Iowa State and Marquette will play, as will Drake and Creighton.

Southern football fans will have a confusion of riches. and Georgia should put on a good show at Birmingham, Georgia Tech and Alabama Poly (Auburn) will play as usual at Atlanta. Washington and Lee will go to Jacksonville to meet undefeated Alligators of

ROADS AND THE BUDGET

The progress made in highway building in the United States has been so marked that, in a comparatively brief period of time, roads have changed from being luxuries to basic necessities.

Less than half a century ago money expended for highways was an inconsequential item in the public budget. Today it holds, with education, the outstanding position of honor. Every year sees thousands of miles of poor, unserviceable roads made into broad highways, and new areas opened to industry and pleasure through the medium of these transportation

It has been said that road expenditures during the present year average over \$11 for each man, woman and child in the United States, reaching the tremendous of \$1,360,026,000. Money wisely expended for approved types of pavements or oiled roads where practical, is soon returned in increased business for towns and cities, increased land values, and increased freight tonnage for the railroads.

Every delay, which means a day, in placing your order for the winter's supply of coal can mean a loss to you, because local dealers cannot control prices and a cost-at-mine advance means you must pay accordingly. Then too, delivery now means a good-first-grade coal at minimum cost, whereas rush delievery when winter storms and cold blow, may mean that you'll be glad to have inferior mining at any price.
