BIG MEN FROM SMALL TOWNS

One of the most important of Kansans, and therefore one of the most important of Americans, is Senator Arthur Capper. For years he has been a leader in the field of agricultural journalism as the owner of influential farm papers. He has also been Governor of Kansas, and is now Senator from that state. He is one of the most active forces representing the farmers of the United States.

Born at Garnett, Kan., a small town, in 1865, he was educated in the local high school and later moved to Topeka. In 1884 his working career began. He started as a compositor on the Topeka Daily Capital.

His rise was rapid. He was successively reporter, city editor, Washington correspondent, and since 1892 has been publisher and proprietor of the paper. In addition he is published and proprietor of a good number of farm weeklies.

He is a director of the Farmers' National Bank of Topeka, Kan., and president of the Board of Regents of the Kansas Agricultural College. From 1915 to 1917 he was Governor of Kansas. He has been a Senator since 1919. He heads the Kansas State Good Roads Association and the Kansas State Historical Society.
