Two Years	\$1.80
Three Years	\$2.00

RELIGIOUS WORK

The Sunday school will be at 10:30 a.m. The school is well officered and supplied with good literature, and is growing in attendance and interest.

Preaching at the school house next Sunday evening at 8 o'clock.

Mr. F. J. O'Kelly was in Las Vegas and displayed his moving pictures on Saturday and Monday nights and spoke to the pastor on Sunday evening. His lectures and pictures were attended with pleasure and profit by many, and he will be heartily welcomed by the good people whenever he can visit us again.

GIBRALTAR MINE

Mr. Laughlin, who, in partnership with Mr. Dwight of Los Angeles, is building a mill in the Bullfrog district, reports that a rich vein has been struck in the Gibraltar mine which assays high up in the thousands.

J. F. Miller, of the Hotel Nevada, has returned from a business trip to California.

Passengers over the Salt Lake railroad should arrange for a stop-over at Las Vegas.

A substantial cement sidewalk is being built around the First State Bank and Postoffice.

The dance at Aptin's hall on the evening of Washington's birthday was well attended.

Some of the political grafters are anxious for the campaign to open so they can pull legs.

The Tennis club will give a ball Wednesday evening, Feb. 28th. Good money; everybody invited.

The Misses Gibson entertained some friends last Friday evening at their residence on Fremont street.

A. D. Bishop and others have a very promising gold and copper prospect 22 miles southeast of Las Vegas.

E. D. Turner has been re-appointed postmaster at Delamar, which office has been advanced to the third class.

Some of the boys enjoyed a ten round boxing match Tuesday evening at Hawkins' hall between two sports. Nobody lost.

C. N. Brown, C. P. Squires, Deputy Sheriff Murphy and others have gone forty miles west to look at a lead mine in the Charleston range.

L. A. Adams writes from Randsburg wanting to know the chance for a restaurant in Las Vegas. The fourteen already here may write him.

Travel through Las Vegas will increase as the Salt Lake branch extends into Bullfrog mining district. The rail trip will cut out the autos from Goldfield.

Arrangements have been made with the water company whereby a special fire plug will be located in the alley behind the store buildings of Fallon, Hawkins and the Red Cross drug store. It will be equipped with good hose.

T. E. Edwards, well known mining speculator, called on friends in Las Vegas recently on his way to Beatty. He had been to Searchlight, inspecting property. One year ago Edwards sold his half interest in the Montgomery-Shoshone mine at Beatty for \$100,000. Last week a half interest in the same mine sold to Chas. M. Schwab for \$100,000.

RAILROAD CHANGES

F. G. Fulton, of San Bernardino has taken the place of O. L. Deffman as agent of the Salt Lake & San Pedro. Deffman has gone to San Pedro.

Harry B. Nathlett of Omaha, has received Nat F. Dibble in the express office. Dibble has gone to Omaha on a visit, and some say he will return double.

COURT AT PIOCHE

Eugene Goodrich, clerk of the court, sends the following:

A session of the district court for Lincoln county will begin on Tuesday, March 6th, at 10 a.m., and the calendar called and the cases set that day, Civil cases to be tried without a jury must be ready for trial on March 12th, the jury cases on March 19th.

COLORADO RIVER MINES

The Salt Lake Tribune says: Senator Thomas Stearns and Mr. Keith are looking over promising mineral districts in Lincoln county. Mr. Keith stated that he and the senator had recently driven over to the Colorado river country, and as a result of the visit he is greatly impressed with the showing.

Within 50 miles of Moapa where at the present time these gentlemen have a party in the field, Messrs. Keith and Kearns inspected a copper prospect that gives promise of becoming a remarkable property with development. In addition to the copper contents the ore carries encouraging values in gold and silver.

MONTGOMERY HOTEL

The Montgomery hotel at Beatty is the finest hotel on the desert—one of the Casey & Arden palaces. Therelets can find the comforts of the city at the Montgomery.

SOME SNOW

The summit of the Sierra West of Reno has the distinction of registering the heaviest average fall of snow during the past eighteen years on the summit. The amount has been 31.5.

GOOD SPRINGS

Talk of a Smelter and a Big Townsite Boom

The old reliable L. A. Examiner says there are 500 people at Good Springs and six months will see a city of 5000 there.

C. H. Raymond of the new company is quoted as saying work on street, the electric light and power plant, and the water plant has begun already, so we firmly believe that in a few months we will have there the first city of the desert.

We have today signed orders for two smelters, one lead and one copper jacket, each of seventy-five tons daily capacity. We will, however, install a plant that will be able to take care of 500 tons daily as soon as additional jackets are required. From the forty odd mines now producing we have contracts for all the smelting that we can do, and we will probably at once or soon increase our capacity.

(Special Correspondence)

Good Springs, Feb. 20, 1906.

EDITOR THE AGE.—Beautiful weather; camp full of strangers and hills alive with prospectors.

Sam Yount is suffering with an attack of la grippe.

Capt. Hardy is busy with location work at recent discoveries.

Harvey Hardy, Jr., superintendent of the Columbia mine, is in camp today looking for miners.

A. E. Thomas has returned from Searchlight.

W. H. Wilson, general manager of the Good Springs Smelting and Development Co., is in camp with a force of men replatting the townsite and laying out the location for the smelter, and before many days active operations will be begun on the construction of the plant.

Charles H. Schue, of Salt Lake City, has purchased the Root property at Bonanza Hill and has a force of men at work developing the same. Mr. Schue was very favorably impressed with the showings and will return soon for a more extensive investigation.

J. F. Kent has the distinction of owning a mine without a waste dump. I doubt if even "The camp without a failure" can show its equal—and there are others.

Mrs. Chas. H. McCarthy, of Boston, has joined her husband who is chief engineer of the Smelter company.

Good Springs, with her unexcelled climate, abundant supply of pure water and proximity to the best mines in the State, is a grand place for a sanatorium. But there is one drawback—all the invalids will have to be imported, for but a short stay here will restore health to all who may come.

Watch the fulfillment of our prophecy of a year ago that Yellow Pine would lead all districts in the State; and now watch as grows.

Will Stewart, returning from a visit to Good Springs, says it is too early to predict what will be done there.

OLD FORT

The government built the old fort near the spring, two miles west of Vegas, and the Mormons planted the cottonwood trees there in 1856. The date has crumbled to decay, but the trees live to bless the country.

PIOCHE

NOTICE—We hereby certify that we supply J. O. McIntosh, of the Arizona Club, Las Vegas, Nevada, with our Tom Moore "Old Possum Hollow" puff tire whiskey, direct from our Government distilled distillery warehouse, and that up to the present date his purchases have been of the very oldest goods to be had in bond.

FORT CALLVILLE

Mrs. Helen J. Stewart says old Fort Calville on the Colorado river, northeast of Las Vegas, was built by the Mormons in 1856. Bishop Anson Call was in charge of the work and the fort was therefore called Calville. Supplies were brought up the Colorado river from the gulf by small steamers. Navigation was rough and uncertain because of the rocks and rapids.

WATER CONTEST

Nearly all the water in the Bullfrog mining district is found in the Amargosa river, which flows through Beatty or in springs adjacent. Several companies have piped water from the river valley and there are several contests on for water rights.

FORT CALLVILLE

The president's daughter, Alice, was married at Washington last Saturday to Congressman Nicholas Longworth of Ohio. The Episcopal bishop performed the ceremony and sweet Alice said she would "obey" in distinct tones.

WILL "OBEY"
