COAST LETTER

San Pedro and San Francisco Labor Troubles

Los Angeles, California, August 20.—Weather in Los Angeles and along Pacific coast for past week has been cool and foggy. Back in the interior at Bakersfield, Fresno and Sacramento the thermometer has ranged from 100 to 115.

There is a good prospect that railroad ties will now go out on the Beatty branch of the Salt Lake. The strike at San Pedro has been broken, and gangs of non-union men are unloading ties and lumber from the ships in port. A strong police force guards the workers from the union forces. At a recent town election in San Pedro strong non-union officers were elected.

Poor San Francisco will not be rebuilt in ten years. The lumber dealers and labor unions are raising prices and many business men have abandoned the idea of rebuilding. "Man's inhumanity to man" was never better illustrated.

WILD ROSE

Mr. O. G. McCall, of Beatty, one of the fortunate owners of the Wild Rose mines, was held up in Las Vegas by the washouts this week. He is on his way east in the interest of the Wild Rose Company. The latest report from the camp is an assay of \$30.00 clear across the shaft, which has not yet reached the contact vein.

The Patterson District, sixty miles northwest of Pioche, is waking up after a sleep of thirty years. The camp was discovered in the early sixties and reduction works were operated there at one time. Miners and prospectors left there during the big rush following the discovery of Pioche.

EL DORADO CANYON

Change of Management of the Wharton Properties

The long looked for change of management of the Wharton properties has at last come, says the Searchlight correspondent. Mr. Charles Gracey is to be succeeded by a nephew of Mr. Joseph Wharton, of Philadelphia, the owner of the Quaker City, Mocking Bird and Techaticup mines.

The new manager is not yet on the ground and little is definitely known as to what he will do on the property. It is certain however, that new machinery will at once be purchased and a large working shaft will be started.

Mr. Gracey stated that he was anxious to leave the canyon as soon as he could arrange his business to that end.

A movement is on foot to abandon the old postoffice at the river, merging it with the office at Nelson at the head of the canyon, and then to call the reorganized postoffice El Dorado Canyon. Proper petitions will at once be forwarded to the department at Washington to bring about this result.

STRANGER DIES

A strange man, apparently about 45 years of age, died in front of the Aplin building on First street yesterday noon.

The man was of medium height and build and wore a brown moustache. Thursday night he slept in a tent belonging to John LeRoy, porter at the Hotel Nevada, but the latter does not know his identity. Shortly before expiring the deceased asked for water and stated that he was suffering from heart trouble.

In his pockets was found \$35 and a circular of the "Uncle John Mineral Water Co., of St. Louis, Mo., Hy G. Oheim, general agent." On the circular was written in lead pencil, "John Oheim, Kimswick, Mo." Nothing else was found that would serve to establish his identity.

The man was respectably dressed and cleanly and such of his clothes as were marked bore the mark of Salt Lake City dealers.

Donald McDonald, prominent pioneer of the Comstock, and a resident of Nevada for 45 years died at Battle Mountain August 7th at the age of 74 years.
