A good runner is not one who is constantly running into debt and running Monitor with Gan.

One of our public school teachers relates a very amusing incident that occurred recently in one of our wellknown schools in the center of the city. It seems that for several days the pupils had been unusually prompt in returning after recess. No boy was late or tardy, and, in fact, the boys were as good as though Christmas were only a few days off. The principal was congratulating herself upon having the best school in the city. when one day the mother of one of the scholars complained to the principal that the monitor of the class was terrorizing the pupils with a pistol and frightening them nearly to death. The principal thereupon investigated the matter and found that the monitor had gained possession of his father's revolver, and, in true Western style, "held up" the boys and compelled them to fall in line and do as he commanded. While he did it with good intent and with a sincere desire to help his teacher, yet she was sorrowfully compelled to censure the boy and discipline him for his conduct .-Chicago Inter Ocean.

HIGH CLASS DRUGGISTS

The better class of druggists, everywhere, are men of scientific attainments and high integrity,

who devote their lives to the welfare of their fellow men in supplying the best of remedies and

purest medicinal agents of known value, in accordance with physicians' prescriptions and

scientific formula. Druggists of the better class manufacture many excellent remedies, but

always under original or officinal names and they never sell false brands, or imitation medicines.

They are the men to deal with when in need of anything in their line, which usually includes

all standard remedies and corresponding adjuncts of a first-class pharmacy and the finest and

best of toilet articles and preparations and many useful accessories and remedial appliances.

The earning of a fair living, with the satisfaction which arises from a knowledge of the benefits

conferred upon their patrons and assistance to the medical profession, is usually their greatest

reward for long years of study and many hours of daily toil. They all know that Syrup of

Figs is an excellent laxative remedy and that it gives universal satisfaction, and therefore they

are selling many millions of bottles annually to the well informed purchasers of the choicest

remedies, and they always take pleasure in handing out the genuine article bearing the full

name of the Company-California Fig Syrup Co.-printed on the front of every package.

They know that in cases of colds and headaches attended by biliousness and constipation and

of weakness or torpidity of the liver and bowels, arising from irregular habits, indigestion, or

over-eating, that there is no other remedy so pleasant, prompt and beneficial in its effects as

Owing to the excellence of Syrup of Figs, the universal satisfaction which it gives and the

> During the hottest fighting in the Shipka Pass, the leading battalion of the Russian General Dragomiroff's division recoiled before a hailstorm of Turkish bullets. The general was 8 very stout person, and had the general appearance of a peaceful German professor. But when he saw his men recoil, he dismounted and walked slowly to and fro along a ridge swept by the enemy's bullets. He was a hundred yards in advance of the men, occupying the position they had abandoned. After staying there for a while without being touched, he shouted back to the battalion: "What are you doing, you geese? Did you think there was danger here? I don't find any!" The men responded with a roar or cheers, doubled up to him, and charged so fiercely that the Turks were forced to retreat.

Catarrh is usually regarded as nothing more serious than a bad cold or slight inflammation of the inner skin and tissues of the head and throat, when it is, in fact, not only a vexatious and troublesome disease, but a com-plicated and dangerous one. It is true that Catarrh usually begins with a were going to say you broke that new cold in the head, but when the poisons, which are thrown off through the secretions, find their way into the blood, it becomes a constitutional trouble that affects all parts of the body. It has more annoying and disgusting symptoms than any other disease. There is a sickening and offensive discharge from the nostrils, a constant buzzing noise in the ears, headaches and pains in the eyes are frequent, while filthy, tenacious matter drops back into the throat requiring continual hawking and spitting, and in certain stages of the disease the breath has an odor that is very offensive. Catarrh is worse in Winter, because the cold weather closes the pores and glands, and the poisons and unhealthy vapors which should pass off that way are thrown back on the tender linings and tissues, causing the inflammation which starts

the unhealthy secretions to be absorbed by the blood. When the blood becomes diseased with this catarrhal matter all kinds of complications may be looked for. As the blood circulates through the body the foul matter finds its way into the stomach, ruining the digestion and producing stomach. It also affects the Kidneys,

Several years ago my blood was bad and I had in addition a dreadful case of Catarrh. My nose was stopped up, I had headaches, ringing noises in my ears and felt unfit for work. I commenced the use of S. S. on the recommendation of a friend, and in a short time it cured me sound and well. Itput my blood in good condition and I have never had the slightest return of the Catarrh since that time.

rises at 8 in the evening. He lives Bladder and other members of the body, while the general health is weakened, appetite lost and the patient feels despondent and half sick all the time. But worst of all, if the trouble is not checked the lungs become diseased from the constant passage of poisoned blood through them, and Catarrh terminates in Consumption, the most fatal of all diseases. You cannot get rid of Catarrh by treating it with sprays, washes, inhalations, etc., because they only reach the membranes and tissues, while the real cause of the trouble is in the blood. These relieve the annoying symptoms for a time, but the poison is all the while getting a stronger hold on the system and when they are left off will manifest itself in worse form than before. S. S.
