

DIAMOND INDUSTRY IS IMMENSE

Nearly All the Precious Stones in the World Are Cut in Amsterdam.

In a recent report to the Department of Commerce, United States Commission of Commerce, Amsterdam, Holland, giving some interesting information concerning the diamond industry of that city. When diamonds are taken from the mines they are only transparent pebbles, needing to be cut and polished before they can be used for jewelry. According to Consul Hill, although the diamond industry is prospering in Antwerp and since 1893 has taken root in New York also, Amsterdam is far and away the greatest diamond mart in the world, and nearly all the rough diamonds brought there all the rough diamonds brought there to be split, polished and cut are of South African origin, although stones from Brazil, British Guiana, Australia and Borneo are handled.

Louis Tas, one of the best known diamond brokers, estimates the output of the De Beers African mines annually at \$3,000,000 (\$14,599,500) and of other mines at \$1,000,000 (\$4,806,000). Add to this the cost of labor, the profits of the London syndicate, etc., and he thinks that the annual output of diamonds is worth about \$7,000,000 (\$34,065,500).

Mr. Tas places the output of the De Beers company much too low, as the last statement shows that the output was 55,000,000 (\$24,332,500) for the year ended June 30, 1903. Gardner Williams, of that company, is authority for the statement that all other mines produce but 5 per cent annually of the amount of the De Beers product. The same authority states that the output of the De Beers mines for the eleven years ended June 30, 1890, was 24,476,000 carats, showing an annual product of more than 2,200,000 carats.

Mr. Kuenz, another expert, estimates that the South African mines have added \$100,000,000 worth of diamonds to the world's supply, of which not 5 per cent are lost in a hundred years, so that practically the entire world's production in all time is now in existence.

Mr. Tas gives the leading countries of consumption in the following order: United States, Russia, France and England. Mr. Williams ranges countries of importation from South Africa thus: United States, England, Germany, France and Italy.

The United States cuts no figure at all as a producer of precious stones, the total annual output being less than \$200,000, five-sixths of which are sapphires and turquoises, but stands first as the destination of these gems. The enormous private fortunes of the Americans will finally result in building a great diamond mart in this country. The time will come when private collections will far outstrip in splendor and richness the crown jewels of European kingdoms.

The export of diamonds to the United States in 1862 amounted to only \$200; in 1863, \$4,971.84; in 1864, \$1,680.80; in 1872, \$320—all Brazilian stones. In 1874 Cape of Good Hope diamonds on the list of exports, and amounted in that year to \$32,739.90. From 1882 on the exports of diamonds to the United States attain prominence.

Well Parried.

"What passed between yourself and the complainant?" inquired the magistrate in a county court. "I think, sor," replied the worthy Mr. O'Brien, "a half dozen bricks and a lump of paving stone." In "Irish Life and Humor" Mr. William Harvey gives another anecdote of the Irishman's readiness in the court of law.

"Now, Pat," said a magistrate to an old offender, "what brought you here again?"

"Two policemen, sor," was the laconic reply.

"Drunk, I suppose?" queried the magistrate.

"Yes, sor," said Pat, "both av thim."

Work.

"Mister," said Plodding Pete, "I've talked for five minutes tryin' to tell you a hard luck story that would win a dime."

"You have."

"An' if I kin hold yer interest, I'm liable to keep on talkin' an' den may be that's quite true."

"Well, mister, ain't dat work?"—Washington Star.

Canadian Gretna Green.

Some people suppose that Gretna Green is no longer in existence. It has simply changed its latitude and longitude. Its name is now Windsor, and it is a Canadian town in the Province of Ontario, close to the United States border. It was recently stated in the provincial legislature of Ontario that no fewer than 800 marriages were celebrated in Windsor during the last year. The great majority of the happy couples had hastily crossed the border from the adjoining republic.—London (England) Tit-Bits.

Wanted Information.

Old Parson Blackberry arose in his pulpit and with much fervor shouted: "All bruddahs en sistahs dat wants to go to Elysian fields lift up their hands."

From behind the rusty stove came a squeaky voice:

"Befo' I answah dat question, pahson, Ah wants to know if deh am any plowin' to be done in dem fields. Kase if deh am, Ah'd rudder take mah chances down heah when Ah know de mules."
