WHAT PRICE FOOTBALL

THE FACT that the Las Vegas football team lost the game with Sparks seems to be taken by some as an indication that support both financial and moral, should be withdrawn from the team.

A little sober consideration of the matter should convince anyone holding such views that they are not well founded.

It is true that the defeat of our team was a disappointment to every one, but there was no one half as disappointed as the eleven boys on the football team. These boys have put in nearly three months of strenuous training. They have abstained from sweets and many of the foods that boys like best.

It is worth dollars and cents to any community to have its high school boys so completely engrossed in a sport as the boys of the team are in football. The word of their coach is law, and we doubt if there can be found anywhere a bunch of boys as keenly earnest and morally fit as are the members of the football team of the Las Vegas High School, and credit for this is due to the game itself and to the coach.

We all regret the defeat of our team, but someone has to be beaten, and the Sparks team had the stronger line and better interference. We doubt whether any of the individual players could begin to compare with Shull, De Sonne or Downs of the local team, but as a whole the team outplayed the Vegas boys, and the latter are really entitled to considerable credit for preventing Sparks from romping home with a much greater score.

Without attempting in any way to minimize the accomplishments of the Sparks team, it should be remembered that at least four of the members of the Vegas team had been ill with the flu during the week. One player got up for the first time Thursday morning, and three or four others had been in bed for the rest of the week.

Another extenuating circumstance to be remembered is the fact that none of the local boys had ever played the game until last year.

Our isolation from other high schools is another factor to be taken into consideration. High schools in the central part of the state have the advantage of being able to stage a game almost every week-end, while the securing of games here is difficult and mileage and expense deand that they be more infrequent.

As we said before this is no attempt to belittle the victory of the Sparks team, which honestly outplayed us, but is intended as an argument against any lessening of local support for the gridiron sport.

Let's continue to give the boys a helping hand.

COMMUNITY CHRISTMAS

AS CHRISTMAS APPROACHES each year, the Community Christmas Committee, now an organization of long standing, begins to make preparations for the Christmas celebration which has become such a large part of our community life.

One suggestion presents itself to us. In place of handing out the treat of candy and fruit to all the children at the big tree Christmas eve, why wouldn't it be a good idea to abandon that particular feature of the program, and to spend that amount of money on real gifts for some of the children who are apt to be sorely disappointed on Christmas morning?

In a majority of instances the Christmas treat is received by boys and girls who are well remembered by Santa Claus, and yet we know there must be children to whom the receipt of some longed for toy would be paradise itself.

Our city is still small enough to enable the taking of a real census so that every child could have a regular Christmas. Wouldn't it be a good idea to do away with the general treat and to concentrate where the money would do the most good?

We could still have the beautiful Christmas tree and some Christmas carols and selections by the band, but could make the dispensation of gifts a personal affair. In other words a real Christmas gift for every child who might otherwise be without one.

SPEAKING OF PAVED STREETS

COMMENT BY MOTORISTS attending the football game Thursday afternoon regarding the fine condition of lower Main street was general. In place of a cloud of dust which obscured the vision of drivers, the street from Stewart to the turnoff was smooth and dustless, adding to the peace of mind of the driver, the ease of the rider, and the safety of both motorist and pedestrian.

It will certainly be a wonderful thing for the city when all our streets have the fine, hard, black surface.

Every delay, which means a day, in placing your order for the winter's supply of coal can mean a loss to you, because local dealers cannot control prices and a cost-at-mine advance means you must pay accordingly. Then too, delivery now means a good-first-grade coal at minimum cost, whereas rush delivery when winter storms and cold blow, may mean that you'll be glad to have inferior mining at any price.
