## Girls Outnumber Men In University Sports

PROVO, Utah, Jan. 17, (AP)—More women students than men participate in athletics at Brigham Young university. This is despite the fact that the institution has men's teams entered in several sports in the Rocky Mountain conference, and the women students engage almost exclusively in intra-mural contests.

The women's sports include hockey, in which some 150 of them are contestants during the fall months, tennis, fencing, horseback riding and archery, besides half a dozen other branches of athletics.

Organized under Miss Wilma Jeppson, director of women's athletics, the Brigham Young girls have formed a women's athletics association, with hundreds of girls participating in 11 popular sports, each under a leader of its own. With athletic activities rivaling social pursuits for popularity, blouses and middie have almost become the school costume for the girl students.

With hockey just passing from the picture, basketball is the center of interest during the winter months. Later in the season archery will claim a good deal of interest, with a women's team entered in the state shoot. Swimming also is a popular sport for the women students, and hiking, dancing, volleyball, soccer, field and track have their devotees.

A riding club for women has been organized, with mounts furnished by the national guard battery stationed here.

declined to comment on their probable course of action, well known alienists have made physical and mental examinations of Harsh while state attorneys also have employed specialists to make similar examinations.

The trial is expected to develop into one of the hardest fought legal battles in Georgia, since Leo Frank was tried for the murder of Mary Fagan.

Police began a search after the Smith killing which was fruitless until information was received more than a week later that a pair of blood stained trousers had been sent to a dry cleaning establishment.

John Loewe, detective, investigated and traced the garment to Harsh, who was arrested as he came from the campus at Oglethorpe university, where he was a student. A few hours later, under steady questioning, police said he confessed to the robberies and slayings and named Gallogly as an accomplice.

## College Youths Face Hearing In Alleged "Thrill Slayings"

ATLANTA, Jan. 17, (AP)—Desire for a thrill; insanity; need for cash—these reasons are advanced for two sons of wealthy families charged with a series of holdups here that resulted in the slaying of two intended victims and baffled police for nearly a month.

George R. Harsh of Milwaukee, jointly indicted for murder in the holdups with Richard G. Gallogly, faces trial January 15.

Harsh, following his arrest last October, confessed to the holdups, police say, and to the slaying of E. H. Meek, grocery clerk, and Wilard Smith, pharmacist, when they attempted to resist him. The youth, it is alleged, gave "desire for a thrill" as his motive. Gallogly has made no statement.

Solicitor John B. Boykin, directing the prosecution, declares he has evidence proving that the young men were actuated by a desire for money to augment generous allowances which they dissipated rapidly.

Although defense attorneys have

declined to comment on their probable course of action, well known alienists have made physical and mental examinations of Harsh while state attorneys also have employed specialists to make similar examinations.

## ABOUT YOUR HEALTH

**Common Skin Affections**  
Winter is a signal for the spread of skin diseases. This is because many people neglect proper bathing, and are exposed to radical changes of temperature on the surface of the body. To rush out into a zero atmosphere while perspiring skin troubles, or bring them about, if not worse. To working men in shops, or the indiscreet in farm houses, this article will be timely.

Eczema is by far the most common winter skin disease. It may develop on any part of the human being, whether protected by clothing or not. It is not contagious—and may become a chronic disease, if neglected. Its chief symptom is itching or burning. Excessive "scratching" which seems imperative, may arouse moisture, even bleeding. Rarely does eczema scale or peel off. Of course you should consult your physician, if you get

a persistent skin trouble that you don't understand.

My advice must be general, though correct. Remove every source of irritation, if you have eczema—you will not recover with the best medicines if you do not. I once compelled a lady to cease wearing a fur neck-piece, much against her will, but she recovered from a fierce eczema of the neck and shoulders. Even very soft garments may irritate; change to less irritating. Use nothing on the skin that irritates. A "famous" patent medicine that I know of, does nothing more than relieve the itching—it never cures. Even that is fine—for the charlatan who sells the nostrum.

If, unfortunately, your eczema is all over or "universal," you should consult a nerve specialist as well. The cause may be found in a deep-seated nerve affection. Local medicines should be soothing in the highest degree.

## MEX. OFFICIAL DECRIES BILL ON EMIGRATION

**MEXICO CITY, Jan. 15, (AP)—**Commenting on the emigration of Mexican labor to the United States, Foreign Secretary Estrada said the quota under the Harris bill which is now before the United States Congress is impracticable. He stated that it would neither relieve conditions at the present time nor in the future but would rather increase clandestine traffic across the border.

## SNOWSHED FERRY FOR CARS ON S. P.

**SAN FRANCISCO, Jan. 17, (Special)—**Automobile baggage car service over the snow-covered Sierra summit between Sacramento and Reno is now being given daily by the Southern Pacific Company to meet the demands of motorists.

A tri-weekly schedule for the "snowshed ferry" over the mountain snow drifts was announced by the company on December 26. Immediate popularity of the service called for daily operation of the car.

The charge for checking motor cars as baggage between Sacramento and Reno is approximately 10 cents a mile. And by availing themselves of the service, motorists have found a safe way over the Sierra Nevada Mountains in snow time. The automobile baggage car will be operated for the remainder of the winter.

Motorists may now drive to the railway station in Sacramento or Reno, obtain a baggage check for their machines at low cost, board the train and cross the mountains without trouble.

The special baggage car has end doors and automobiles are driven aboard by means of an inclined runway. There is no inconvenience attendant upon loading or unloading cars.

Mrs. Carrell leaves a husband, G. W. Carrell, two daughters, one brother, on sister and 15 grandchildren, and 2 great grandchildren to mourn her loss.

## ART HARRINGTON DAD

Congratulations run thick and fast for Art Harrington. This time it is the arrival of an heir apparent that is causing the blistered palm on Art's right hand.

The new son was born Sunday at the Las Vegas Hospital and weighed seven and one half pounds.

Both mother and son are doing nicely.
