### Curbing His Rapture.

Ardent Lover—Blanche, you are the loveliest girl in the world!

His Intellectual Sweetheart—While I realize that such a remark as that Gerold, is based on inadequate knowledge, I am disposed to regard it as indicating the full measure and scope of your acquaintance with the world thus far, and as such I accept it and hasten to express my grateful appreciation.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

### London Conveyances.

Buses and cars cease running in London at 12:30 a. m., and one of the reasons why the labor men in the House of Commons want earlier sittings is that they have no autos or broughams and cannot afford cabs, so would have to walk home in all weathers if the house sat late.

### Arithmetic Races.

In the recent great athletic meeting at Canton arithmetic races were a feature. Pupils from the schools carried slate and pencil, and in the course of the race they encountered a blackboard containing a sum to be solved. The boys were lined up as they reached the goal, and those whose calculations were wrong were then eliminated. The first three left in the line were counted winners.

### Married in Handcuffs.

The unusual spectacle of a bridegroom appearing at the altar handcuffed has been seen, according to a contemporary, at Monthey, an Italian village. The bridegroom, an Italian, was undergoing a long sentence for burglary, and recently prevailed upon the governor of the prison, to whom he stated he had committed the crime for the sake of his fiancée, to allow him to marry. Two gendarmes in uniform acted as witnesses and guardians at the same time. At the church door the young bride and bridegroom parted with heavy hearts.

### Realized It Herself.

The angry waves broke upon the stately vessel.

"Isn't the commotion terrible?" exclaimed the young man with the steamer cap and the camera.

"O, yes!" moaned the pale young woman in the steamer chair. "You feel it, too, do you?"

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney and Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by Druggists 75c. Take Hall's Family Pills for constipation.

### WHY GEN. MIN WAS HATED.

Wanton Cruelty of the Officer Assassinated in Russia Sunday.

Gen. Min, who was shot to death in St. Petersburg Sunday by a young woman who afterwards said to the police that she was but one of 10,000 women who are ready to die that Russia may be free, was one of the most heartless of all the repressive agents of the Czar. His cruelty had made him hated by the people.

Min was the commander of the Semenovskiy regiment, which poured a terrible fire into the parading workmen near the Technological Institute, in St. Petersburg, last October. For that bloody work he was raised to the rank of general and sent to Saratov to quell the disturbances following the assassination of Lieut. Gov. Sakaroff. One of the first acts of Min after arriving in Saratov was to order the flogging of all the men in a large village. He sat on his horse like a statue while Cossacks carried out his terrible instructions, and with women and children pressing around pleading for leniency for his victims. It was Min who crushed the revolt last winter in Moscow. He spared none suspected of revolutionary sympathy. All persons found carrying arms were tried at drum-head court martial and shot.

### Will Help Sailors.

A will of the late Lord Iverlyde, chairman of the Cunard Company, dated March 20, 1901, and believed to be his last, left all his property to the widow. But a later will, dated Nov. 9, 1902, has been found in a handbag in his London office, by which \$1,500,000 is left to seamen's charities in Glasgow, Liverpool, Manchester, Belfast, New York and Boston.

### A WOMAN'S KIDNEYS.

Women have so much to do, so many pains to suffer, so many critical periods to go through, that it is important to keep the kidneys well and avoid the backache, bearing down pain, languor and other common signs of weak kidneys. Mrs. Chas. E. Smith, of 22 Boyden St., Woonsocket, R. I., says: "My kidneys were weak from childhood, and for eight or ten years past my sufferings were terrible. My back was very painful and I had many annoying symptoms besides. When I began taking Doan's Kidney Pills I weighed only 125. Today I weigh 165, and am in better health than for years. Doan's Kidney Pills have been my only kidney medicine during four years past. They bring me out of every attack."

### COLOR SENSE IN ANIMALS.

Possessed to High Degree by Some, Especially by Birds.

A hypothesis that the sense of color is possessed to a high degree by animals and especially by birds furnished a basis for some of the most beautiful and fecund of the Darwinian theories of sexual selection. No Darwinist doubts that the brilliant colors of male birds are to attract the attention of the female birds, and this presupposes naturally on the part of these birds a fine sense of color.

Wallace has asserted that to the fact that certain plants bear fruit of brilliant colors is due their preservation; the animals, attracted by these colors, break the fruits from the trees or plants, carry them off and thus indirectly assist in the dissemination of the seeds which they contain over large tracts of land. And this function of selection on the part of animals presupposes in them a certain sense of color. Still, scientific documents in support of these hypotheses are rare.

### IMMENSE TOBACCO PURCHASE

#### Forty-Eight Thousand Dollars Paid for a Fancy Lot of Tobacco.

The biggest purchase of high grade tobacco ever made in the West by a cigar manufacturer was made last Wednesday by Frank P. Lewis, Peoria, Ill., for his celebrated Single Binder cigar. A written guarantee was given that the entire amount was to be fancy selected tobacco. This, no doubt, makes the Lewis factory the largest holder in the United States of tobacco of so high a grading.—Herald-Transcript.

Dealers supplied by their jobber or direct from Frank P. Lewis' Factory, Peoria, Ill.

### "Without."

The German girl who presided over the soda fountain in Heckelmeyer's drug store was accustomed to patrons who did not know their own minds, and her habit of thought was difficult to change.

"I'd like a glass of plain soda," said a stout man, entering one day in evident haste as well as thirst.

"You have vanilla, or you have lemon?" tranquilly inquired the young woman.

"I want plain soda—without sirup. Didn't you understand me?" asked the stout man, testily.

"Yes," and the placid German face did not change in expression or color. "But what kind of sirup you want him without? Mitout vanilla, or mitout lemon?"

### Poor Weapons.

Mr. Lafferty had asked the druggist for something to kill moths, and the druggist, says a writer in the Chicago Record-Herald, sold him ten cents' worth of moth balls.

The next day Mr. Lafferty returned, and, holding out the crumpled remains of some of the moth balls, he said: "Are vez the young man that sold thim things to me yesterday?"

"I am. What's the matter with them?"

"Th' idea of a decent store selling thim things to kill moths or anything else! If yez can show me a man that can hit a moth wid wan o' thim, I'll say nawthing about the pitchers and the looking-glass me an' the ould woman broke."

### TO MAKE HARNESS LAST LONGER

A little economy, which sometimes means a good many dollars to a man is the proper care of harness, carriage tops, etc. Leather in daily use, exposed as it is to sun and wind, soon becomes dry, hard, inelastic, and unable to stand strain. Then, very likely at the most unfortunate moment, a break occurs, and precious time and money are lost. All this is easily prevented by a little forethought and care on the part of the owner. Every one owning horses should be supplied with a good leather preservative, and a good axle oil. These two things are necessary to the largest economical use of a working outfit, or a pleasure equipage.

Observation has shown that no oil penetrates leather so deeply, and resists the drying effect of sun and wind so well as Eureka Harness Oil.

Neatsfoot and some other inferior oils sometimes used, easily become rancid, or because of containing acid, hurt the leather. Stable men and others posted on the subject, invariably use Eureka Harness Oil. When harness is given an occasional dressing of this oil, and wagon spindles greased with Boston Coach Oil, a very large reduction is made in the necessary repair bills. Boston Coach Oil, by the way, is very much superior to Castor Oil. It has splendid lasting qualities, will not gum or corrode, and is more economical in every way.

People who are after economy in stable management will do well to ask for these oils.

### Free for a Time.

The Northby Clarion never failed to notice the presence of a visitor in the small town, and if he was a person known to fame the Clarion made suitable comments. Occasionally these comments were so worded as to prove unwittingly keen.

The Rev. Mr. Besom was a man known in the pulpit as a fearless setter-forth of rights and wrongs, but in the domestic circle he displayed, for prudential reasons, considerable reserve of speech and action.

"Dr. Besom is once more among us for a brief season," wrote the chronicler of Northby's social and religious life. "He says and does exactly as he thinks right, without regard to the opinions or belief of others. His wife is not with him."

### Wifely Forethought.

Wife—It's all right if you have failed. I have \$800 saved up from money that you've given me from time to time.

Husband—That will be a big help.

"Help? I guess it will. Why, that will just buy my winter outfit."—Boston Globe.

### Effect on Society.

Young Man (in Goldfield)—Mayme, it's awfully hot in this restaurant. If you don't mind it, I'll take my coat off.

Mayme—I won't have it, George. If you're going to attack this ice cream with me you'll have to weigh in with your fighting togs on.

# Mica Axle Grease

## Makes the LOAD LIGHTER

An ounce of grease is sometimes the only difference between profit and loss on a day's teaming. You know you can't afford a dry axle—do you know as well that Mica Axle Grease is the only lubricant you can afford? Mica Axle Grease is the most economical lubricant, because it alone possesses high lubricating property, great adhesive power, and long-wearing quality. Hence the longest profitable use of your outfit is to be had, only when the lubricant is Mica Axle Grease.

Mica Axle Grease contains powdered mica. This forms a smooth, hard surface on the axle, and reduces friction, while a specially prepared mineral grease forms an effective cushioning body between axle and box. Mica Axle Grease wears best and longest—one greasing does for a week's teaming. Mica Axle Grease saves horse power—consequently saves feed. Mica Axle Grease is the best lubricant in the world—use it and draw a double load. If your dealer does not keep Mica Axle Grease we will tell you one who does.
