

Paris .- The cabinet completed the pers. amendments to the church and state separation law of 1901, which were as the fool rampant. She is depicted as the fool rampant. She is depicted introduced in parliament the evening as semi-bald, holding her wig in one of December 15

In order to avoid the appearance of persecution it was definitely decided not to press the question of treating recalcitrant priests as subject of a foreign power until it is clearly demonstrated that the church is systematically resisting the law.

As Cardinal Richard, archbishop of dle. Paris, claims to be ill, it also has been decided to allow him to depart at his and other clergymen.

bishop announced that he would not often is? yield an inch to force, whereupon the his superiors.

## Large Crowd Gathers.

In the meantime a rumor spread that the archibshop was being expelled from the palace and about 500 Catholics, including many priests, hurried to the courtyard of the palace to defend the primate.

With the intention of making a big

tellane, several members of the old Grantham's characterization, and in Catholic students, "the defenders" of the archbishop, who for two hours vainly awaited an attack upon the part of the police, when, seeing there was prelate by force, they gradually dis appeared.

#### 'Thanks "Defenders."

As the "defenders" were leaving. Mgr. Amiette, the coadjutor arch bishop, thanked the crowd for the manifestation of sympathy and after announcing that the cardinal had de cided to leave the premises Monday Mgr. Amiette conferred the episcopal

benediction.

# May Retaliate on Von Buelow.

a of bers of the clerical press filing a de Buelow, are regarded among the states the imperial chancellor, Prince von lodge on the ground that worship was men and persons about the court as having been jeopardized by his ad vice to the emperor to dissolve the Reichstag. Politicians are all saying that if an adverse majority is returned to the Reichstag, Von Buelow's chancellorship will be ended.

rom the main shaft of that company After going through 100 feet of wash the porphyry, which continued owing better with each foot of depth. 1 at 161 feet the vein proper was enintered, the ore being identical with at found in the Searchlight, which is ne of the best mines in the camp. Watkins is very much elated over strike and the fact that his judghas proved correct means much the entire district, as it proves the

intinuity of the Searchlight vein. Foreman Beman of the Annette re orts some interesting developments that property. The shaft is down o feet and it is the intention of the anagement to continue sinking till te water level is reached, which they stimate will be in the neighborhood f 210 feet, judging from the shafts in he immediate vicinity. The bottom of he Annette shaft is now all in ledge natter and there are a number of small racks and crevices filled with quartz. a general sample of which ran \$9.41 and the gouge matter is the same as that found in the Searchlight, which an into the thousands. The Annette considered to be one of the best irface showings in the camp and with he recent developments underground oids fair to be one of the shippers in

#### Ten-Stamp Mill Running.

the near future.

At the Searchlight Milling and Minng company's plant the ten-stamp mill s running regularly on high grade re and treating forty tons per day. The management have decided to wait spring before starting up the 100cyanide plant which they have ust completed. A new station pump as been ordered and will be installed in the 300-foot level; the capacity will 200 gallons per minute. The upaise from the 300-foot level is nearing the surface and will be finished with in the next few days. This will give etter air and facilitate the work.

McGan's camp, eight miles north of Searchlight, is attracting some atten-ion. The Nevada Consolidated Mining company has started another shaft on their property on the Mocking Bird claim and have installed a twenty-five horse power hoist with two shifts working steadily. In their other shaft on the Black Dog they are down 200 feet and have four feet of ore in the which shows good values in

of the Baptist missions in Africa, and the commissioner general of the Con-

go Reform association of America. The telegram stated that advices by cable from Brussels indicated that Belgium had, through its parliament, formally assumed sovereignty over the Congo Free State pending the closing up of the formalities between King Leopold as personal proprietor and international landlord and the represen tatives of the Belgian government.

The fact about the transaction which has so stirred up the interested leaders knows she had plenty of money and is that the deal is to be consummated was highly connected in Russia. far ahead of the death of King Leopold and the terms of the will of the king, which were formally ratified by Belgium several days since, are to become effective at once.

## NEGRO HAS STRUCK IT RICH.

## Will Not Allow Any White Man to tion from President McKinley in which Talk Him Out of His Wealth.

Enthusiastic over a new strike made by him on his claim in the Crown Point district, Tim Hawkins, a well known colored prospector, arrived at Prescott recently with two sacks of ore, in pieces of which free gold were plainly visible to the naked eye, and samples of which were assayed by a local assayer.

"I have two miners at work sinking a shaft on this kind of rock," he said, HARRISON GULCH TOWNSITE as he proudly exhibited a specimen streaked with the yellow metal. "The shaft is now seventeen feet deep and Gulch townsite case, after years of litigation, has been settled by a decithe pay-streak is about a foot and a half in thickness, any sample of which sion of the commissioner general of leaves a good streak of gold in the the land office, who has rejected the pan when crushed and washed.

"I located the claim about two years ago," he added, "but never thought it was such a good one until about a month ago, when I discovered the rich ore sticking out of the surface of the ground. I commenced to dig right away, and it kept looking bet-ter, so I hired two miners and put them to work. I have owned lots of good property and have sold it cheap, but I am not going to let any of these
