Adjustment That Squares with Goodrich Performance

In practical usage on road and pavement, Goodrich Tires are to-day consistently delivering remarkable mileage, showing a strength and endurance which proves them the best tires the rubber industry has developed.

Knowing by actual performance what splendid service Goodrich Tires are giving, the B. F. Goodrich Rubber Company has taken a step frankly intended to induce every motorist to share the more mileage of its tires.

It has established this new adjustment mileage worthy of the proven durability of its tires—

6,000 miles for Safety Treads—8,000 miles for Silvertown Cords, instead of the old adjustment of 3,500 for Safety Treads, and 5,000 for Silvertowns. The new adjustment holds good for all Goodrich Tires, including tires already purchased in the hands of user or dealer.

Go to a Goodrich dealer, and buy Goodrich Tires, sure that they will fulfill their mileage.
