While You Sleep --- If You Buy a Lot in

**JOHNNIE**

Things are booming over there and if you want to get in on the ground floor, you must hurry.

A lot in Johnnie is as good as a small gold mine—and you sure will make a big winning.

**\$50 Cash**

Does the business and balance can be paid in monthly installments at 7 per cent interest. This is BETTER THAN A SAVINGS BANK as a means of saving and making money.

**Big Lots from \$100 up**

And you will receive your contract and deed direct from the UNION TRUST COMPANY of Los Angeles, one of the strongest financial institutions in the southwest, and they guarantee the title and handle all monies and contracts.

**No Fake Town Lot Scheme**

But a legitimate sale of choice town lots in the only townsite of Johnnie, located in the VERY CENTER of one of the richest mining districts in Nevada, and the only available place for building a town in that Mining District.

**Johnnie is a Great Mine**

And people are flocking to that district by the thousands. Better HURRY UP and get a good town lot in the

**Town of Johnnie**

At the original prices—as low as \$100 and on easy terms. They will likely double in 90 days. One year from now they will be worth ten times what you can buy them for today.

**You Take No Chances**

Just as sure as the sun rises tomorrow morning, just so sure will the town of Johnnie become an important and hustling business center. The

**Railroad**

Is building that way and will touch close enough to insure a rapid and permanent growth in this Coming City in the heart of the mining country.

**Water**

In abundance and of the purest quality from Artesian Springs 4½ miles distant, is carried by gravity through a pipe line now installed. Cheap water is an absolute essential for the building of a city.

**SEARCHLIGHT**

[Special Correspondence.]

Considerable activity has been occasioned by the visit here of L. L. Patrick and Matt Hoveck, superintendent of the Montgomery-Shoshone mine of Beatty. Both parties examined properties and acquired interests in the Cyrus Noble extension, and have also taken bonds on several other properties.

The Quartette Mining Co. has let a contract to sink a vertical shaft 250 feet on the Bay State claim of the company's property.

The mill of the New Era Mining Co., resumed active operations this week and is running on ore secured in the south upraise that plates \$20.

Southern Nevada Co.'s mill will resume operations soon. The mine has been developed to the 250-foot level, but work was discontinued on account of the large flow of water.

The railroad route to Searchlight has not yet been determined.

Sinking in the main shaft of the Searchlight Treasurer has disclosed definite walls, the shaft being in ore. Considerable copper-stained sugar quartz has been struck at 50 feet, which runs \$50 per ton.

The shaft of the Venus is in ore and contracts have been let to sink to the 400-foot level. Stations are to be cut at the usual intervals, and a 15 h. p. hoist will supplant the whim now in use.

While sinking for water on the Water-spout claim, which is close to town, considerable copper-stained ore, heavily mineralized, was struck at a depth of 190 feet. Drill samples assayed \$44.80 per ton in gold and silver.

Work is going on at the Cyrus Noble mine. The new mill is giving excellent results and preparations are being made for a new 40 h. p. hoist.

**COUNTY DIVISION**

Ex-Senator Wm. M. Stewart is of the opinion that Bullfrog district should be the center of a new county, and expresses himself rather forcibly in an interview with the Bullfrog Miner. He said:

"The two railroads approaching Bullfrog from the south will make a town of great importance, because there can be no doubt that the Bullfrog mining district is the most extensive, if not the most important of any in the State. This matter should be considered by the people of Nye and Esmeralda counties with a view of the greatest good to the greatest number. Certainly no county is benefited by outlying provinces which occasion enormous expense in conducting civil and criminal business."

Similar conditions prevail in Lincoln county and the county must be divided or the county seat moved.

**TO ASSESS NEVADA STOCKS**

Besides assessing all national bank stock located in San Francisco, in accordance with the opinion of City Attorney Burke, Assessor Dodge has decided to assess stocks of corporations doing business outside of California. This will affect the stocks of the Comstock lode in Nevada, and of other mining companies doing business in other States, but whose stock is owned by residents of San Francisco.

California has commenced the erection of metal guide posts in the desert section of that State. Nevada has a law providing for such posts, but prospectors and travelers are left to work out their own salvation.
