## SALE CONFIRMED

The Salt Lake Tribune of Feb. 21st contains an interview in which Malcolm L. Macdonald and Don B. Gillies confirm the sale of the Montgomery-Shoshone mine, at Beatty, to Chas. M. Schwab. Macdonald and Gillies are interested in the great mine and know the facts. They also state that a 500stamp mill will be built at Beatty. where water is plenty, to treat the Shoshone ore.

### AT INDIAN CREEK Las Vegas & Tonopah Establishes Station There

Monday last, President J. Ross Clark, Supt. T. B. Cullen, of the Salt Lake, Supt. F. M. Grace, of the new line, and Walter R. Bracken passed over the Los Vegas & Tonopah in the first coach LoT for sale on Wilson avenue, Rag-town, for balf its cost. Enquire at this 1000 feet; the elevation here 2000 feet. to teach within two miles of Indian Creek.

On the Saturday previous two miles of track had been laid. The line has now reached Indian Creek, and a station and Y are being built to accommodate freight and passenger business.

The graders are camped along the right-of-way to Beatty and the tracklavers are laying steel beyond Indian Creek

When the new line reaches a point 30 miles beyond Indian Springs another freight station will be established to shorten the freight haul to the mining diffities.

Telegraph poles and wires are following the new line closely and we shall soon have direct communication with & Wards. the mining camps.

Now that the Salt Lake railroad is completed to Indian Creek, who will be first to send drilling tools in to the oil region

Another strike is reported at Indian Creek. The completion of the railroad which runs stringers of gold-bearing an abundance of water. will make it easier to prospect that quartz. It averages over \$50. Another grospect is almost pure galena. country.

If you try one pound of Hazelnut butter von will always ask for it. Fallas has it.
