## TURQUOISE MINES UNION PACIFIC WILL

ments Under Way.

That the Union Pacific Comto its shop force in Las Vegas is evidenced by the improvements in

the shops now under way. With the advent of the large all night to get home. Vegas shops was found to be in-adequate for the necessary repair work, and most of the work was transferred to the new Los geles shops. The Los Angeles shops it is understood are now crowded with the work and the company is taking steps to restore part of the work to the Las Vegas shops.

The excavation for the 200-ton Formally Begin Operation Whiting crane is practically comof Its New Plant.—Guests pleted and the machinery is here and ready for installation. The power house has been en-

larged by an addition 19 by 72 additional electric power equip-

ator driven by a General Electric steam turbine will be installed. The equipment for this is on the road and it is hoped to have it in operation by the first of the year. Four new quinels of switchboard will be requiren. Jack Gorham is superintendent of construction and A. E. Hensler is in charge of plant operation.

Numerous minor improvements are being made in and about the shops which give reason to believe that the number of employees will be substantially increased during the next few months.
