HEGREATEST

The ingredients that enter into S. S. S. and the method of combining and preparing them so that they build up and strengthen every part of the body, make it the greatest of all tonics. S. S. is nature's remedy-PURELY VEGETABLE-and while it is restoring the lost appetite, overcoming that tired, run-down feeling, and other ailments common to Spring, which warn us that it is necessary to take a tonic, it is purifying the blood of all poisons and waste

matters so that it can supply to the system the strength and nourishment it needs to keep it

in perfect condition during the depressing summer months that are to follow.

Spring is the season when most every one needs a tonic. It is nature's time for renewing and changing; and as everything puts on new life, the sap rises in vegetation, the earth thaws out from its winter freezes, and all respond to Spring's call to purge and purify themselves, there is a great change also takes place in our bodies. The blood endeavors to throw off the poisons and accumulations which have formed in the system, and been absorbed by it, from the inactive winter life, and calls upon every member to assist in the elimination. The system is often unequal to the struggle, the appetite grows fickle, the energies give way, the spirits are depressed, and a general run-

Then the body must have assistanceit must be strengthened and aided by a tonic, and S. S. S. is the ideal one. Being made entirely from roots, herbs and barks, it does

down condition is the result.

not disagreeably affect the system in any way as do most of the so-called tonics on the market which contain Potash or some other harmful mineral ingredient to derange the stomach and digestion, unfavorably affect the bowels, or otherwise damage the health. S. S. S. tones up the stomach and digestion and assists in the assimilation of food; it rids the system of that always-tired, worn-out feeling, and imparts vigor and tone to every part of the body. It re establishes the healthy circulation of the blood, stimulates the sluggish organs, and calmithe unstrung nerves which make one feel that he is on the verge of prostration. S. S. S. gives an appetite and relish for food that nothing else does, and by its use we can find our selves with as hearty, hungry an appetite in Spring as at any other season.

It acts more promptly and gives better and more lasting results than any other remedy and is absolutely safe because of its vegetable purity. Dyspeptic, irritable, nervous, debili tated people will find S. S. S. is just the medicine that is needed for the purification o' the blood, which, from its diseased or impure condition, is causing their trouble, as well as for toning up and helping the entire system. When you take your tonic this Spring do no experiment, but get the best-the tonic with forty years of success behind it, and the one endorsed by the best people all over the country-S. S. S., THE GREATEST OF ALL TOMICS. It is necessary at this time, when the system is depleted and weakened at every point, that the right remedy be used-one that is especially adapted to the condition, and

S. S. S. has proved itself to be this remedy for many years. If it is taken at the first sign or Spring the system will be so built up and strengthened that the disagreeable affections of

> THE SWIFT SPECIFIC COMPANY. ATLANTA, CA. Automobiles,

AN EFFORT TO PULL THROUGH THE DAY.

I have used S. S. S. quite extensively and unhesitatingly recommend it as the best blood purifier and tonic made. I am a machinist by trade and at one time my system was so run down that by 10 o'clock every day I would be completely exhausted, and it was with the greatest effort that I could pull through the balance of the day. Since taking S. S S., however, all this has disappeared. I am a strong. vigorous man, abundantly able to do my day's work, my appetite has been whetted up so that I can eat anything my sleep is sweet and refreshing, and I know further that it has purified my blood and put it in good condition. cannot speak too highly of your great remedy, S. S. S. 817 W. Broad St., Columbus, O. A. B. MONTGOMERY.

SHE FOUND IT THE BEST SPRING TONIC.

On two occasions I have used S. S. S. in the spring with fine results. I can heartily recommend it as a tonic and blood purifier. I was troubled with headache, indigestion and liver troubles, which all disappeared under the use of S. S. S. My appetite, which was poor, was greatly helped. I can eat anything I want now without fear of in digestion, and my blood has been thoroughly cleansed o all impurities and made rich and strong again. As a toni

and blood purifier it is all you claim for it.

How Good Food may Turn to Poison

ECAY is not digestion, you know, even when it takes place in the stomach.

Food decayed in the body after being eaten is as dangerous to bealth as food decayed before being eaten. Food nourishes or poisons, just accord-Ing to how long it remains in the Bowels

Cascarets are the simplest and surest safeguard against Delayed Digestion yet discovered.

undigested.

Sold in a thin Enamel Box, half as thick as your watch, which fits into the vest pocket or lady's purse as if it grew

One of these toothsome tablets works wonders for digestion.

the Saliva flowing, which at once gets to work dissolving it.

The Saliva becomes blended with the Candy Cascaret tablet, and from the moment they start going down your throat together they start working together.

Now, what do they work at? Bowelwork, of course-Digestion.

Most of the Digestion occurs in the thirty feet of intestines that connect with the Stomach.

They are lined with a set of little mouths, that squeeze Digestive Juices into the Food eaten.

The Digestive Juices thus mix with the food, just as Saliva mixes with Cascaret tablets, dissolving and changing that food into nourishment, as it passes along the channel.

The Intestines are also lined with mil- hundred and fifty machines in use, lions of little suction pumps, that draw the Nutriment from Food, as it passes them in going through.

This Nutriment is then carried into the Blood, and spread over the Body as Brain, Bone and Brawn.

But, when the Bowel-Muscles are weak, the Food moves too slowly to stimulate the little Gastric Mouths and there is no flow, or too little flow of Digestive Juice, to change the rood into nourishment.

Then, the food decays in the Bowels, and in the thirty feet of Intestines.

When this Decay begins the little suc-In this round-edged Enamel Box are tion pumps draw Poison from the decayed Food, into the blood, instead of the Nutrition it should have drawn.

Now, Cascarets contain the only com-Soon as placed in the mouth it starts bination of drugs that Stimulates these Muscles of the Bowels and Intestines just as a Cold Bath, or open-air Exercise, stimulates a Lazy Man.

Cascarets therefore act like Exercise. They produce the same sort of Natural result that a Six Mile walk in the country would produce, without any injurious Chemical effect.

The Vest Pocket Cascaret Box is sold by all Druggists, at Ten Cents.

MAKING ARTIFICIAL ICE CREAM!

Cottonseed Oil Used Instead of the Ordinary Ingredients.

"When Prof. Stillman of Stevens Institute gave a dinner to two friends, at which most of the viands were made artificially by chemical means," writes Lawrence Perry in the Technica! World magazine, "he had small idea of the furore his efforts would produce. But he has received hundreds of letters asking how different dishes were produced-so many that he has not had time to answer many of them.

"The chemical processes which he employed were some of them simple and some quite complicated. To make vanilla ice cream by artificial means, for instance, the alchemist took some triple refined cottonseed oil and placed it in a centrifugal machine which revolved at a velocity of 3,000 revolutions a minute. A beautiful emulsion was thereby produced, which was then frozen, chemically, of course. The flavor was obtained by the addition of vanillin, glucin and nitrobenzol. They say that ice cream composed as above is sold in many Southern States where cottonseed oil is more plentiful and consequently cheaper than milk or cream. It is far from harmful, tastes good and does not melt as quickly as the genuine ice."

Divorce Increasing.

Divorces seems to be growing more prevalent every succeeding year. In 1895 there were 202 divorces in New York City. In 1904 there were 843.

The same increase is true of Chiago, where in 1895 there were 1.145 divorces, and in 1904 there were 2,350. In Philadelphia in 1904 614 divorces are on record, against 364 in 1895. In Boston there were 269 cases of divorce n 1895, and 512 in 1904.

Nearly all the larger cities show a corresponding increase of divorces

Protection of American Birds. The movement for the protection of birds in America has long since as sumed formidable proportions, says American Homes and Gardens. Much of the credit for the work accomplished is due to the Audubon societies, which exist in thirty-five States, and which for a number of years have carried on an active work for the conserving of bird life. The results accomplished are considerable. A "model law" drawn up by the American Ornithologists' union is now in force in thirty States and the District of Columbia. The Lacey law excludes from interstate commerce all birds killed IIlegally in any State, and makes those legitimately killed subject to the law of the State in which they are bought.

Laws prohibiting the sale of game out of season, even when killed in season, look toward the same end of conserving bird life. Public attention has been aroused on the subject, and even the manufacturer of air rifles no longer calls attention to the fact that they will kill small game within short distances. Absolute protection has not yet been given the birds everywhere, but a great and important work has been well begun and is being carried

Stranger-If you think a curfew law would be a good thing for the town why don't you bring the matter up before the city fathers?

Native-That's the trouble. We haven't any city fathers. Some of 'em are old bachelors, and the rest of 'em live in apartment houses.

Save the Babies.

NFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twentytwo per cent,, or nearly one-quarter, die before they reach one year; thirtyseven per cent., or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium, or morphine. They are, in considerable quantities, deadly poisons. In any quantity they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. II. Fletcher. Castoria causes the blood to circulate properly, opens the porcs of the skin and allays fever.

Letters from Prominent Physicians addressed to Chas. H. Fletcher. Dr. A. F. Peeler, of St. Louis, Mo., says: "I have prescribed your Castoria

in many cases and have always found it an efficient and speedy remedy." Dr. E. Down, of Philadelphia, Pa., says: "I have prescribed your Castoria in my practice for many years with great satisfaction to myself and benefit to my pacients." Dr. Edward Parrish, of Brooklyn, N. Y., says: "I have used your Cas-

toria in my own household with good results, and have advised several ratients to use it for its mild laxative effect and freedom from harm." Dr. J. B. Elliott, of New York City, says: "Having during the past six

years prescribed your Castoria for infantile stomach disorders, I most heartily commend its use. The formula contains nothing deleterious to the most delicate of children." Dr. C. G. Sprague, of Omaha, Neb., says: "Your Castoria is an ideal

medicine for children, and I frequently prescribe it. While I do not advocate the indiscriminate use of proprietary medicines, yet Castoria is an exception for conditions which arise in the care of children." Dr. J. A. Parker, of Kansas City, Mo., says: "Your Castoria holds the

esteem of the medical profession in a manner held by no other proprietary preparation. It is a sure and reliable medicine for infants and children. In fact, it is the universal household remedy for infantile ailments." Dr. H. F. Merrill, of Augusta, Me., says: "Castoria is one of the very

finest and most remarkable remedies for infants and children. In my opinion your Castoria has saved thousands from an early grave. I can furnish hundreds of testimonials from this locality as to its efficiency

Dr. Norman M. Geer, of Cleveland, Ohio, says: "During the last twelve years I have frequently recommended your Castoria as one of the best preparations of the kind, being safe in the hands of parents and very effective in relieving children's disorders, while the case with which such a pleasant preparation can be administered is a great advantage."
