**Sagacity of Frogs.**

In the manner of disposing of their eggs many species of frogs exhibit remarkable peculiarities. A tree frog, native of Paraguay, makes its nest in a bush overhanging a pond. The lower ends of a number of leaves are drawn together and fixed in that position by a number of empty egg capsules. The eggs are also covered with a shield of empty capsules to protect them from the sun and air. When the eggs are hatched the plug at the bottom appears to fall out and the tadpoles tumble into the water.

**THE TRUTH ABOUT BLUING**

**Talk No. 1**

Avoid liquid bluing. Every drop of water is adulterated. Half a cent's worth of blue in a large bottle filled with water is sold for 5 cents or 10 cents in many places.

Always use RED CROSS BALL BLUE, the blue that's all blue. A large two-oz. package, all blue, sells for 5 cents or 10 cents. Delights the laundress. AT ALL GOOD GROCERS.

**A Sincere Compliment.**

"Did you hear my speech on the extreme importance of anything in which I decide to interest myself?" inquired the minor official.

"I did," replied the experienced legislator.

"And what did you think of it?"

"It was all right, but misplaced. You have some of the finest filibustering material I ever listened to."

**Perfection in Others.**

If thou canst not make thyself such an one as thou wouldst, how canst thou expect to have another in all things to thy liking? We would willingly have others perfect, and yet we amend not our own faults.—Thomas a Kempis.

**Why Lawyers Flourish.**

A couple of lawyers can sit and ponder for months and then wake up and do exactly what their clients—governed by a reasonable amount of common sense—can accomplish in just three minutes, if they want to, but they hardly ever want to.

**Rise in Russian Lakes.**

During the last 20 years the lakes of Russian Central Asia have shown a steady rise of water-level. Within this period, or since 1885, the Sea of Aral has risen about six and a half feet. The phenomenon has accompanied a period of augmentation of rainfall.

**Must War on Insects.**

When it is stated on good authority that the people of the United States have suffered from the ravages of insect pests to the extent of about \$700,000,000 in a single year, when the agriculture of the small state of Massachusetts is said to lose nearly \$5,000,000 annually from the attacks of insects, it is time to look about us to see how we can get help in the war against them; it is time to do something to increase the numbers of the creatures that feed upon these insects.

**Colonial Meeting Houses in Winter.**

In winter the colonial meeting house was a cold place. It may be said that the congregation sat "shivering on the brink" of perdition, if the icy temperature of the house and the terrible doctrines of the sermon are to be taken together. Samuel Sewall notes that there was a "great coughing" in the congregation; that the sacrament bread was frozen hard as pebbles, and pieces of it rattled as they fell in the pewter plates.—Bliss's "Side Glimpses."

**To Purify Water.**

To purify water sprinkle a tablespoonful of pulverized alum into a hogshead of water (the water to be stirred at the same time). It will after a few hours, by precipitating to the bottom the impure particles, so purify the water that it will be found to possess nearly all the freshness and clearness of spring water. **Origin of Mugwump.**

The word mugwump is derived from the Indian tongue. The Algonquin tribe had a word "mugquomp," which meant "chief" or "great man," and it was from this that we got our mugwump. The term was originally applied to any voter who was nominally identified with a particular party, but insisted on the right to vote with another party if he saw fit to do so. Generations ago it passed into the local phraseology of some of the New England villages, being applied there in its original (Indian) significance to any village magnate.

**Art Criticism.**

"I rather like the motif of that picture," said Mrs. Oldcastle, after she had carefully inspected the new work of art. "Yes, so do I," replied her hostess, as they were passing from the gallery, "only both me and Josiah thought the artist meant it for a cow."—Chicago Record-Herald.

**The Mob.**

A mob is of society of bodies voluntarily bereaving themselves of reason and traversing its work. A mob is man voluntarily descending to the nature of the beast. Its fit hour of activity is night. Its actions are insane, like its whole constitution. It persecutes a principle; it would whip a right; it would tar and feather justice, by inflicting fire and outrage upon the houses and persons of those who have these. It resembles the prank of boys who run with fire engines to put out the ruddy aurora streaming to the stars.—R. W. Emerson.

**Life Too Cluttered.**

Our modern life is too cluttered. We are everlastingly doing things. We chatter and work and play, and if we have an hour of leisure we fill it with the rattle of a paper. We are prone and helpless when we haven't any story to read or person to talk to or thing to do. We do not understand the lost art of doing nothing. We cannot, we dare not, just sit down and think.

**A Strange Fatality.**

An unusual fatal accident happened at New York when a sheet of window glass knocked from its frame fell five stories and killed Miss Lena Phillips. She was almost decapitated. The pane of glass, which became unfastened while being washed, sailed obliquely through the air and struck the neck of Miss Phillips, who was walking on the street below.

**PHYSICIAN SAID APPENDICITIS**

**Gall Stones Expelled by the Great Kidney Preparation**

I thought I would do you a favor and let you know what Swamp-Root has done so far for me.

About one year ago I was taken sick with a terrible pain in my right side. My family physician pronounced it appendicitis. About two weeks ago I received your Almanac and read in it about weak kidneys, and my back hurting me so much, I thought I would try your Swamp-Root and to my great astonishment, after using one bottle, I expelled three gall stones, which weighed 135 grains—just think of it. My kidneys are not well yet, and so I have concluded to continue with Swamp-Root. Mr. Schwake, the druggist, thought that it never was appendicitis and that the doctor had made a mistake. It was no doubt, gall stones that caused the trouble, or they would not have come away so soon after commencing with Swamp-Root.

I shall always praise Dr. Kilmer's Swamp-Root to all those who suffer from kidney, liver and bladder trouble, and am very thankful that I ever discovered such a worthy remedy. I feel confident that it will cure me entirely of all kidney and liver trouble.

**Mustard in England.**

Mustard is grown in England to a considerable extent in the eastern counties and the Fen district and to some extent in the Midlands. It is ordinarily grown in heavy black soil, but it is generally believed that the crop draws a great deal of strength from the soil. For that reason it is not especially popular. The yield an acre is variable, ranging from twenty to thirty bushels, but twenty bushels is usually considered a fair yield. The seed rate is usually about three to four pounds an acre when drilled in rows from ten to twelve inches apart.

**FREE TRIP TO SEE THIS HAY PRESS AT WORK**

**WE PAY YOU TO INSPECT THESE HAY PRESSES.**

Instead of paying a salesman's fare to show you a small model of a hay press, we will pay your fare to Los Angeles and return, not exceeding \$10.00, to examine our California Special New Century, full circle, all steel, self feeding Press and others on sale there. It makes no difference which hay press you buy, we pay your railroad fare just the same.

When you see for yourself how this machine has been built expressly for heavy hauling on the coast, how strong it is, how easy it is to operate, what smooth below it turns out, you will understand why we make such an offer. It has 1 1/2 hop-press, pull power, high baling chamber, positive plunger rebound, it stands up to its work, no taking off of wheels. Has record of 30 tons per day. We will ship you one to try. If you don't want it we will pay freight both ways. Write now.
