. Armstrong. The shaft is down 225 feet on a ledge thirteen feet wide, which averages \$16 per ton in gold." A gashconstructed at the mine. Water is hauled to the mine from Good Springs.

## UNJUST ATTACK

### Plain Statements by a Citizen of Pioche

Editor Age: In a recent issue of the De Lamar Lode there appears an un-LAS VEGAS called for attack on the district attorney of this county, the result of having lost that beautiful plum, the county printing, which was given to The Age by the commissioners at their meeting on July 7. Now? both the Record and Lode come out with insulting slurs at the district attorney and The Age and are making, the howl that things would have been different had Nesbitt been present, and further that The Age has no office at Las Negas-which is false to begin with, as The Age has as fine a printing plant as there is in the county today-and further that the taking of the county printing from the Record and giving it to The Age is a fraud and illegal-which is also false. Had James Nesbitt been present the awarding of the county printing to The Age would have resulted just the same, as a majority always rules and Mr. Nesbitt is to be relied upon as an honest upright man. And where can be found two better men than Gordon and Baldwin in their respected positions.

We now ask the Record man to state to the people of this county why he permitted The Age to under bid him when he was present during the meeting of the board on July 7-why did he not make his howl then before the commissioners, instead of after?

As for the district attorney, he doesn't claim to be the brightest man on earth, as some of the officials do, but he does intend to expose every official who has failed to do his duty according to law, and beginning next week will publish a few exposes taken from the county records which show for themselves and cannot be denied by those accused.

In conclusion I wish to state that outside of Pioche and DeLamar but little or no attention is paid to the Record or Lode, as virtually they are one, and everybody knows it. Therefore, anything published against Attorney Sanders recives but little if any considera-tion from the business men of Lincoln county. Even DeLamar will uphold At-torney Sanders in his exposure of those who have tried to rob the county of its Respectfully. rights. A Critzen.

Pioche, Nevada, August 25, 1905.
