### PE-RU-NA A MEDICAL COMPOUND

In any medical compound as much depends upon the manner in which it is compounded as upon the ingredients used.

First, there must be a due proportion of the ingredients. Each rug in the pharmacopeia has its special action. To combine any irug with other drugs that have slightly different action, the combination must be made with strict reference to the use for which the compound is intended. The drugs may be well selected as to their efficacy, but the compound ENTIRELY SPOILED BY THE PROPORTION in which they are combined.

It takes years and years of experience to discover this proportion. There is no law of chemistry, of pharmacy, by which the exact balance of proportion can be determined. EXPERIENCE IS THE

ONLY GUIDE.

In compounding a catarrh remedy Dr. Hartman has had many years' experience. In the use of the various ingredients which compose the catarrh remedy, Peruna, he has learned, little by little, how to harmonize the action of each ingredient, how to combine them into a stable compound, how to arrange them into such nice proportions as to blend the taste, the operation and the chemical peculiarities of each several ingredient in order to produce a pharmaceutical product beyond the criticism of doctors, pharmacists or chemists.

WE REPEAT, THAT AS MUCH DEPENDS ON THE WAY IN WHICH THE DRUGS ARE COMBINED AS DE-PENDS UPON THE DRUGS THEMSELVES.

The compound must present a stability which is not affected by changes of temperature, not affected by exposure to the air, not affected by age. It must be so combined that it will remain just the same whether used in the logging or mining camps of the northwest or the coffee plantations of the tropics.

A complete list of the ingredients of Peruna would not enable any druggist or physician to reproduce Peruna.. It is the skili and sagacity which these ingredients are brought together that give Peruna much of its peculiar claims as an efficacious catarrh remedy.

However much virtue each ingredient of Peruna may possess, the value of the compound depends largely upon the manner and proportion in which they are combined. The right ingredients, put together rightly, is the only way a medical compound can be made of real value.

Legend of Jack Horner.

The legend of Little Jack Horner, as told in Somersetshire, is as follows: At the time of the dissolution the abbot of Glastonbury wished to send some important deeds to the brother of Queen Jane Seymour. For safety he concealed them in a pie and intrusted them to one Jack Horner. During the transit Jack Horner pulled out the plum in the shape of the title deeds of Mells Park, where his descendant now resides.

## **CONTAGIOUS BLOOD POISON** NO LIMIT TO ITS POWERS FOR EVIL "

Contagious Blood Poison has brought more suffering, misery and humilation into the world than all other diseases combined; there is hardly any limit to its powers for evil. It is the blackest and vilest of all disorders, wrecking the lives of those unfortunate enough to contract it and often being transmitted to innocent offspring, a blighting legacy of suffering and shame. So highly contagious is the trouble that innocent persons may contract it by using the same table ware, toilet articles or clothing of one in whose blood the treacherous virus has taken root. Not only is it a powerful poison but a very deceptive one. Only those who have learned by bitter experience know by the little sore or ulcer, which usually makes its appearance first, of the suffering which is to follow. It comes in the form of ulcerated mouth and throat, unsightly copper colored spots, swollen glands in the groin, falling hair, offensive sores and ulcers on the body, and in severe cases the finger nails drop off, the bones become diseased, the nervous system is shattered and the sufferer becomes an object of pity to his fellow man. Especially is the treacherous nature of Contagious Blood Poison, shown when the infected person endeavors to combat the poison with mercury and potash. These minerals will drive away all outward symptoms of the troubles for a while, and the victim is deceived into the belief that he is cured. When, however, the treatment is left off he finds that the poison has only been driven deeper into the blood and the disease reappears, and usually in worse form because these strong minerals have not only failed to remove the virus from the blood but have weakened the entire system because of their destructive action. S. S. S. is she only real and certain cure for Contagious Blood Poison. It is made of a combination of healing blood-purifying roots, herbs and barks, the best in Nature's great laboratory of forest and field. We offer a reward of \$1,000 for proof that S. S. S. contains a particle of mineral

PURELY VEGETABLE

in any form. S. S. S. goes down to the very bottom of the trouble and by cleansing the blood of every particle of the virus and adding rich, healthful qualities to this vital fluid, forever cures this powerful disorder. So thoroughly does S. S. S. cleanse the circulation that no signs of the disease are ever seen again, and offspring is protected.

Write for our special book on Contagious Blood Poison, which fully explains the different stages of the trouble, and outlines a complete home treatment for all sufferers of this trouble. No charge is made for this book, and if you wish special medical advice about case or any of its symptoms, our physicians will be glad to furnish that, too, without harge,

### 93 The General Condemnation of So-Called Patent or Secret Medicines

of an injurious character, which indulge in extravagant and unfounded pretensions to cure all manner of ills, and the

National Legislation Enacted to Restrict Their Sale have established more clearly than could have been accomplished in any other way

The Value and Importance of Ethica! Remedies.

Remedies which physicians sanction for family use, as they act most beneficially and are gentle yet prompt in effect, and called ethical, because they are of Known Excellence and Quality and of Known Component Parts.

To gain the full confidence of the Well-Informed of the world and the approval of the most eminent physicians, it is essential that the component parts be known to and approved by them, and, therefore, the California Fig Syrup Company has published for many years past in its advertisements and upon every package a full statement thereof. The perfect purity and uniformity of product which they demand in a laxative remedy of an ethical character are assured by the California Fig Syrup Company's original method of manufacture, known to the Company only.

There are other ethical remedies approved by physicians, but the product of the California Fig Syrup Company possesses the advantage over all other family laxatives that it cleanses, sweetens and relieves the internal organs on which it acts, without disturbing the natural functions or any debilitating after effects and without having to increase the quantity from time to time.

This valuable remedy has been long and favorably known under the name of Syrup of Figs, and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of Syrup of Figs and Elixir of Senna, as more fully descriptive of the remedy, but doubtlessly it will always be called for by the shorter name of Svrup of Figs; and to get its beneficial effects, always note, when purchasing, the full name of the Company-California Fig Syrup Co .- plainly printed on the front of every package, whether you simply call for Syrup of Figs, or by the full name, Syrup of Figs and Elixir of Senna, as Syrup of Figs and Elixir of Senna is the one laxative remedy manufactured by the California Fig Syrup Company, and the same heretofore known by the name, Syrup of Figs, which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regu-

lar price of which is fifty cents per bottle. Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., that the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.
